Rising Stars

Teach ★ Learn ★ Shine

THE LAUNCH PAD TO READING SUCCESS

Rising Stars Reading Planet is an exciting new reading programme for Reception and KS1 based on the latest literacy research in the UK. Developed for the new curriculum, it is made up of four strands, with over 200 new reading books, to ensure you have a fantastic variety and choice of books at every book band level. This powerful combination of exciting fiction, non-fiction, poetry and plays, with phonics and speech rhythm training, helps all children develop the skills they need to learn to read and love reading.

- ★ Uses the latest strategies for developing reading skills.
- ★ Embeds phonics and deepens comprehension.
- ★ Contains teaching support for both independent and guided reading.

Go to risingstarsreadingplanet.com to find out more and order an evaluation pack.

A COMPLETE PROGRAMME TO CONFIDENTLY IMPLEMENT A MASTERY CURRICULUM ACROSS YOUR SCHOOL

Rising Stars Mathematics is a high-quality primary mathematics programme developed to help all children master the new curriculum. It offers a complete solution to primary maths, adapting the best teaching-and-learning approaches from the UK, Shanghai and Singapore to develop maths mastery in every classroom. *Rising Stars Mathematics* has been developed by UK mathematics experts and educators to meet the Mathematics Textbook Guidance produced by the National Centre for Excellence in the Teaching of Mathematics (NCETM).

- ★ Robust, high-quality textbooks written to meet the NCETM textbook guidelines.
- ★ Wealth of digital materials to give you the flexibility to design engaging lessons.
- ★ Supportive teacher guidance and training videos ensure all teachers have the confidence to deliver a mastery curriculum.

Go to risingstars-uk.com/rsm to find out more and order an evaluation pack.

Creative Curriculum Comics

Special introductory deal – over 40% off!

KS1

KS2

SEN

The curriculum is made fun and simple with Direct-ED's new Creative Curriculum Comic. Bespoke exercise book manufacturer Direct-ED has created a brand new curriculum-based activity comic to try to make the often-dull curriculum more interesting.

Illustrated by a former Marvel and DC comic artist, these comics are packed full of cartoon strips that help the children learn as they read. Each cartoon strip is coupled with an activity and worksheet to further understand and learn the subject material.

For the readers of this guide only we are offering a special introductory deal: try a pack of each comic for just £350.

This gets you 12 different subjects, 25 comics of each, for a fraction of the usual cost of £585. Call or email to find out more about this offer.

As well as comics, Direct-ED is a major player in the exercise book market. This has been recognised by the industry with Direct-ED being nominated for the School Procurement Services award at the Education Investors Awards.

Aramazu

The teacher's friend for teaching the time

Aramazu offers teachers a proven route for the teaching of analogue and digital time. This online resource revolutionises the teaching of this awkward subject by making it story-driven and simple to understand. Video book versions of the award-winning Aramazu illustrated books describe a journey that time makes around the clock-face and a secret code to find where it is on its travels.

Offering separate entry points for KS1 and KS2, each level of learning is supported by interactive clocks, printable activity sheets and lesson plans. Optional resources include classroom clocks, magnetic teaching board and pupils' practice clocks. Aramazu claims to be the teacher's friend for learning to tell the time – so what do teachers say?

KS1

KS2

"75% of my class learned in three days,
90% in four. I am amazed."
JC Hambridge Primary School

"I really do find Aramazu an invaluable tool."
OJJ St Christopher's School

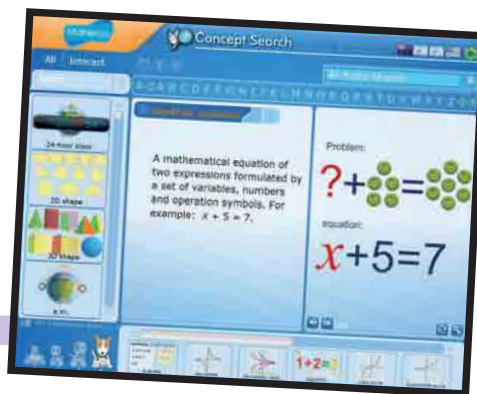

"Quite simply, if you are in doubt, then try it.
It just works!"
PB Warren Wood Primary School

3P Learning

Assisting teachers by offering the best education resources available

KS1

KS2

WHO WE ARE

3P Learning is a leading provider of digital maths and literacy resources, helping schools increase engagement and improve results.

WHAT WE OFFER

Maths

Mathletics is an award-winning digital resource, used by more than 5,000 schools in the UK. It is designed to help students improve their maths and increase their confidence in the subject. Mathletics contains curriculum-aligned activities to develop mathematical fluency, problem solving and reasoning skills. Students are given instant feedback and rewarded for their achievements. Teachers can assign bespoke courses to students, access diagnostic reporting tools and monitor student results.

Reading

Reading Eggs is a digital resource that teaches children how to read and to develop a love of reading. It supports the national curriculum by promoting a love of reading using rewards to motivate children to read. Reading Eggs provides teachers with whole-class resources to develop students' comprehension skills.

Spelling, grammar and punctuation

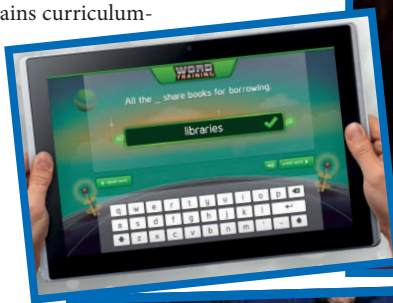

Spellodrome is a digital resource that helps children to develop their spelling, writing and communication skills to support them in the SPAG/GPS elements of the curriculum. It contains curriculum-aligned word lists for KS1 and KS2 that can be customised to meet your needs. Children practise their spellings based on your word lists. Teachers can access printable worksheets focusing on spelling practice, grammar and punctuation, as well as tools to develop writing skills and online standard benchmarking tests.

HOW WILL IT HELP STUDENTS?

Mathletics is proven to improve results. A study by the University of Oxford analysed its impact on KS2 SATs results, finding schools where pupils completed on average at least three Mathletics activities per week did significantly better on a range of measures, compared to schools that did not use Mathletics. A significantly higher proportion of pupils made at least two levels of progress and a significantly higher proportion of pupils achieved Level 4, 5 and 6. For more information about the study visit uk.mathletics.com/advantage.

Reading Eggs helps students build skills in five areas; phonemic awareness and phonics, sight words, vocabulary, fluency and comprehension, as well as developing a love of reading.

Spellodrome encourages children to learn independently and develop critical spelling awareness using visual, phonological, morphemic and etymological strategies, while making spelling practice fun.

Theatre Exchange

High-quality theatre, drama and dance experiences for children and young people

EY

KS1

KS2

Theatre Exchange, established since 1997, has over the past 20 years worked across the South East offering a broad range of drama experiences to support teaching and learning in schools.

It has developed a range of products, designed alongside teachers to bring out key elements of the national curriculum and incorporate different styles of learning through drama.

Topics include: Ancient Greece, prehistory, the Maya, Egyptians, Romans, Vikings and more.

