TOLD BY AN IDIOT

FUN, ENGAGING, EDUCATIONAL WORKSHOPS WITH AN ACCLAIMED THEATRE COMPANY TO ENHANCE YOUR DRAMA CURRICULUM WORK

Who are we?

Told by an Idiot is a professional theatre company and a recognised National Portfolio Organisation of Arts Council England. Established for over 25 years, the company has an acclaimed history of creating enjoyable and innovative shows and participation workshops across the UK and internationally, with venues including Manchester Royal Exchange, Theatre Royal Plymouth, Lyric Hammersmith London and National Theatre Wales.

Using a creative style of playful and collaborative writing, anarchic physicality and a warm comedic sensibility, Told by an Idiot tells universal stories through its productions, celebrating the live event and the spontaneity this can offer.

What does a Told by an Idiot workshop look like?

Told by an Idiot offers a range of exciting, highly practical drama workshops for teachers and students, led by experienced 'Taught by an Idiot' practitioners, who are all professional theatre performers and directors with many years' experience.

Workshops that the company regularly delivers include:

- Clowning
- Commedia dell'arte
- Working with Mask
- Devising, including GCSE-level 'Devising in the Style of the Practitioner' preparation
- Physical comedy and stage combat
- Storytelling
- CPD for teachers: Told by an Idiot approaches to devising and making theatre

A Told by an Idiot schools workshop typically runs from between 2 hours and 2 days, and the company enjoys working with teachers to tailor workshops to specific requirements. Told by an Idiot is experienced in working with all age groups and currently delivers workshops and projects all over the UK and internationally, also working regularly with SEN groups.

What do teachers and students have to say about Told by an Idiot workshops and practitioners?

"This participation work should be rolled out as an example of excellence...exhilarating and empowering"

"100% the most engaging workshop leader...I wanted to listen and be included in everything he said or we did because it was unusual"

"I learned many elements of devising through play"

"I've learned new ways of creating stories with my body and having confidence in what I do"

"It was very engaging and it kept us on our toes both mentally and physically"

"The workshop was great...the students thoroughly enjoyed it and I found it very informative"

"So many ideas that I can take back into my classroom!"

THE DESIGN & TECHNOLOGY ASSOCIATION

INSPIRING THE NEXT GENERATION, WITH FREE RESOURCES
FOR FUTURE ENGINEERS AND DESIGNERS

KS3

KS4

Aeronautical Engineering

Eight interviews with mechanical engineers, offering a range of inspirational role models for students considering a career in the sector. Includes activities for KS3 which fit easily into teaching and learning in D&T.

Designing with Sustainability in Mind

A guide to sustainable design, looking at the role of the product designer, design strategies and the importance of including this in the non-examined assessment part of the GCSE Contextual Challenge.

UK Space Agency

STEM resources for KS3 and KS4 based on the James Webb Space Telescope and Satellite Launch Systems. Launch rockets, build telescopes and study the maths, science, engineering and design aspects of getting into space.

Building Service Engineers

Five interviews with engineers and associated classroom activities for late KS2 and KS3 students including careers advice for those considering an engineering career.

Inspiring innovation – intellectual property in design

Lessons and a 'business day' developed for the Intellectual Property Office. Students develop design ideas using smart and modern materials and the implications of not protecting their rights are revealed.

ACHIEVEMENT AND PROGRESSION

WORK TOGETHER WITH A NETWORK OF LIKE-MINDED PROFESSIONALS, AT UCL

LONDON'S GLOBAL UNIVERSITY

UCL

UCL is one of the world's leading universities and has long been committed to working with schools, teachers and other educational organisations in order to better enable fair access to life-changing higher education opportunities.

The Teacher and Professional Engagement team works with a number of UCL's academic departments including experts from

the UCL Institute of Education to offer a varied CPD programme of events, online resources and support for teachers and careers advisers working in state schools. The activities are free of charge and designed to help support social mobility through education.

Events take place on the UCL campus or are hosted by schools around the UK.

UCL's Access and Widening Participation Office has launched a free

Professional Learning Network (PLN) for teachers and school staff working in state schools and colleges. PLN members share online resources, and attend special events including regular 'Teacher Takeaway' twilight CPD sessions and teacher conferences. A downloadable copy of the brochure is available from www.ucl.ac.uk/wp/teachers, so you can see further details of available taster sessions and masterclasses for teachers.

MORE INFO

For more information about our taster sessions and masterclasses for teachers please download a copy of our brochure of teacher activities www.ucl.ac.uk/wp/teachers
Alternatively, register or find out more about UCL's PLN at www.ucl.ac.uk/wp/pln

GO OUTDOORS

GOING ON A SCHOOL TRIP, AWARD OR EXPEDITION?

You can't beat it

At GO Outdoors, they've got you covered! With a wide range of clothing and equipment from the best outdoor brands for activities, including skiing, horse riding, cycling, DofE expeditions, and camping, available online or in over 60 stores nationwide, you can count on GO Outdoors to keep you warm and dry during your adventures. Check out the great resources on offer for teachers organising DofE, ski trips, and other outdoor focussed school trips.

ETWINNING

THE ONLINE COMMUNITY FOR SCHOOLS ACROSS OVER 40 COUNTRIES

Who we are

eTwinning is a free and secure online network for school staff (teachers, head teachers, librarians, etc.) from **more than 40 countries**, to find partner schools to work with on international school projects. Staff can exchange best practice and enable student collaboration across any subject area. eTwinning is co-funded by the Erasmus+ programme of the European Union and is managed by the British Council in the UK.

What we offer

eTwinning supports international learning through integration of all national curriculum programmes of study. The programme provides free or fully funded high quality professional development across all subject areas through online and face to face courses, both in the UK and abroad. As well as offering free resources, professional

development, competitions and awards, eTwinning can be the first step towards the **International School Award** and **Erasmus+ funding**. Parents and governors can view the results of student project work via the free and secure eTwinning online platform.

School staff who sign up to eTwinning can partner with schools in:

eTwinning: *Albania, Austria, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Turkey, United Kingdom.*

eTwinning Plus: *Armenia, Azerbaijan, Georgia, Moldova, Tunisia, Ukraine, Jordan and Lebanon.*

How this will help pupils

eTwinning helps to develop young people's core, soft and digital skills in an inclusive way to help them to become global citizens.

eTwinning provides an audience of international peers for pupils to share and develop project work, which helps to improve their self-confidence, cultural awareness and motivation for learning.

Feel and be part of the most exciting learning community - sign up to eTwinning for free now via www.eTwinning.net

IRIS BOOKS

BREATHING LIFE INTO YOUNG ADULT LITERATURE

Who are we?