"The children's reaction and interaction was at an extremely high level – they were completely absorbed by the acting and information given. This was due to the high quality of content and delivery."

Smooga

Improve PE, Sports and Playground Safety with a smooga

Smooga is a new and unique way of managing your outside space. Smoogas are portable, flexible Multi-Use Games Areas – ideal for playgrounds and playing fields. As they are modular, you can move them and change the size and shape to suit different games and activities.

Smoogas remove conflicts in the playground, making better use of available space and creating safer environments for all – both inside and outside of the smooga. If football dominates your playground – now it doesn't have to.

A smooga improves your PE environment, promotes skills-development and encourages higher

levels of inclusion, fun, excitement and engagement. Children love the feeling of being inside the exciting arena that a smooga creates.

Smoogas are versatile and inclusive – used in schools all over the country for; hockey, handball, football, smooga-snooker, movement and dance, scooting, drama, maths, rollerblading, cricket and much more. It's a real asset for any school.

NBB School Shelters

EY

KS1

KS2

Optimise your school space for learning with NBB School Shelters.

A LITTLE BIT ABOUT US

Founded in 1990, NBB School Shelters has become the UK's leading manufacturer of school shelters. Over the years we have had thousands of satisfied schools, colleges and universities nationwide, and we pride ourselves on our personal bespoke service that allows us to tailor your shelter specifically for you. We understand every school is different, with different priorities, so whatever it is you need we can work with you to fulfil your specific requirements.

WHY CHOOSE A SHELTER SOLUTION?

According to the 2015 School Census, the number of primary school pupils in England has risen by 2 per cent since 2014. That's an increase of 94,000 pupils, meaning that over 100,000 of our infants are being taught in primary school classes larger than the maximum set out by the government. I'm sure you are well aware of the strain this puts on classroom space, and that space comes at a premium. Therefore, a shelter that creates an extension to your existing classroom is an excellent solution.

Here at NBB we have provided numerous schools with shelters to make extra space for bulging class sizes. Not only can we tailor it specifically to your needs, but we also offer extremely competitive prices. However, if funding is an issue, you can visit our website where we have a Funding Help Guide that offers useful information on monetary solutions (nbbschoolshelters.co.uk/page/Downloads).

WHY IS SPACE BENEFICIAL TO THE STUDENTS?

Whilst in the education system, children are at a very vulnerable stage in their life and space to grow and mature as individuals is paramount. Limited space and resources can be extremely damaging on a child's development. It can not only hinder their enjoyment and, in turn, learning, but it can also affect the teacher's stress levels and have a negative impact on their motivation to teach. This is why a shelter to extend an existing classroom can be so beneficial. Not only can it offer the much-needed space you require, but it can be obtained at a fraction of the cost of a new classroom.

Flat Stan First Aid Workshops

KS1

KS2

Introducing young children to essential life skills

Flat Stan First Aid workshops teach children basic first aid using a simplistic, interactive approach that's less daunting for children than conventional first aid methods. The fun and enriching workshops are delivered by qualified first aid trainers, using specially developed Flat Stan manikins and books. These workshops are delivered nationally, providing children with essential life skills.

Public affairs advisor for the British Red Cross said: "Only 7 per cent of the UK population has the skills and confidence to carry-out basic first aid in an emergency. We believe that building first aid into basic education from an early age can play a vital role in turning this situation around".

FLAT STAN WORKSHOPS

These teach children essential life skills using techniques that make it easy for them to absorb and remember. So should an emergency situation ever arise, they can put these skills into practise. The course includes:

- What first aid is and who can deliver it.
- When and how to get help (calling 999).
- How to check if someone is responsive and what to do if they are not breathing.
- The choking casualty.
- How to deal with a bleeding casualty or someone that has suffered a burn.

Each child receives a Flat Stan First Aid book at the end of the workshop.

DEFIBRILLATOR PACKAGES

Defibrillators are becoming more commonplace in schools, and we offer a range of packages which include training. Or, if you already have a unit we can provide cabinets as well as training and awareness sessions.

TRAIN THE TEACHER COURSES

As an alternative we can train your staff to deliver the workshops. This one-day course includes adult and child emergency first aid session, introduction to Flat Stan First Aid, and how to deliver the workshops. Package includes manikins and books for your school. Courses are available throughout the UK.

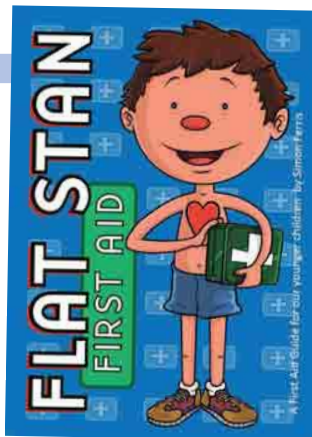

We also deliver a wide range of First Aid Courses for adults including Paediatric First Aid, Emergency First Aid at Work and Defibrillator training. All the courses are delivered at your premises and can be tailor-made to suit your specific needs. We are on-hand to offer advice regarding the appropriate courses for your school.

Flat Stan First Aid is proud to be supported by the First Aid Industry Body and the Association Of First Aiders

Cubicle Centre

Free school resources to help you create outstanding washrooms

What state are your school washrooms in? Grubby toilets can have a negative effect on your pupils' health, self-worth and performance. Outstanding washrooms can have a knock-on effect that improves the whole school.

If your washrooms are old and tatty it might be time for a refurbishment, or sometimes better products and maintenance can improve the existing facilities. Either way, Cubicle Centre can help you provide the toilets your students deserve.

Cubicle Centre is an award-winning family business that specialises in the manufacture of washroom panel products with some of the shortest lead times in the cubicle industry. It has supplied toilet and shower cubicles to thousands of schools in the UK, and provides advice to any school wanting to offer their pupils better facilities. Guides, articles, resources and layouts are all available for free.

FREE GUIDE TO SCHOOL WASHROOMS

Is your school planning a washroom refurbishment? Do you want to make sure your current facilities meet regulations? This guide has all the information you need. Regulations, washroom layouts, Ofsted advice, toilets consignment and age-related products are all included.

FREE SCHOOL TOILET POSTERS

Cubicle Centre partnered with ERIC, the children's bowel and bladder charity, to create these great posters. Using fun, humorous illustrations they remind children to flush, wash their hands and throw away rubbish. The eight designs are available to download and print for free.

MADE-TO-MEASURE TOILET CUBICLES

Whatever your design, space or budget Cubicle Centre can help with your project. Cubicle ranges are available for every age group, from colourful, low-height toilet cubicles for early year settings to safe, durable and fun cubicles for primary schools.

Its sales team is on hand to discuss your project and guide you through the process from start to finish.

The smallest rooms in the school can lead to the biggest frustrations, but Cubicle Centre is working hard to make your life as easy as possible.

CAFOD KS2 Geography pack

Explore El Salvador with CAFOD's resource pack for the new geography curriculum

CAFOD
Just one world

CAFOD's geography education pack focuses on El Salvador, and is presented through the eyes of four children living in different areas of the country. It uses stories, photographs and films to give an insight into the many geographical challenges faced by El Salvadoran communities, engaging children with a wide range of issues including the landscape, climate, natural hazards, trade, migration and culture.