Newly-formed in 2017, Iris has started its life shining a light on engaging fiction and non-fiction. The publisher's books are not specifically designed to be curriculum resources, but they are certainly valuable adjuncts to certain areas of the curriculum.

What can we offer?

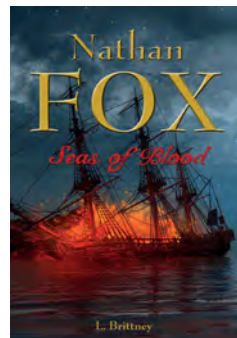

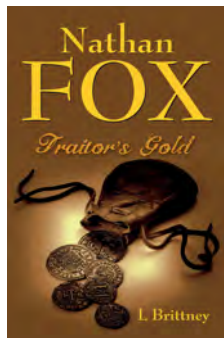

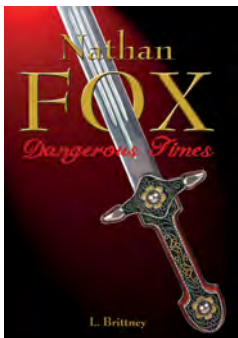

The thrilling Nathan Fox trilogy, which melds Elizabethan action adventure, espionage and intrigue, whilst skilfully weaving in a plot from one of Shakespeare's plays. The first book in the series Nathan Fox: Dangerous Times was nominated for several major prizes in the UK and abroad. This was followed by Nathan Fox: Traitor's Gold and Nathan Fox: Seas of Blood – both highly acclaimed by reviewers. To accompany each novel, Iris created fact books, The Elizabethan World of Nathan Fox, which are filled with fascinating facts and illustrations of aspects of Elizabethan life. However, they can equally well stand alone as sources of social history and teachers would find them valuable classroom aides. The Nathan Fox novels are surely the most palatable way to teach Elizabethan history and Shakespeare that anyone has ever devised!

Also, Iris has a fascinating book about the Russian Revolution, which has received overwhelming praise from critics. The question is – is it true? The Malinovsky Papers tells the story of the revolution through a breathtaking series of interviews. It is almost a detective story and, assuredly, the most comprehensive picture of the Russian Revolution that has ever been produced.

Lastly, there is a Christmas fantasy book, that is purely fun to read – Christine Kringle. This book has fared extremely well in public libraries and several children's sections have proclaimed it their most borrowed book – whatever the time of year. If you thought you knew everything about Christmas, think again!

What is our mission?

To entertain and inform, certainly. To promote literacy, particularly amongst boys. The Nathan Fox series is hugely popular amongst boys aged 11-15, but it has also proved that it can transcend age and gender – judging by the number of girls and adults who enjoy reading the books and have told the publisher so in emails, letters and online reviews. Iris loves to support libraries – school libraries in particular – and will continue to produce books that, hopefully, delight as well as inform.

To find out more about books from Iris, and to read a free comprehensive report about the Nathan Fox series, visit www.irisbooks.co.uk. For further advice, or to ask any questions, email publishing@irisbooks.co.uk

BECOME AN AQA EXAMINER

GET CLOSER TO ASSESSMENT BY MARKING GCSEs AND A-LEVELS

2019 is a great year to build your knowledge of the new and recently reformed specifications by becoming an examiner.

It may surprise you to know that as the 2018 cohort receive their results, the AQA examiner recruitment team will be actively planning the 2019 examiner recruitment campaigns.

Real rewards

Every year AQA recruits around 40,000 education professionals to help with the development and delivery of their exam services. Although many teachers and education

professionals come back year after year, attracting new teachers to the role of the examiner is essential.

There's no doubt about it; exam marking is hard work, but teachers report that the rewards are high. You can build your confidence and understanding of the specification and mark schemes. Your classroom teaching is inspired by the insight you gain from seeing student responses in formal examination conditions. And of course, there is the financial reward alongside the insight, training and CPD you gain from this role.

Strong support

If you are new to examining, it is normal to feel nervous about the process. AQA's examiner support teams and team leaders are on hand to support you. Also your allocation of papers will be kept smaller in your first year and the AQA team is really experienced in helping new examiners feel confident in their new role.

Marking starts just after the exam has been sat and nearly all of AQA's papers are marked and standardised online, which means you can fit marking around your role as a teacher. You will need to set aside around three hours a day for a three to four week period and you will earn between £500 and £1,000 depending upon the number and type of papers / questions you are marking.

Apply now to mark GCSEs and A-levels in 2019, at www.aqa.org.uk/apply

 **MORE INFO**

You can apply now for 2019 via AQA's examiner recruitment portal www.aqa.org.uk/apply or for more information email examine@aqa.org.uk

ARVON CREATIVE WRITING COURSES

BRING A GROUP FOR A 5-DAY RESIDENTIAL, TUTORED BY LEADING AUTHORS

The home of creative writing

Arvon is celebrated for its unique ability to discover and develop the writer in everyone. It has been described by Poet Laureate Carol Ann Duffy as 'the single most important organisation for sharing and exploring creative writing in the UK'.

Bring a group to one of Arvon's writing houses in Devon, Shropshire or Yorkshire, to work with published authors, and ignite a lifelong love of creative writing.

Courses tailored to your students

Each year around 50 schools and groups come to Arvon including both state and independent schools as well as community organisations working with young people and adult groups. Arvon's schools weeks are led by two professional writers, with one-to-one tutorials, group workshops, and time and space for individual writing.

Groups live, write and eat together, cooking their evening meal in teams. Great care is taken to shape each week around the particular needs and interests of the group – whether you want to bring talented writers, or individuals who need more support.

Time and space to write

Arvon works with you to select suitable writers to tutor the week, and can plan a course in any form or genre – from fiction and poetry to playwriting, songwriting, spoken word, science writing and more. In the past the organisation has offered courses for bilingual and multilingual learners, as well as courses aimed specifically at helping teachers develop their own writing while reflecting on how to bring that learning to the classroom.

Arvon's centres promote the ideal environment for imagination and creativity to thrive. The residential weeks also enhance enjoyment and engagement with writing; writing skills and attainment; well-being and self-confidence; motivation to learn; independence and social skills. For many, these five days can be life-changing.

"Arvon is one of the best ways to engage the most and least able students alike."

BIG WHEEL THEATRE COMPANY

DISTINCTIVE INTERACTIVE THEATRE FOR TEENAGERS: AN UNFORGETTABLE LEARNING EVENT

Big Wheel presents dynamic workshops that never patronise and always entertain. Our shows tie in carefully and creatively with the curriculum; our team loves learning, and wants students to feel joy in study and confidence in exams.

Some of Big Wheel's most popular offers

THE BIG BOOK SHOW demystifies literary criticism, giving students an array of clear and appealing ways to analyse and evaluate literature.

MEANING IN THE MUD examines the cultural legacy of World War I: how it influenced and continues to shape poetry, art, novels, plays, films and social attitudes.

VOULEZ-VOUS?! is an immersive workshop entirely in French: versions are available for beginners to advanced.

THE POLLUTION SOLUTION explains the science behind climate change and air quality; how our personal choices affect the planet, our local area and our own health. INTRODUCTION TO SHAKESPEARE helps students to understand and appreciate this very modern entertainer, writer, actor, director, and businessman through his tragedies, comedies and histories.

SHAKESPEARE AND TRAGEDY explores Shakespeare's concept of tragedy looking at key scenes from different plays – can be tailored to the plays you are studying.

SCOUT ADVENTURES

INVENTORS OF OUTDOOR LEARNING, HELPING YOUNG PEOPLE LEARN SKILLS FOR LIFE

Why Scout Adventures?

At Scout Adventures, everyone believes that amazing things can happen in the great outdoors. With the organisation's expertise in informal outdoor learning, and world famous Scouting heritage and values, it has inspired generations of young people to reach their potential and learn skills for life.

With over 100 years' experience in character education, Scout Adventures has helped young people enjoy fun and adventure, learn new skills and become active citizens of the future.

Brilliant Residentials

At Scout Adventures it's all about helping young people to reach their potential. The team believes that learning away can have a powerful, positive impact on young people's academic achievement.

This is supported by research by the Paul Hamlyn Foundation 'Learning Away' into residential experiences, which suggests that a residential experience can lead to a 77% improvement in attainment at secondary level. Over three quarters of young people also say they get on better with their teachers thanks to the residential.

With wider research, evaluation findings and the wealth of on-the-ground experience shared by its Learning Away schools, staff and young people, Learning Away is convinced that residentials can be highly worthwhile and impactful ways of teaching and learning.

Secondary	% of children who believed they improved in these areas as the result of a residential
Increased attainment	77%
Better engagement	71%
Improved relationships	84%
Increased confidence	82%

So the evidence is compelling and powerful. Scout Adventures understands that it has a significant role to play in helping and supporting schools to provide high quality residential experiences for young people of all ages, that are teacher-led and designed to be affordable and inclusive.

How we can support you

Scout Adventures knows that the residential is often the highlight of your year. That's why it's important that you have the information and support you need to make the right decision. The organisation will provide you with the information and resources you need to share with your team before you decide. It's crucial that you feel comfortable with every aspect of the journey, from enquiry and booking to arrival and post visit.

Once you've made the decision to book with Scout Adventures, you'll be looked after every step of the way.

VICTORIA AND ALBERT MUSEUM

THE WORLD'S LEADING MUSEUM OF ART, DESIGN AND PERFORMANCE

KS3

KS4

SEN

CPD

The V&A is the home of art, craft, design and performance. From Bauhaus to Bowie, Mackintosh to McQueen, it's packed with creativity and ideas just waiting to be unlocked and it's free for you and your students to explore!

The V&A's extensive secondary schools & colleges programme is designed to give students advice and practical hands-on experience of working in the creative industries and opportunities to meet and work with professional artists, designers and performers. All of the sessions support the National Curriculum for art and design, D&T, English, drama and the performing arts and meet key criteria for Edexcel, AQA and OCR as well as providing inspiration for STEAM teaching.

Explore the galleries and utilise the free downloadable teachers' resources covering themes from fashion through to photography, or take part in one of the museum's free, gallery-based sessions designed to explore creative responses to museum collections, develop research skills and generate starting points for projects back at school.

For a more in-depth experience take part in one of the V&A's expert workshops; choose from Ceramics, Fashion & Textiles, Digital Graphics and Design Prototyping, all led by professional artists and designers. These sessions explore the design process and take inspiration from museum

objects to develop creative thinking and making skills. For performance, take up one of the special Schools' Screen sessions and view live recordings of iconic shows from the last 25 years across UK theatres. A brilliant way to explore how drama and English set-texts are realised on stage.

Gain further industry insights through taking part in one of the museum's large-scale careers focused events or competitions. Creative Quarter and Graphic Gathering both invite students to find out more from a range of professional artists, designers and performers as well as undergraduate and postgraduate students to consider potential career pathways and develop portfolio work.

Whether taking part in the hands-on gallery sessions, practical workshops, in-depth project work, competitions or career events, there has never been a better time to visit!

COLLINS

TRUSTED RESOURCES DESIGNED TO HELP ALL STUDENTS MAKE GOOD PROGRESS

Who we are

Collins is a leading provider of resources for teachers and students, written by expert educators. Our aim is to support the education of students of all abilities through the use of high-quality, easy-to-use books and digital resources. We also want to help make your life in the classroom as easy as possible: for many of our student resources we offer accompanying Teacher Guide support, including lesson plans, progression and assessment tasks, and more.

What we offer

Assessment: Recall Tests

Practice retrieval of key knowledge for GCSE 9-1 exams with 10 minute topic tests on KS3 content. Available for maths and science, these tests include editable files and are not linked to any scheme, so can be used for independent formative assessment.

English

Take a look at samples for the new Set Text Student Guides for GCSE English – aiding the development of skills for both Language and Literature.