The KS2 El Salvador Geography education pack won the Silver Award at the Geographical Association Publishers' Awards

in 2015, and includes a map, El Salvador information sheets, cross-curricular grid and geography activities sheet, photo cards and online films.

No Nonsense Grammar

KS1

KS2

CPD

The new grammar programme, developed for the new curriculum, from Raintree

WHO WE ARE

Raintree is an educational publisher dedicated to providing schools with high-quality classroom resources to promote literacy at all levels.

WHAT WE OFFER

No Nonsense Grammar is the new whole-school grammar solution developed for the new curriculum. It follows the huge success of the award-winning No Nonsense Spelling, released last year, which has proven extremely popular with teachers needing to increase their school's SPaG test outcomes.

No Nonsense Grammar meets the requirements of today's schools with a fresh, innovative 21st-century approach and embraces the requirement to teach grammar in context. There's a unique Sentence Toolkit that makes learning grammar a multisensory experience, and all assessment links to the new performance descriptors.

The programme has been created by Raintree and the Babcock LDP Literacy team in response to Devon teachers' concerns over implementing the new curriculum. The Babcock team of experienced KS1-2 teachers and advisers saw great results in Devon, which led to their collaboration with Raintree Publishers to offer the programme to teachers nationwide.

HOW WILL THIS HELP TEACHERS?

The majority of Devon schools have already adopted No Nonsense Grammar, and it is now available to schools throughout the UK.

No Nonsense Grammar brings you the same easy-to-use pathways, progressive assessment activities and teacher guides as the award-winning No Nonsense Spelling, and also:

- Covers all strands of the new grammar curriculum for years 1 to 6
- Includes a foreword written by Professor Debra Myhill
- Shows you how to teach grammar in context, with PDFs of example texts, video guidance and editable activities and resources supplied on a USB stick
- Includes a whole section devoted to grammar knowledge
- Includes a dynamic Sentence Toolkit for Teachers, helping to make learning grammar a multi-sensory experience
- Links assessment objectives to the new performance descriptors with progressive and diagnostic assessment.

Healthy Tuck Shop

An enterprising way to boost your school's 5 a day

Pupils Profit

Enterprise based PSHE learning

KS1

KS2

SEN

Pupils Profit gives children the chance to set up and operate a child-led, sustainable Healthy Tuck Shop business in their school. All Healthy Tuck Shop snacks comply with the Children's Food Trust guidelines, so the team of children running the tuck shop also become promoters of healthy eating in their school.

Founder Elizabeth Gimblett says: "Aside from the valuable benefit of adding to children's five-a-day intake across the school, children learn so much by operating a business – from the PSHE goals of building

confidence and resilience to change, to practicing real-world applications for numeracy and literacy. They'll also be developing an understanding of career choices, and practicing all STEMNET's top 10 employability skills as well."

Schools have the option to use a Pupils Profit Healthy Tuck Shop Enterprise Toolkit or simply to purchase stock for an existing tuck shop.

To request more information about the Healthy Tuck Shop, and find out about other Pupils Profit enterprise and money management resources, please email info@pupilsprofit.com

- ✓ Boost 5 a day intake across your school
- ✓ Improve concentration by reducing hunger
- ✓ Pupil led
- ✓ Develop confidence, team work, employability skills
- ✓ Opportunities to practice maths

More
Info

First 10 schools to book an enterprise toolkit will receive a free box of naturally flavoured raisins with their first stock order.

Monkey World – Ape Rescue Centre

Monkey World provides sanctuary to over 250 primates of more than 20 different species

WHO WE ARE

Set in the heart of the Dorset countryside, Monkey World – Ape Rescue Centre provides a sanctuary to over 250 rescued and endangered primates of over 20 different species. Monkey World was set up in 1987 by Jim Cronin to provide abused Spanish beach chimps with a permanent, stable home. Today, Monkey World works in conjunction with foreign governments from all over the world to stop the illegal smuggling of apes out of Africa and Asia. The expert team of primate care staff work around the clock to rehabilitate and integrate the animals into natural living groups. The park is open every day to visitors, and provides fun and education to people of all ages.

WHAT WE OFFER

Combining fun with conservation and animal education, half-hourly talks by the dedicated Primate Care Staff explain all about man's closest living relative. They love to share their knowledge of all the individuals in their care, so don't hesitate to ask any questions when the talk is over. Pre-bookable guided tours are also available.

There are cafés serving a selection of hot and cold food and drink, or you can bring along a picnic to enjoy in the beautiful woodland setting. Monkey World is also home to the south's largest play area, The Great Ape play area, where the whole family can let off steam and monkey around! Group and school discounts are available when you pre-book.

HOW WILL IT HELP PUPILS?

Monkey World – Ape Rescue Centre in Dorset is pleased to offer a range of educational talks both at the park and in the classroom. A member of our dedicated education team can visit your school and deliver a talk tailored to your teaching needs. Alternatively, bring your class to us! You can spend the day at Monkey World and enjoy a talk from our team. We also offer enrichment workshops where you can spend time making items to be given to the primates.

Appsme Education

KS1

KS2

The perfect interactive app-building platform for schools has arrived

Appsme Education has developed an online tool which teaches, inspires and fits into the curriculum: a drag-and-drop Mobile App Builder aimed at children from year 4! Schools who want to deliver stimulating, interactive, engaging and enjoyable lessons that make learning fulfilling, need look no further.

With Appsme Education you don't need to know how to code, and it's not just for science and computing teachers either – you can use the tool to create an app for almost any subject. For example, why not incorporate it into history lessons and build an app about the

Romans, or maybe one about DNA in Biology? The added bonus is your students can also download their apps to their smartphones and share them with all their teachers, friends and family.

Your students have a platform to learn and express themselves in more-diverse, interesting and unique ways. They can exhibit and archive their educational journey, documenting things like performances and sports days, and look back on all their achievements with pride.

Headstart Primary

English Reading Comprehension - Success in Years 1 to 6

KS1

KS2

Headstart Primary knows how busy teachers are. It understands that they need top-quality resources to help them meet the demands of delivering a very busy curriculum. English Reading Comprehension from Headstart Primary allows students covering KS1 and 2 to practise skills from the national curriculum and the 2016 English reading test frameworks.

WHAT IS THE PURPOSE?

- To promote formative assessment information to assist planning
- To develop children's reading skills and their engagement with literature
- To provide summative assessment opportunities in the 3 end-of-term tests
- To help children learn through enjoyment

WHAT ABOUT THE CONTENT?

- Organised in line with English national curriculum objectives
- Combines a range of fiction and non-fiction
- Texts are designed to engage and stimulate children's interest
- Includes three end-of-term tests
- Tests relate to the 2016 English Reading Test Frameworks (STA documents)

ENGLISH READING TEST FRAMEWORKS 2016

The English Reading Test Frameworks 2016 (Key Stages 1 and 2) were used to create the 2016 SATS Reading Tests. The three end-of-term tests in the HeadStart Reading Comprehension Series were created using the content domain references from these documents, along with the objectives from the English national curriculum.