Maths and Science

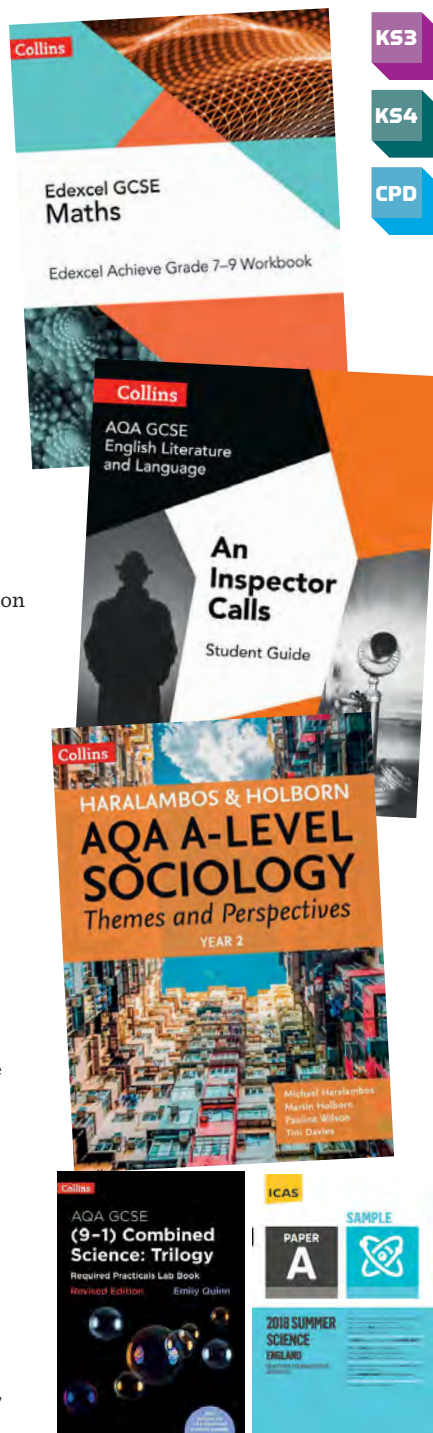

Collins has recently published grade-specific resources, providing the practice each individual student needs at exactly the right level for them. Newly available are Maths and Science Grade Booster Workbooks for levels 1-3, 4-5 and 7-9. Also, check out the resources designed to bridge the gap between KS3 and GCSE Science: GCSE Ready Transition Tests and Intervention Tasks.

Check out www.collins.co.uk to see the full range of resources across all secondary subjects.

How will this help pupils?

Collins' resources have been designed to help students reach their potential by being accessible yet comprehensive – providing one go-to place for them to develop the skills they need. Whether you're looking to top-up on Student Books, invest in assessment materials, or get your Revision Guides in plenty of time for the next exam season, Collins is always happy to discuss your requirements and help you make your budget go further wherever possible.

Simply email us to request evaluation copies: education@harpercollins.co.uk, or contact your local rep for advice on any of our resources: www.collins.co.uk/findyourrep

COLLINS REVISION AND PRACTICE

THE REVISION METHOD THAT REALLY WORKS: REPEATED PRACTICE THROUGHOUT

What is different about Collins Revision?

Collins Revision books are based on a 'repeated and spaced practice' approach.

Research proves that, compared to other revision methods, this has the most impact on exam results. When information is broken up into a number of short sessions and spaced out, the repetition of the learning point after a period of time helps students to remember it better long term. The increasingly wider spacing is important, as it requires the learner to use more effort to retrieve the information each time.

The best revision at the best price

Collins All-in-One revision and practice books give students everything they need in one place for only £3.99 (Combined Science is £9.00).

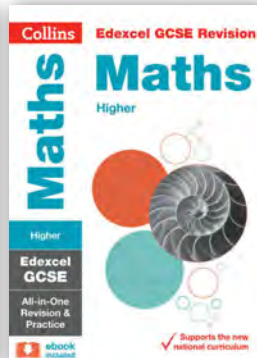

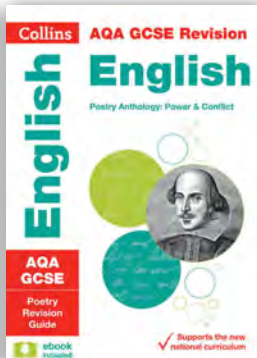

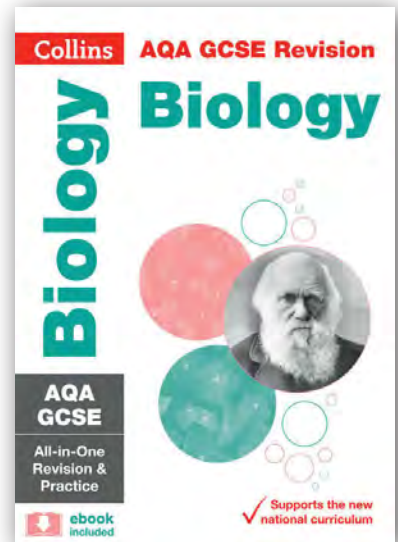

Revision

The books include the following sections to really help students follow this method with ease. Revise (the revision content broken down into topics), Practise (exam-style questions linked to the revision topic), Review (a chance to revisit questions linked to previous topics covered) and Mix-it-up (a mix of exam-style questions from various topics covered in the revision sections). There is also a full Workbook, offering further exam-style practice covering all topics and a Practice paper so that students can try an exam-style paper.

Find out more about this approach at collins.co.uk/revisionthatsticks

How does Collins Revision help my students?

By using Collins Revision, students will recall information better in the exams. Using knowledge that is embedded in their long-term memory and having grasped what is being asked of them in the exam, students can more easily apply their prior understanding to the unseen questions.

Collins

Order online for next working day delivery or call our customer services team to place an order.

GCSEPOD – EDUCATION ON DEMAND

TRUSTED BY 1300 SCHOOLS WORLDWIDE AND PROVEN TO IMPACT GCSE
EXAM RESULTS AND BOOST LEARNING.

Has GCSEPod changed much since it was first established?

GCSEPod has developed hugely since its beginnings in 2010 as an independent learning and revision tool.

This evolution has been catalysed by the changing pressures facing schools: time-strapped teachers, slashed budgets, tougher linear examinations and higher expectations.

Not only has GCSEPod adapted to changes in the UK, it has expanded into 30 countries and is trusted by a 300,000 strong user community in 1,300 schools worldwide.

What are the main features of GCSEPod?