PGL Travel

Inspirational adventure and study courses at PGL centres in the UK and France

WHO WE ARE

Established in 1957, today PGL is the UK's largest provider of outdoor education courses for schools, offering a range of inspiring, adventure-based learning programmes at our residential adventure centres in the UK and France.

WHAT WE OFFER

PGL curriculum-linked courses are tailored to meet the needs and requirements of individual groups and are delivered by trained PGL staff at 14 residential adventure centres across the UK and three in northern France.

COURSES

- Multi-Activity: Over 50 exciting adventure activities, including watersports, delivered by our friendly instructors in programmes designed to motivate and challenge and to meet the requirements of your group.
- UK Explorer: Discover history, culture, people and places, based at a PGL centre. Excursions combined with adventure activities create a varied and stimulating school trip.
- Discover More: Engage young minds with tailor-made study modules in geography, maths, computing and science. Each subject incorporates adventure activities to create the perfect outdoor learning experience.
- French Language and Culture: Get your pupils off to a flying start with fully supported French language courses and excursion programmes at PGL centres in Paris, Normandy and the Opal Coast.
- Primary to Secondary Transition: Moving to a new school is an exciting and often challenging event. This course helps children develop the self-belief and confidence to face the transition to secondary education.

HOW WILL THIS HELP PUPILS?

Learning through adventure gives pupils opportunities to grow, to learn and develop new skills, face new challenges in a safe environment and discover new ways to succeed. It also enables them to become more independent and improve their confidence and self-reliance, outcomes which translate to increased motivation for learning back in the classroom.

Penpals for Handwriting

EY

KS1

KS2

A complete handwriting scheme for 3-11 year olds, teaching children to develop a fast and fluent handwriting style

WHO WE ARE

Cambridge University Press is a world-leading international education publisher, providing educational materials, resources and support to teachers and learners in over 160 countries.

It publishes resources which support teaching and learning from Primary through to A Level and beyond, for a wide range of curricula. It combines experienced authors with best-in-class pedagogical approach to produce high-quality student textbooks, comprehensive teacher's support and digital resources which fully support teachers and learners worldwide.

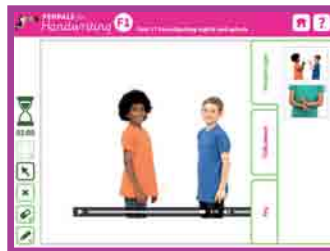

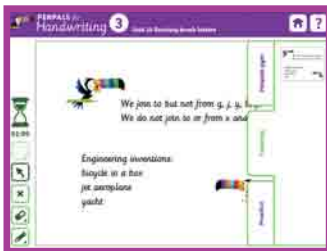

WHAT WE OFFER

Penpals for Handwriting is a whole-school scheme comprising clear and easy-to-follow Teacher's Books, engaging digital content, pupil Practice Books and Workbooks – Penpals is tried, tested and loved by teachers.

Cambridge University Press believes handwriting is fundamental to children's educational achievement and that a flexible and fluent handwriting style empowers children to write with confidence and creativity. The Penpals approach is rooted in the belief that handwriting is a key literacy skill that is best taught actively through frequent, discrete lessons.

Penpals covers Foundation 1 through to Year 6 and leads children through five key stages, from developing the fine and gross motor skills for handwriting readiness in the youngest children through to mastering a fast, fluent and personal handwriting style in Year 6.

Comprehensive Teacher's Books offer clear structure and guidance on how to teach each unit, while Pupil Practice Books support independent study, allowing children to develop their confidence in pattern, letter and join formation.

HOW WILL IT HELP PUPILS?

Penpals makes learning to write fun and engaging, allowing children to develop the skills to write with confidence, express themselves and take pride in their work. The scheme starts from the essential foundations of fluent handwriting: developing motor skills, effective pencil grip and correct posture and builds on these steadily, allowing children to gain confidence in each stage before moving on to the next. Support for teachers means a consistent and measured approach to handwriting can be adopted throughout the whole school, offering children a clear progression.

School Trends provides great quality school uniform that is grown out before worn out

QUALITY GUARANTEED

School Trends has been reliably supplying schools with their uniform requirements for over 27 years. In a recent survey, 97% of schools would recommend School Trends' quality and service to other schools. As an award-winning, employee-owned business, all members of staff strive every day to meet their customer promise: 'Nothing is more important than our relationship with you'.

All School Trends schoolwear is made to the company's own specification, and you can be assured that you will receive exceptional quality uniform that's manufactured specifically to withstand the demands of school life, yet is comfortable to wear. Rigorous quality checks ensure you receive consistently high quality products with colour continuity every order. Decorated polo shirts start from **£5.99**, and sweatshirts from **£6.99**. Visit the website to view the full range.

Looking for something specific? School Trends offers a sourcing facility for schools requiring more bespoke garments.

SERVICES TO SUIT

For schools looking for an easy, no-admin solution, the 'Direct to Parent' service is ideal. School Trends provides you with a free website for parents to shop and pay for uniform items. Orders are delivered within 10-14 days to either a parent's chosen address or free to the school.

Alternatively, if you want to manage your uniform in school, the 'Direct to School' service enables you to take full control. This service includes flexible ordering options – online, via email, phone and fax. Orders are delivered free to school within 10-14 days with the option of free packed-per-pupil service for easy distribution.

Whatever your uniform requirements, School Trends is confident that it will be able to provide you and your parents with great-quality uniform and an outstanding service.

5alive Roadwise Primary Schools Project

EY

KS1

KS2

How every teacher can make a real impact on children's safety on the road

We are passionate about providing teachers with the tools to teach a high-quality road-safety curriculum to their own classes, so that every child can be helped to be wiser and safer on the road. Teachers believe in the importance of students' road safety, and children enjoy learning about the road environment, how to keep safe, visibility, signs and symbols and much more. A teacher is always there throughout the year, so when a pupil or teacher wants to refresh or develop these safety lessons further, they can. Road safety perhaps be viewed as a minor subject, but one that has a

major effect on children's lives.

There are four main interactive lessons for each year – nursery to Year 6 (see website for school variations), videos for teachers, PowerPoints for use with classes, song (Y1/2) and bookmarks with the 5alive Code for crossing the road. Everything is ready for teachers, including copies of the A4 resource pages for use with table group discussions, active outside work, work relating to PowerPoints and work in small groups.

Classroom Secrets

How can I save time planning?

Classroom Secrets is a website that helps support your planning by providing you with up-to-date, relevant and differentiated activities that are 'engaging, meaty and worthwhile'. We create these resources so you can spend more time on your planning, marking and other jobs, without worrying about differentiating activities for the range of abilities in your class. Most of our activities are differentiated up to six ways, to ensure all pupils in your class can learn at their own pace.

We have a range of resources which include guided reading packs, arithmetic, reasoning

and SPaG SATs practice, comprehensions, writing prompts, maths puzzles, topic and science work.