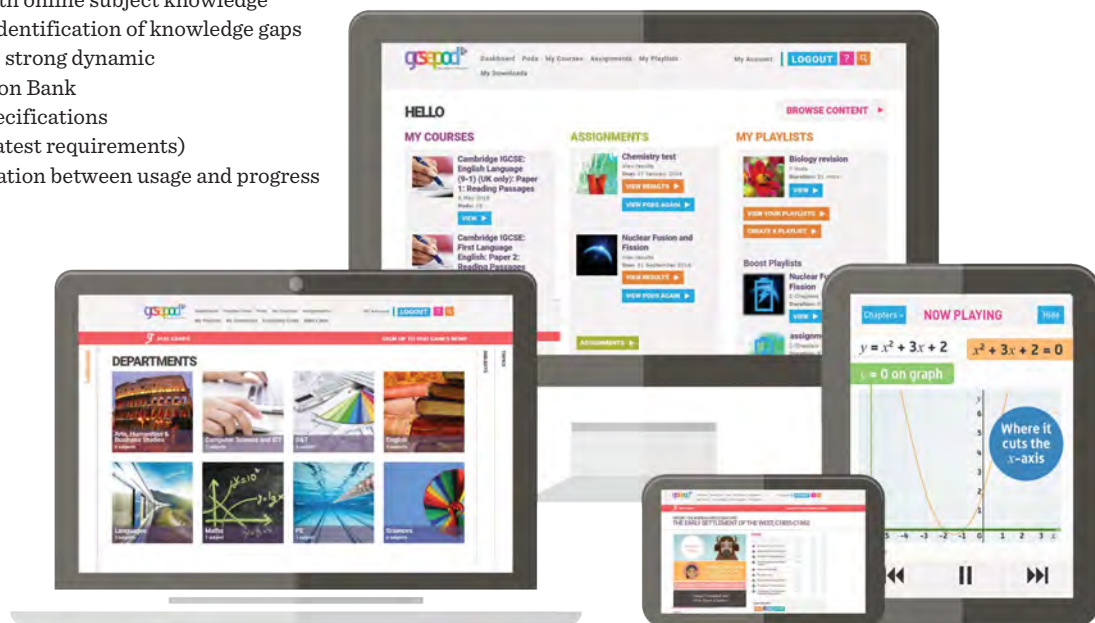

- Every exam board
- 25 GCSE/IGCSE subjects
- Reporting and monitoring
- In-depth online subject knowledge
- Auto-identification of knowledge gaps
- 50,000 strong dynamic Question Bank
- 150 specifications (incl. latest requirements)
- Correlation between usage and progress

What does the 'Pod' stand for?

At the heart of GCSEPod are its videos, known as 'Pods'. Each one is a highly concentrated, 3-5 minute burst of audio-visual learning and specialist subject knowledge for 25 curriculum areas. It's written by expert subject teachers then rigorously quality assured. Narrated by professional voice over artists and with visuals produced by an award-winning in-house design team, every Pod is mapped to GCSE and IGCSE exam boards, and the company is committed to keeping up with curriculum and technology changes.

"Wow!! Emma actually asked if GCSEPod counted as revision as she can't believe it! I can't believe it either! How fantastic to have a resource that meets students on their level, I am blown away! She actually does not feel as though she is doing revision!"

Parent, 2018

Is GCSEPod just a resource for students?

No, not at all – it is a whole school resource; a suite of teacher tools is available. You can build GCSEPod into your Schemes of Learning by using Pods to introduce new topics and spark independent study. Use the bespoke teacher tools to test understanding and further develop the application of student knowledge. Generate homework, assessment and revision tasks in seconds using our Community Question Bank. Let the Boost Playlists automatically identify and close student knowledge gaps. Keep track of progress with GCSEPod's robust and detailed reporting to intervene intelligently where support is needed most.

"GCSEPod could be a very significant step in helping to declutter the working lives of teachers, to reduce their workload, to make them more effective in monitoring their students, and then in providing more customised feedback. I'm really impressed – by GCSEPod and by the team behind it."

Geoff Barton, General Secretary, ASCL

"GCSEPod is the BEST resource I have used since I began working in education".

Sarah Eggleton, Head of English, Stretford High School

What happens after a school subscribes to GCSEPod?

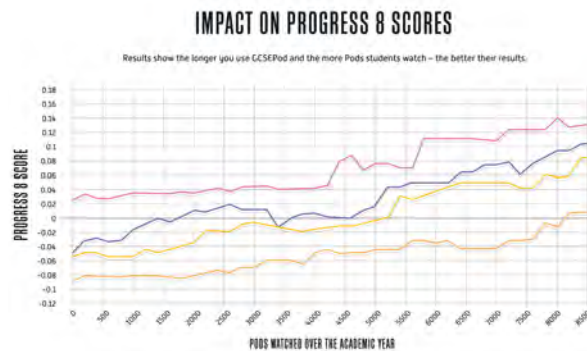

Once subscribed to GCSEPod, you will work closely with an experienced member of the Subscriptions Team and receive a ready-made digital and physical launch pack. There is no end to the number of ways GCSEPod can be used – but there is a limit to your time. That's why you will be helped to pinpoint exactly where you want the impact to be. Afterwards, your advisor can provide suggestions, resources and tailored guidance on how to reach that goal. The team is with you for your whole of your subscription and will ensure GCSEPod continues to support the ever-changing needs of your teachers and students.

"GCSEPod – minimum administrative effort for maximum results; let's face it, saving time on unnecessary tasks to free yourself up to concentrate on the jobs that really matter has got to be the teacher's Holy Grail."

Stephen Eddison, chemistry, Great Barr School

Do you have any evidence of impact?

Take a look at the graph below; the greater the usage the greater the impact.

"Data shows direct correlation between GCSEPod usage and positive Progress 8 scores. It represents extremely good value for money."

Nick Howe, Assistant Head, North Huddersfield Trust School

Call to discover the impact statistics and have a demo of how GCSEPod will work for you.

CHILD BEREAVEMENT UK - TRAINING

THE LEADING PROVIDER OF TRAINING FOR PROFESSIONALS
WORKING WITH BEREAVED FAMILIES

KS3

KS4

SEN

CPD

Who we are

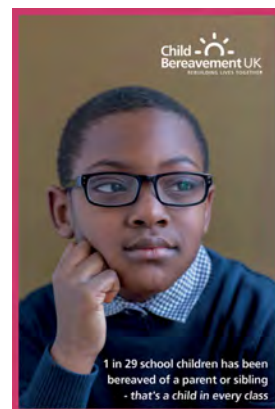

Child Bereavement UK is a national charity which has nearly 25 years' experience supporting families and educating professionals when a child grieves and when a child dies.

A death, or a life-limiting illness – be it of a parent, a pupil or a member of the school staff – can have a significant impact on the whole school community.

The charity knows from the families its supported that the way in which children's grief is managed when someone important in their lives dies, can have a profound impact on their future wellbeing.

Schools and teachers play an important role in improving outcomes for bereaved children and young people. Schools are well placed to provide this support and with some training and guidance, your school's ability to do so will be greatly enhanced.

Child Bereavement UK is a major provider of bereavement training to schools, helping them to better understand and meet the needs of grieving families. They also offer a free helpline for families and professionals who are caring for, or concerned about a bereaved child or young person.

What we offer

Child Bereavement UK's bereavement training is available in locations across the UK, covering a range of topics to enhance skills and knowledge:

- Grief and bereavement in schools
- Children and young people - loss, death and grief
- Working with bereaved children and young people with additional needs
- Teenagers and bereavement
- Creative ways of working with bereaved children
- Bereavement by suicide – supporting children, young people and families
- Understanding traumatic bereavement

All the courses can be delivered at a time and location to suit you, including inset days, the charity can also provide bespoke training to fit your requirements.

How will this help pupils?

Previous delegates report that Child Bereavement UK training helps them to feel better equipped to support the children and young people they work with:

"I feel much more confident and would highly recommend this training to all schools."

Specialist teacher

"I just wanted to know the right things to say and do. I've learnt that every situation is as unique as every child."

Deputy headteacher

"This training has immediately helped me with supporting a recently bereaved pupil."

Head of year

PGL TRAVEL

TAKING THE CLASSROOM OUTSIDE FOR A LEARNING EXPERIENCE LIKE NO OTHER

What does a PGL experience offer?

PGL courses provide an exciting range of adventure and study-based activities designed to motivate, improve confidence and develop new skills in a safe, fun and friendly environment.

What are the benefits?

Significant impacts on classroom learning include increased motivation and focus as well as a noticeable growth in students' confidence, resilience and independent thinking. The residential experience is also a major factor in strengthening relationships and learning to take responsibility for oneself and others. All PGL courses are curriculum-linked and tailored to meet the needs and requirements of your group. PGL's unique Learnlink™ pages online describe how the courses are linked to national curricula.

What's available?

Choose from a wide range of courses delivered by trained PGL teams at fifteen residential centres across the UK, three in northern France and a further three in the south of France. In addition, PGL Ski runs trips for school groups to hand-picked resorts throughout Europe and in the USA.

- Personal Development & Year Group Bonding
- Revision Weekends
- Sports Weekends – Netball Tournaments and Football Coaching
- Field Studies and subject-based courses
- French Language and Culture in northern France
- Watersports and Adventure in southern France
- Skiing and Snowboarding in Europe & USA

How easy is it to organise a PGL trip?

The company provides plenty of information and online resources to help you advertise your trip in school and to parents. If you have any questions or need any help at all, dedicated Tour Organisers are available to assist you.

PGL is a Learning Outside the Classroom Quality Badge holder so you can be assured that the activities and courses are subject to ongoing risk assessment and the centres are subject to external verification. PGL's Code of Practice and Safety Management Systems meet all legal requirements and conform to best practice and appropriate industry-approved standards, which means that many of the boxes are already ticked for you.

There's a choice of durations and prices to suit your budget with Multi-Activity weekends starting from £79+VAT per person.

WS

AVER'S VISUALISERS, CHARGE & SYNC TROLLEYS AND INTERACTIVE FLAT PANELS MAKE A MODERN CLASSROOM!

Who are we?

With over 20 years of research, development and manufacturing excellence, AVer is a proud recipient of numerous international design, innovation, awards centered on exceptional product usability, reliability and customer satisfaction. The company has operations in four separate continents with 15 international offices serving over 100 countries through 700 employees worldwide.

What do we offer?

AVer's Classroom Technology aims to make every classroom a future classroom and brings schools the Total Education Solution with the latest and best in classroom technology. With products and solutions deployed in over 500,000 classrooms globally, AVer aims to integrate collaboration at every level in the classroom. At its core is the AVer Interactive Flat Panel (IFP), a next generation class display for the classroom. AVer is also the global leader in Visualizers, providing a wide range of document cameras such Mechanical Arm, Flexible Arm, USB, Wireless, Platform. To complete the classroom solution, AVer Charge and Sync Trolleys make sure that devices in the classroom are always fully charged and ready to be used at a moment's notice. The charging trolleys support 20 to 36 devices including tablets, Chromebooks, and laptops up to 15" inch screen.

How will this help pupils?

Every time AVer supports a classroom, it continues a commitment that's been growing since 2008: a brighter tomorrow for communities across the globe. AVer's commitment has been the cornerstone of its business and inspires the company to provide award-winning educational technology solutions to thousands of K-12 schools. AVer believes that technology has the power to influence natural learning and innovation with pupils, and the impact of today's technology determines the brightness of tomorrow.

SEN

THIS FLAGSHIP EVENT AT THORPE PARK IS IDEAL FOR STEM SCHOOL TRIPS

What's happening?

This event is designed to introduce students to the exciting world of STEM as well as showcase career paths to those that have a passion for these subjects.

Earlier this year, the park invited secondary schools all over the UK to visit for the ultimate educational trip that aims to inspire those learning STEM subjects. And it's returning for 2019!

What's involved?

The event will deliver a mass variety of STEM-related activities, delivered by Middlesex University, including EEG workstations, Loco Machines, robot selfies, Kinetic Mario, AR sandbox, physiology tests, mind control and much more. 2019 promises to offer 2 hours of dwell time in the arena space for school groups but the education does not just end there.

STEM Fair 2019 will also be hosting guest speakers from the world of engineering such as the group director of

engineering at Merlin Entertainments, Dawn Childs. More headline acts to be announced, so we advise you to watch this space.

What's in it for students?

"It is an unmissable event for teachers seeking a school trip that covers various STEM subjects for really good value," says THORPE PARK education team manager, Jamie Chegwin. "The format of the event allows it to be very hands-on and fun, but most importantly we are trying to deliver that moment of inspiration for young minds that turns that wow moment into finding an exciting career aspiration."

THORPE PARK's award-winning workshop programme will still be available to be booked, but you are advised to be quick as slots are always limited on special event days.

MORE INFO

Dates are yet to be announced but rumours are that it will be before Easter half term, towards the end of March. Tickets will be maximum £15 per student and the ticket will provide full access to the rides too! However don't worry, the THORPE PARK Education Team are taking any questions and reservations (no charge/can be cancelled) now until the date is announced which can be done by teachers emailing tpschoools@thorpe-park.co.uk.

NST IS A SPECIALIST PROVIDER OF EDUCATIONAL SCHOOL TRAVEL WITH OVER 50 YEARS' EXPERIENCE

Who is NST

Founded in 1967 by a maths teacher, who recognised the need to help organise school trips, NST is now the largest educational tour operator in Europe. The company prides itself on retaining its one-to-one support and providing exceptional service to all its customers. NST organise all transport, accommodation, and visits, tailor-making the whole itinerary to suit each customer.

Your own dedicated school trip organiser

From the moment you start planning a tour with NST, a dedicated contact will work closely with you to bring your school trip ideas to life. With unrivalled knowledge of destinations across the UK, Europe and worldwide, together with years of experience in planning unforgettable school trips, NST will help you to create a learning experience that's as unique as your group itself.