All our activities are linked closely with the new national curriculum and are created by teachers who have experience in the classroom, just like you. They are based on current, real-life events such as Roald Dahl's birthday and Black History Month to keep your pupils engaged and active in their learning.

B&C Educational

KS1

KS2

Bring the world into your classroom

WHO WE ARE

B&C Educational is an educational supplier of authentic teaching and learning resources from around the world for primary schools. We aim to bring a global dimension into the classroom through resources developed as a result of our global travels.

WHAT WE OFFER

We produce a range of authentic artefacts and resources which are written to meet the needs of the primary national curriculum. The complete range can be used to create a Global Learning Lounge or a Global Hub, or alternatively teachers can choose individual packs from particular countries or individual items to support a special one-off lesson. The resources can enhance geography lessons, create global citizenship experiences and relate to articles in rights-respecting assemblies.

HOW WILL THIS HELP YOUR PUPILS?

Each artefact, photograph or article has been selected to bring to life the stories of people who live in different places. Global learning and awareness increases the skills of co-operation, rights respecting, justice and fairness. The materials supplied allow the teacher to teach with authority, to challenge stereotypes and develop the child's own inherent values and perceptions. Our resources will create a stimulating start, engender exploratory discussion, and build knowledge to create memorable lessons for your pupils.

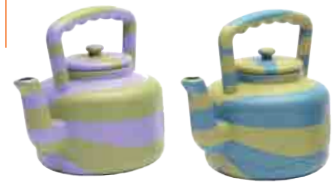

Although some can be used as display materials to help create a global ethos in the school, we expect the children to explore the artefacts, engage with the photographs, read the newspapers and become informed and curious global citizens. Ofsted Subject-Specific Guidance, for example, noted that the quality of teaching in outstanding schools "offered a range of innovative resources, especially those linked to topical issues, are used regularly and very effectively to explore a wide range of geographical topics. Pupils' interest and a sense of wonder help make sense of a complex and dynamically changing world."

"Using artefacts in the classroom can be a powerful means of bringing cultures alive, stimulating learners' curiosity, creativity and powers of observation and detection"

The Primary Mathematics Challenge

KS2

A fun and exciting mathematical problem-solving Challenge, the only national Challenge for primary pupils

The Primary Maths Challenge is aimed at pupils in Year 5 and 6 in England and Wales, P6 and P7 in Scotland and Year 6 and 7 in Northern Ireland. PMC is designed to encourage enthusiasm and boost confidence in young mathematicians providing the opportunity to tackle some problem-solving challenges.

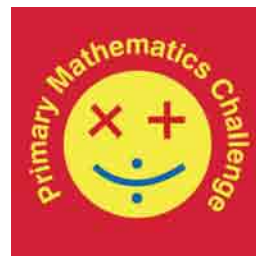

The paper contains 25 questions to be completed in 45 minutes; 20 questions are multiple choice and the final five require an answer where no options are given. The questions are graded; starting off easier and gradually getting more difficult.

PMC papers are ordered in packs

of 10, however there is no minimum or maximum number of entrants per school. Packs are posted to the schools and contain everything needed for the Challenge to take place in November.

Visit the PMC website for more information, where you can also download a selection of past papers and try out the online test.

PMC resources are available to support and assist with the challenge and for use in the classroom. Get 20% off using 'TeachPrimary20' at the checkout: m-a.org.uk/shop.

Teachers Register

EY

KS1

KS2

Connecting local schools to local teachers, cutting out the middle man. The Agency Alternative.

WHO WE ARE

Teachers Register, a pioneer in innovative recruitment solutions, has announced the launch of its new free mobile app. The app aims to make supply teaching more straightforward by connecting supply teachers and schools directly, removing the need for a traditional recruitment agency. Teachers Register will supply local, fully vetted and screened temporary teaching staff to local schools at the touch of a button.

In addition to the app, which is available on iOS and Android devices, Teachers Register is available online at teachersregister.com.

WHAT WE OFFER

The service, which is free for candidates to use, offers complete transparency. Candidates sign up to Teachers Register and create a profile detailing their qualifications and preferences. Schools and colleges can then view candidates' information and contact them directly.

In an economy where efficiencies and budget control are key, Teachers Register provides an affordable solution to educational institutions, allowing them to focus their resources elsewhere.

HOW WILL IT HELP SCHOOLS?

Teachers Register eliminates the painstaking process of traditional staffing recruitment by offering a service which ensures transparency, efficiency and value for money.

Complete transparency

Hire directly from a pool of pre-vetted and safeguarded candidates without the additional cost that using an agency would incur.

Convenient

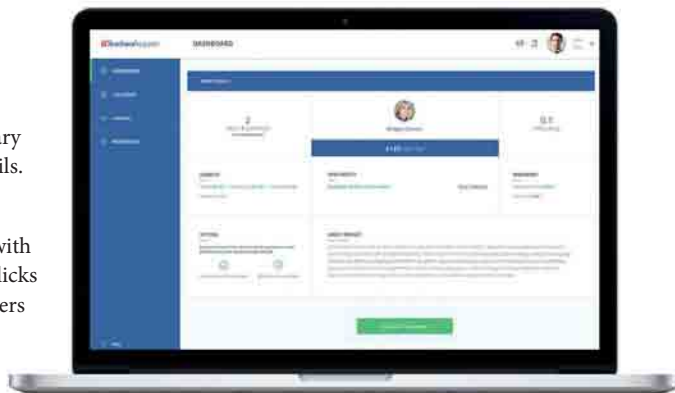

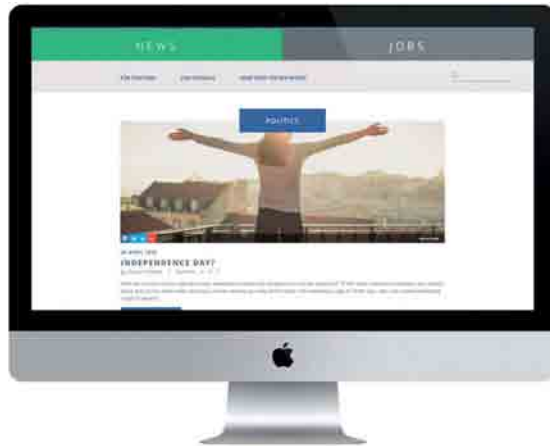

Directly hiring your next teacher is just a few taps away.

Think ahead

Understand your school budget, and redirect the unnecessary agency spend on providing a better education for your pupils.

Eliminate workload

Automate the most tedious and tiresome part of your day with thousands of fully vetted and screened teachers just a few clicks away. No more harassing calls from agencies; contact teachers directly and eliminate the middleman.

Kids For Wish Kids®

Make-A-Wish® UK: enriching the lives of children and young people fighting life-threatening conditions

EY

KS1

KS2

Make-A-Wish® UK is a charity that exists to grant magical wishes to enrich the lives of children who are fighting life-threatening conditions. Children who, believe it or not, would like nothing better than to be at school like all their friends, but who aren't always well enough to do so.