Curriculum-linked school trips

NST offers a value for money range of trips, covering a wide variety of subject areas, from the arts, music, and humanities, right through to languages, sciences, mathematics, and history. NST's tour programme has been designed alongside teachers to ensure it best matches the current curriculum and examination board specifications and includes subject specific learning resources.

Peace of mind

Safety is at the heart of every NST school trip and the company's vigilant approach to safety management will offer reassurance to both teachers and parents. You'll have financial protection as NST is fully bonded through ABTA and ATOL, and licensed by IATA too.

The benefits for your students

There's no substitute for a real experience in the wider world to inspire students' imaginations, and going on a school trip will do just that. Educational visits give students the opportunity of new and memorable experiences, providing opportunities and benefits that cannot be achieved in any other educational context or setting. Learning outside the classroom not only improves students' engagement with learning, but also improves their knowledge, skills, understanding, self-confidence and wellbeing, as well as fostering deeper relationships and boosting cohesion and a sense of belonging.

BKSB

THE UK'S NUMBER ONE PROVIDER OF GCSE AND FUNCTIONAL SKILLS ELEARNING SOLUTIONS

GCSE ACHIEVE

Who are we?

Established for over 20 years, bksb's outstanding English, maths and science solutions are used by thousands of education providers and millions of learners around the world. Used in hundreds of schools across the UK, bksb's school package, GCSE Achieve, helps schools improve success rates across the board. And what's more, all bksb products are designed with Ofsted's Quality of Teaching, Learning and Assessment requirements in mind, allowing tutors and managers to analyse data and evidence distance travelled.

What is bksb?

GCSE Achieve covers the 2017 qualifications, with each of the modular courses consisting of a

diagnostic assessment, a corresponding suite of interactive resources, and a matching practice exam.

The GCSE Achieve package is accessed via the award-winning eLearning platform, bksbLIVE 2, which features an upgraded interface based on Google material design. Schools benefit from powerful and insightful reporting facilities which aid funding and inspection evidence, and personalisation features giving both organisations and learners the opportunity to give the system a more bespoke feel. Additionally, the shift towards video resources and interactive learning content means that many of bksb's Learning Resources now contain video tutorials and animations to help students understand topics more effectively. These resources are not only

informative, but they also significantly increase student engagement and maximise the learning experience.

How will it help students?

Secondary schools, academies, and sixth forms use GCSE Achieve to identify and support learners' skill gaps in English, maths and science. Using bksb's solutions can have a significant impact on individuals' success rates, allowing learners to work independently and see for themselves where they are going wrong. This helps to enhance teaching and supplements lessons, structured homework, and revision. bksb is proven to be highly effective with disaffected learners, improving their skills in the classroom or at home, and generating evidence of progression.

The company is convinced that you will find bksb to be an invaluable addition to your school, and would love to give you the opportunity to try it for FREE. Your entire school can have access until 31st December 2018 at no cost, with no obligation to continue after this date.

To claim your free use of bksb, please complete this form:

CASIO PROJECTORS

THE ONLY MANUFACTURER WITH AN ENTIRE LAMP-FREE RANGE

KS3

KS4

SEN

CPD

WS

The Benefits of Lamp-Free Projection

1. Shorter start up and shut down time

Casio projectors reach full brightness and clarity in as little as 5 seconds* (*8 seconds with Slim Series) meaning that there is no delay before you can start to deliver your lesson content. As they are quick to power on and off, there is no need to worry about classroom visuals when time between lessons is limited or you are returning to the classroom after break time, leaving you free to focus on other aspects of classroom and material preparation.

2. Minimal maintenance and Peace of mind

There are no user-maintained parts in Casio projectors, no lamps are used nor is filter exchange necessary. This means that the image will not dim with use, ensuring that visuals are always clear from any position in the classroom. Clear and vivid visuals help to keep students engaged and on-task. In addition, you will never need to teach using an image that is unfit for purpose while you wait for a projector to be maintained.

3. Reductions in energy consumption and Environmental impact

Depending on the timetable, a classroom projector may be in use for much of the day. The Laser & LED Hybrid light source developed by Casio draws significantly less power than a lamp-based projector. The gap in power consumption between Casio units and traditional projectors can be as much as 40%. This reduced need for electricity not only means that the school will save money but also you can take pride in using more sustainable technology. Projector lamps also use mercury that is harmful if a lamp bursts and this is particularly undesirable in an environment for young people.

HegartyMaths

Best ever GCSE Maths results!

Andy Grady, Director of Learning of Mathematics at De Ferrers Academy, talks about the impact HegartyMaths has had on students' learning...

"It is no coincidence that **we achieved our best ever GCSE Mathematics results in the same year that we subscribed to HegartyMaths.**

Alongside the headline figures of over 80% Grade A*-C, we recorded our best results in terms of levels of progress for all students, the highest proportion of grade A/A* and some fantastic improvements from our January mock exams when we started to use the site heavily. We had no hesitation in subscribing for a further year and we have not renewed our subscriptions for two other online services.

HegartyMaths complements our teaching philosophy of

mastering mathematics through constant recap of previous knowledge, spaced learning and regular practice.

The new Fix Up 5 feature has been a great addition to the site and has been just the flip that our students have needed to give them that extra push in the final months of revision.

Our completion of homework and the number of questions attempted and answered by students has never been higher.

The customer service that Colin and his team provide has been excellent and they are always looking for innovative ways to improve the site further. **I would highly recommend HegartyMaths as the cornerstone for online homework** - it reduces the workload of my staff whilst also improving the speed and quality of feedback which they can provide to improve outcomes for our students."

TOP SCHOOL TRIPS

EVERYTHING YOU NEED TO KNOW TO GET THE BEST EDUCATIONAL AND EMOTIONAL VALUE FROM YOUR SCHOOL RESIDENTIAL

Produced by the publishers of Teach Secondary, Top School Trips magazine reaches an attentive audience who have come to know and trust our relevant and expert editorial.

We all know that a school trip can be a transformational moment in a student's education, raising aspirations, increasing self-esteem and equipping children with skills for life.

So Top School Trips magazine wants to share the very best of these experiences, giving teachers inspiring choices for memorable journeys beyond the classroom.

Why we need trips

As a large part of this magazine aims to make clear, learning outside the classroom, and heading out to sites of cultural and academic interest or those focused on personal development, in particular, can yield positive results across the curriculum.

It can help engage students in their learning, support their understanding of complex topics and issues, boost their confidence and motivation, and even change the way they view the world.

With the potential to develop the hard and soft skills children must learn as they approach adulthood, it's hard to overstate the humble school trip's value.