Could your pupils fundraise to help make wishes like these a reality for these children? Their efforts would be hugely rewarding. For nine-year-old Amelia, her wish felt like the impossible was made possible when she was able to be

a zookeeper for the day. Now, she feels it might also be possible to get better.

By taking part in our Kids For Wish Kids® fundraising initiative, your pupils will learn about giving back. They will help make other children smile, feel positive and have fun – often for the first time in months.

More children than ever are turning to Make-A-Wish® and we're committed to making every eligible child's wish a reality. We want to grant 1,000 wishes in 2016 but can't do that without the wonderful support of our school fundraisers.

Epilepsy Action

Online epilepsy awareness training for schools

Do you teach a child who has epilepsy? Knowing how to support them at school and what to do if they have a seizure is really important. Epilepsy Action provides free online courses and learning resources designed to help you keep pupils with epilepsy safe.

The materials available include:

- Films showing first aid for different seizure types
- Interactive online learning modules
- Information on implementing statutory guidance
- Classroom resources to use with pupils

There are 63,400 children and young people with epilepsy in the UK. Epilepsy Action's resources are the only up-to-date online tools to help people working in schools improve support for pupils with epilepsy. The resources can be used independently or as part of teacher training.

Primary Perspectives: 42 short classroom films for a years' worth of school-based CPD

WHAT IS IT?

Primary Perspectives is a professionally filmed two-DVD set showing how four very different Primary Schools transformed teaching and learning. You use it with free resources to support your school CPD and it comes with a free site licence.

HOW WILL IT HELP?

Each of the films is on a learning topic specially edited with on-screen prompts, guidance notes and resources.

DVD One includes our leadership model with each headteacher and leadership teams talking about their school improvement journey and how you can:

- Remove the clutter
- Focus on what matters most
- Develop your team
- Shift expectations
- Go beyond levels

DVD Two provides teachers with practical and successful classroom improvement strategies on:

- Feedback and marking
- Questioning and metacognition
- Challenge in lessons
- Landmarking Progress
- Learning together – collaboration

See it at bit.ly/2ahsWkS and order today for only £198 plus VAT Same-day response. For training and conferences with Alistair contact details are below. Book early!

Primary Teaching Practice Group

Zedbugs

Promoting physical activity as part of a lifelong healthy lifestyle

The Zedbug is a 'mini-trike' which creates forward movement with the simple and natural motion of swinging the handlebar from side to side using hands and feet. Children exercise legs, arms and tummy muscles, while developing motor skills, balance, coordination, spatial awareness and self esteem.

The Zedbug's stability and closeness to the ground gives children of most abilities that vital sense of security, including children with SEN, which aids their confidence.

Ideal for fun and exercise on hard, level surfaces at home, in

playgrounds, sports halls and playrooms.

As Northampton Children & Young People's Service wrote: "We bought the Zedbug to be used by children with physical difficulties that make walking or pedalling hard or impossible. As long as they can use their arms they can now play outside along with the other children".

Cwn Glas Infants School, Mid Glamorgan said: "The children are very excited when it is their turn to have the Zedbug. They are happy whilst exercising – so there is no time for bullying."

Reading Resources

Reading resources to support schools, parents and pupils

A handy set of tools developed to support pupils' reading at home and at school.

'Helping your Child to Read' DVDs

Films developed for parents and carers to help support and develop their child's reading. There are currently three titles available to schools; Early Years, Primary and Secondary. Each DVD focuses on key stages in a child's reading development and showcases real life, practical examples of how reading can be supported beyond the classroom.

Reading Development Bookmarks

Designed to accompany children's home-reading books, these bookmarks provide parents with information about their child's reading level and simple ideas to help make reading at home a more happy, productive experience. The bookmarks sit alongside book banding levels, reading recovery levels and letters and sounds schemes used in many Primary schools.

Jolly Phonics

Get your children reading and writing early with Jolly Phonics and Grammar

Jolly Phonics provides seven years of fun and effective teaching, covering phonics, spelling, grammar and punctuation. Written by teachers, for teachers, the extensive range of materials provide staff with everything that they need to teach in a way that is not only fun, but that's also very effective.

MULTI-SENSORY LEARNING

Jolly Phonics uses multi-sensory methods to keep children active and fully engaged in their learning. Along with the Jolly Songs, there are different actions for each of the letter sounds as well as for the parts of speech. Colour coding is used for the grammar materials, fitting with Montessori teaching and aiding both memory and implementation of skills.

CONTINUITY THROUGH THE SCHOOL

The programme provides seven years of teaching starting with systematic synthetic phonics in Reception/P1 and going all the way through to Year 6/P7. The phonics teaching and skills are then revised and extended through systematic spelling lessons in each year, gradually building children's knowledge of spelling patterns.

Alongside this, the children are also taught the core concepts of grammar and punctuation, starting with simple age-appropriate definitions and building towards more complex understanding. Children are given the tools that they need to independently write what they want clearly and with expression.

By Summer Age 4

JUST £27.50 FOR THE JOLLY PHONICS PROGRAMME

You can get started with the full Jolly Phonics programme from just £27.50 with The Phonics Handbook before continuing with The Grammar Handbooks. Each Handbook is packed with lesson plans, detailed teacher notes, extension activities and lots of photocopiable sheets and resources, ensuring you have everything you need to teach the programme.

Mighty Writer

A breakthrough in teaching children to write

EY

KS1

KS2

WHO WE ARE

Mighty Writer is the brainchild of former primary school assistant headteacher Emma Ralph, a specialist in literacy and teaching children to read and write. Emma and her businessman husband David brought the Mighty Writer concept to life, investing their own savings in designing and bringing the product to market.

WHAT WE OFFER

Mighty Writer is a powerful educational resource that enables children to have fun creating and sharing stories while learning the principles of grammar, punctuation, vocabulary, sentence construction and story structure. It can be used for fictional and non-fictional writing.

Children create stories or re-tellings using a robust, floor or wall-based mat and a combination of reusable, adhesive words, symbols and images.

The product is unique in the way children engage with learning about sentence construction as a form of physical, auditory and visual play – and teachers say it produces outstanding results.

HOW WILL IT HELP PUPILS?

Children love stories. The process of hearing, re-telling, editing and then creating stories is at the very heart of learning to communicate. Telling stories and recounts makes learning to write fun and Mighty Writer unlocks any child's potential as a storyteller and writer of stories.

Teachers find that children of all abilities engage enthusiastically with Mighty Writer and that the results are consistently positive with children making rapid and significant progress in writing sentences and in the use of punctuation.

Overall, feedback from teachers has been incredible. During pre-launch tests teachers were asked to score the product out of 10 for 'children making significant process' (10/10), 'engaging children' (9.8/10), 'children's interaction' (9.6/10), 'encouraging children to speak' (9.9/10) and 'children's keenness for writing their sentences on paper' (9.6/10).

Avery UK Trimmers and Guillotines

Avery UK's brand new range of trimmers and guillotines offers extreme safety, precision and style.

Avery UK's brand new range of trimmers and guillotines offers extreme safety standards that make them ideal for schools! The range comes with a seven-year warranty and includes clever new features for enhanced volume and accuracy.

Research conducted by Avery found that 20 per cent of UK teachers admitted to feeling nervous about using a guillotine, with several expressing concerns about cutting off too much, not cutting a straight line and even cutting themselves. Avery's new sleek 2 pivot point guillotine safety guards rotate alongside the movement of the handle to ensure the blade is covered as the handle rises and falls. This patented feature makes this product one of the safest we have come across so far in the market. It also ensures easier storage and less breakage during transportation.

A quarter of teachers also expressed frustration at not being able to see exactly where and how much they were cutting on a trimmers. Keen to listen to these needs, the new Avery range features a unique window for visibility of the blade, a new base board with a variety of protractor markings and a magnetic backstop. So not only can you see exactly what you're cutting, you can do it with greater accuracy.

CUTTING EDGE

As the only trimmer and guillotine brand to make substantial range improvements in the last five years, Avery really is leading the way. What's more, Avery is the only manufacturer to be consistently awarded the TÜV GS and BS marks which ensure products are manufactured to the highest safety standards.

The entire range has a fresh, modern look, with contemporary colours and soft touch points to make them easier to grip and to use. There's a whole selection of different-sized models to suit a number of needs. At top of the range are Avery's ultra-safe, heavy duty Precision trimmers and guillotines, designed to cut through 30 sheets of paper. For those with slightly lower volume cutting needs, Avery's ultra-safe Office range is ideal. For specific crafting tasks, Avery's compact and crafting trimmers are a great choice, as they fold away to be neatly stored and save space.

Whether work needs to be displayed, or handouts need preparing, you and your pupils can both rest assured that the new Avery trimmers and guillotines range has the right product to help you achieve your task, as well as being ultra-safe to use.

Music4Learning

Where music and learning come to life

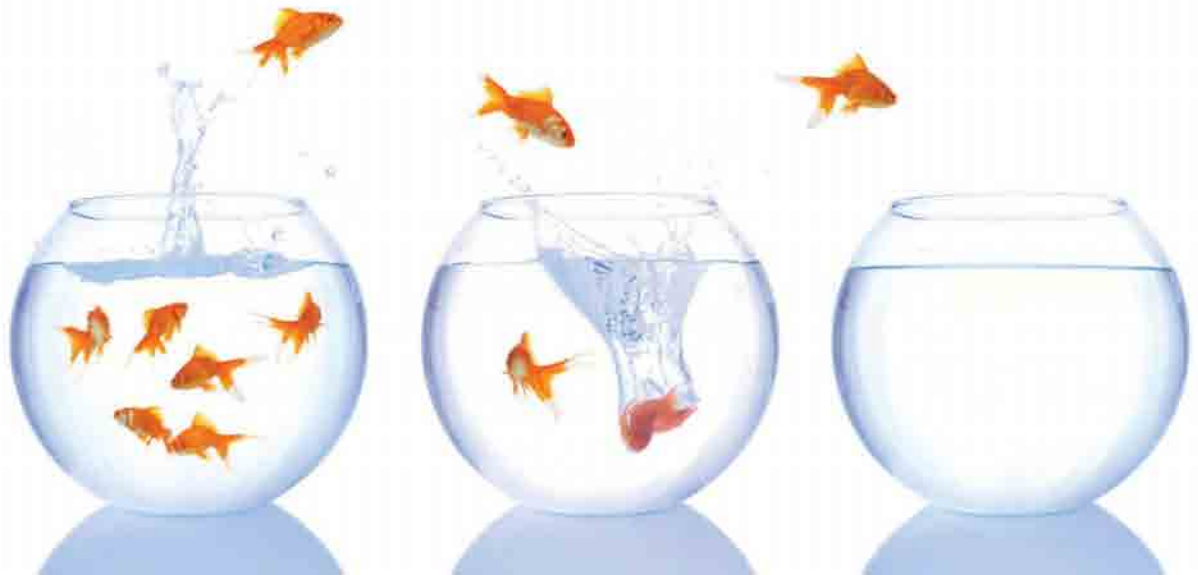

EY

KS1

KS2

SEN

WHO WE ARE

Music4Learning is a community of teachers using music in their classrooms to improve concentration, behaviour and creativity. Using the right music makes a real difference to learning.

WHAT WE OFFER

Music4Learning is a carefully designed set of playlists containing tried-and-tested pieces of music in five distinct categories: Wake Up, Chill Out, Think, Enjoy and Brain Food. With a Basic annual membership, costing £25 for individuals, teachers can edit the playlists and reorder the tracks. An annual Plus membership at £30, means teachers can upload their own tracks, and edit, rate and share their playlists. Each track also has teacher comments on how they might be used in a classroom.

Schools can save money by purchasing an annual school licence, for up to 20 teachers, at £300 for a Plus membership. This saves hours searching for the right piece of music for an activity, assembly or special event. There is also a video section for you to add your favourite classroom clips.

HOW WILL IT HELP PUPILS?

Music has a profound and significant effect on our emotions, with neurological research now revealing the powerful effects of music on health and wellbeing. Learning is an emotional process and children and adults remember far more when they are emotionally engaged.

Music4Learning brings focus to an activity, stimulates creativity and improves productivity. Paul Dix, from Pivotal Education said: "This is a great site with lots of interesting ideas for how music affects behaviour". Teachers using music on a regular basis also describe lower stress levels.

There's something about the right piece of music to start the day. Much of the music is without lyrics, but others have powerful lyrics to provide stimulus for creative writing. All music is checked for suitability and is fully licensed too.

Create your own playlists, share them with the I Can Teach Community and find out what other teachers are using. Save time looking through YouTube or Spotify – go straight to Music4Learning and press play.

Madame Tussauds

KS1

KS2

Meet the world's most influential people

THE LEARNING EXPERIENCE

Gone are the days when Madame Tussauds London was a dusty old museum with wax figures behind red ropes. In its place now stands a fully interactive experience that will introduce your class to the famous faces that have shaped the world as we know it today.

Having worked with teachers and education advisors, Madame Tussauds London has a programme of resource packs for KS1 & KS2 for Art & Design and History.

Where else will pupils have an opportunity to meet Albert Einstein, renowned artists Vincent Van Gogh and Pablo Picasso, British writers William Shakespeare and Charles Dickens? And then there is the lady herself, Madame Marie Tussaud.

And with more than 300 incredibly lifelike figures students will come face to face with sculpture and self-portrait and can explore the materials and processes used to portray the story behind each celebrity figure.

WHAT'S INSIDE?