From developing leadership potential to helping staff and students forge better relationships, we explore every aspect of how going on a school trip benefits young people and their education.

Be it outdoor adventures, historical discoveries or fascinating stage shows, in every issue we focus on some of the most popular types of school trip and highlight the most exciting options in each sector.

The practical stuff

A successful school trip is a well-planned school trip. We provide expert advice on everything from arranging transport and insurance to communicating with parents and supporting children with SEND.

These seminal trips can change the course of a student's education. We look at just how they have affected the lives of young people and what teachers can do to make every aspect of the experience a success.

SCHOOL BADGE STORE

SUPPLIERS OF THE UK'S LARGEST RANGE OF SCHOOL BADGES AND LANYARDS

KS3

KS4

SEN

CPD

Who we are

School Badge Store is the UK's leading supplier of school badges and lanyards. It has an enormous stock facility, allowing for a fast turnaround, and offers clients the option of designing their own customised badges and lanyards with personalised school details and logos. School Badge Store is a friendly, professional, efficient, family-run company that is more than happy to help with enquiries and orders by phone, email, fax or online chat.

What we offer

School Badge Store has 1000s of badges and lanyards in stock, with a huge range of titles and colours to cover the requirements of its customers. All stock items are dispatched quickly, often with next-day delivery. Where you require a customised text / shape / colour, they can assist with designing something special for your school - all at the most competitive prices. School Badge Store also supply a large range of trophies that can all be personalised. Other products such as pencils, T-shirts, hoodies and hi-vis jackets are being added to its range of merchandise this Autumn. The School Badge Store's friendly sales team are extremely helpful and knowledgeable about their products and will go out of their way to produce and deliver top-quality results, on time.

How will this help pupils

School Badge Store supplies badges with hundreds of different texts and colours. There are many shape options too from shields, bars and stars to musical notes and art palettes - each of which is meaningful to the recipient. Pupils wear their badges with huge pride in recognition of their achievements. The encouragement, respect and pleasure that pupils feel from wearing a badge helps them to work harder and deliver the best results. A pupil who receives a badge knows their hard work, good attendance, ability or improvement has not gone unnoticed; it's the most effective reward a teacher can give a pupil of any age.

Happy Pupils Learn - encourage your pupils to reach their full potential by giving them a badge and making them smile.

SADAKO'S CRANES FOR PEACE

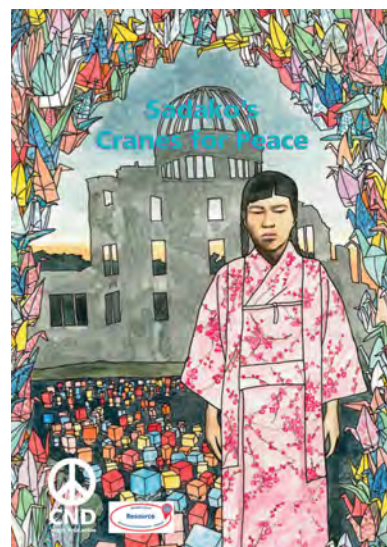

A CND PEACE EDUCATION TEACHING PACK FOR PRIMARY AND SECONDARY,
INDEPENDENTLY REVIEWED BY JOHN DABELL

This resource from CND Peace Education tells the true story of Sadako Sasaki, a young Japanese girl who was just two years old when the world's first atomic bomb dropped on Hiroshima, about one mile away from her home. Although thousands were killed instantaneously, Sadako survived the explosion, seemingly unscathed; however, over the course of the next ten years, she developed leukaemia from the bomb's radiation.

While hospitalised, her father reminded her of an ancient Japanese legend that if she folded 1,000 paper cranes, the gods might grant her wish to be well again. Sadako spent 14 months in hospital, and folded around 1,600 origami cranes as a way to express her hopes for peace, and courage to fight her illness, until the disease claimed her life at age 12.

Sadako's Cranes for Peace is remarkable lesson pack because it symbolises the hope for a brighter future and to inspire children to pursue a peaceful and just world. It skilfully explores the background surrounding this awful event in history through an accessible comic strip activity, diary, photos, video links, comprehension and origami lesson where students make their own cranes for peace.

Creating peace is like folding a crane because at first it seems impossible, but with patience, intent and concentration, it emerges. When we hear about the victims of war and the dreadful experiences of innocent civilians, it makes us all wish for peace. What this pack does is make the experience of war feel personal, highly relevant and unforgettable. It also links movingly to CND Peace Education's 'Truman on Trial' resource (reviewed in the September 2018 issue of Teach Secondary magazine).

Verdict

Beautiful and full of grace, an ideal resource for Philosophy for Children effortlessly links peace and global education with Science, Technology, Engineering, Arts and Maths (STEAM), use independently or as a sequence of several lessons devoted to peace and politics.

Upgrade if...

You are looking for touching and poignant resources to engage students in thinking about world peace.

TEACH SECONDARY

AN ESSENTIAL MAGAZINE FOR TEACHERS OF 11-18 YEAR OLDS

KS3

KS4

SEN

CPD

Your essential resource

The world of education is fast-moving and high-pressured; everyone has an opinion, and no one can deny that what happens in schools is incredibly important, for students, communities and indeed, our nation's future.

Expectations of teachers have arguably never been higher; yet at the same time, the status of the profession is somehow strangely undervalued.

Teach Secondary acknowledges this – and responds with an editorial policy that is based on respect and celebration.

What's inside?

Sharp, relevant contributions from some of the most innovative and credible educational thinkers and practitioners around are presented with style and in a way that encourages challenge and debate.

Real voices from actual classrooms ensure that effective teaching and learning is always the main mission, with sharing best practice a top priority.

Teach Secondary delivers brilliant content that inspires, informs, entertains – and encourages dialogue at every step. Never afraid of controversy, our contributors tackle education's big issues with real insight.

Big names in education

Featuring outstanding advice, inspiration and comments from some of the most innovative educational thinkers and practitioners around, Teach Secondary highlights examples of best practice, putting new products through their paces, and providing a regular collection of edgy and original lesson plans that can be adapted for any classroom... not to mention an entertaining and enlightening read.

Each issue includes:

- Incisive, thought-provoking writing that looks at education from every angle
- Regular columnists: Fiona Millar, David Didau, Alex Quigley, Vic Goddard and Tom Starkey
- Original, inspiring lesson plans for KS3 and 4 across the curriculum
- New ideas for assessment, planning, behaviour management and more
- Stories of innovative practice from successful schools throughout the UK
- Brilliant resources for today's teaching and learning
- Support for your professional journey at every step of the way