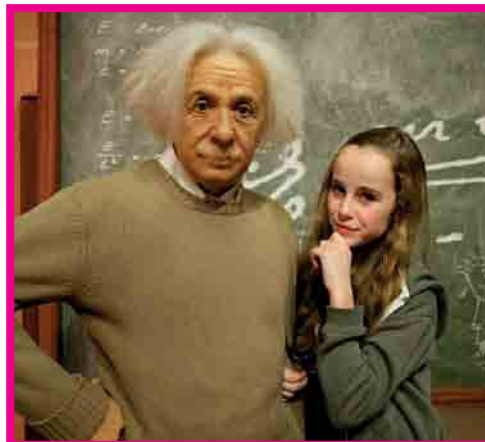

Within the 15 interactive areas, your class will step behind the scenes of an international fashion event; attend a royal appointment with the Queen; take a field trip to a galaxy far, far, away in the extraordinary Star Wars experience and fight evil with a jaw-dropping Marvel Super Heroes 4D Movie Experience. Finally, flag down the 'Spirit of London' Taxi and ride through 400 years of our capital's history.

New for 2016 an immersive detective challenge, 'The Sherlock Holmes Experience'. This theatrical live walk-through adventure lets your pupils enter the world of this fictional detective and release their inner Sherlock. Dr Watson needs your help, so don your hat and journey from 221B Baker Street, to the windswept moors of Dartmoor in search of the missing Sherlock Holmes!

Madame Tussauds London can offer teachers the following benefits:

- £9.50 per pupil primary school rate*
- One free teacher per 5 pupils
- Downloadable risk assessments
- Classroom resources

*Rate correct at the time of going to print and may be subject to change

e-Assessment for Learning

Improve pupil outcomes and reduce teacher workload with Professor Assessor

Professor Assessor is an online e-Assessment for Learning system for numeracy, used for regular formative and summative assessment, intervention and extension group work, SATs preparation and homework.

Marking, feedback, targets and tracking are fully automated leaving teachers more time to focus on individual pupil needs, guided accurately by instant on-screen information and accurate gap analysis.

Pupils can also practise on-screen or via individual printed worksheets tailored specifically

with questions to suit them, taken from our fully national-curriculum-aligned bank of over 20,000 questions.

The system runs in web browsers on PCs, Macs, iPads and Android tablets and provides a fun and engaging way to increase pupils' confidence and engagement in mathematics.

Teachers and pupils love Professor Assessor's e-Assessment for Learning system, so give us a call and we'd be delighted to give you a demonstration of the full functionality.

SEN

User friendly MIS and Tracker which bring everything you need to know into one place

OUR AIM

Our mission is to make information easy to find, easy to link together and easy to understand.

WHAT DOES THIS REALLY MEAN?

Pupil Asset has been cleverly made behind the scenes, and you can custom-set lots of parameters, terminology and features, but it remains simple to use. Unnecessary steps and functions have been stripped out and we've added lots of shortcuts to make reporting data or contacting parents really quick and easy to do. Because you see everything in real time, and everyone has access, this prevents lots of replication – meaning everything is where you need it, when you need it, and can be viewed in relation to other important information straight away.

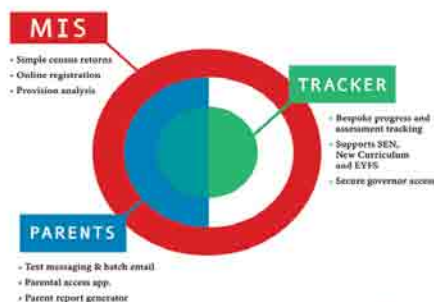

WHAT DOES THIS MEAN FOR YOUR PUPILS?

As the right information is available at the right time, you can quickly identify which pupils need the most help or support, whether that be with their learning, attendance or behaviour. It is also easy to see which interventions have the best effect and where to focus resources.

As our class-tracking solution can reflect your personalised in-school approach to assessment, your pupil-learning plans and next steps can be created with minimal fuss, for maximum impact. Just as office managers are freed up from mundane and repetitive tasks that take up valuable time, teaching staff can prioritise lessons to support learning requirements without ploughing through piles of paper and books, meaning that they're free to focus on the pupils themselves.

Zoostorm™ Delta

KS1

KS2

Built to deliver the best in technology for education

There are many types of computer available today, but for most primary schools the desktop PC remains the number-one choice in a classroom environment. There are many factors to consider when installing the latest IT equipment:

- How big is the desktop PC? (especially when space is limited)
- Can it be used in a variety of settings?
- How much noise does it make?
- How much energy does it use?
- Is it tough enough to cope with the daily demands of primary school pupils?

The Zoostorm Delta range is built with all of this in mind; to deliver the best in technology for education, meet the rigorous demands of the classroom and facilitate the ultimate learning experience for primary school teaching.

Zoostorm Delta PCs for education can assist with the more modest aspects of classroom activities from simple reading, writing and maths to exploring the internet. Delta PCs are small and compact, making them suitable for classrooms with limited space. The range is also durable and comes with

improved 'Storm Coat' paint for greater scratch resistance, the perfect defence in a classroom full of lively children. Zoostorm understand that technology is synonymous with innovation and creativity, and when embedded into lessons, Delta Small Form Factor systems can be used to transform teaching and learning throughout the curriculum. The company also offers a bespoke configuration service on mATX, All-in-One, Small Form Factor and Ultra Small Form Factor models.

Manufactured in the UK, Zoostorm's Small Form Factor desktop PCs have up to eight years design life and 85% PSU efficiency, which helps to keep those energy bills down.

They also come with 12 months' warranty for peace of mind, and a dedicated customer support and IT help desk are also available. Call for pricing and bespoke configurations today.

Learning outside the classroom

An educational adventure to remember, but where young people take away so much more than great memories

WHO WE ARE

Kingswood is one of the most experienced providers of outdoor education in the UK. It was founded over 30 years ago, and now runs over 1.2 million activity sessions and welcomes over 165,000 young people from more than 75 countries around the world each year. With nine inspiring centres across the UK, plus a Château in France, Kingswood provides unbeatable learning experiences outside the classroom. Some of its locations have a friendly, campus feel, with spacious buildings sprawling over a large area, while others are smaller with all facilities close by, ideal for younger groups. From Areas of Outstanding Natural Beauty, to nearby Sites of Special Scientific Interest, an array of learning environments are available at Kingswood.

WHAT WE OFFER

By taking pupils out of a formal classroom environment and into fun and exhilarating experiences focused on challenge and adventure, it encourages whole classes to bond and be captivated, the shyest to shine as leaders and the unmotivated to become the most enthusiastic about developing a new skill. With a wide range of challenging, high-adrenaline and skill-based indoor and outdoor activity sessions, your pupils will be active from dawn until dusk.

Kingswood strives to make its experiences as impactful as possible and continually improves every aspect of its adventures and adds new activity sessions. The company is always looking for new ways to develop and is supported by an advisory group including experts from the Council for Learning Outside the Classroom and Learning Away, amongst others.

HOW WILL THIS HELP PUPILS?

Kingswood believes that learning is most effective when it's fun. So it has grouped its activities into categories that maximise the potential learning outcomes for your group. And you can tailor your programme to meet your objectives around these 10 learning outcomes.

By combining an action-packed programme of daytime activities with an array of evening sessions, pupils can get outdoors and stay active at one of Kingswood's 10 unique adventure centres. They encourage an active, healthy lifestyle with a variety of challenging and high-adrenaline experiences, giving young people the chance to broaden their horizons, learn new skills that accelerate their social and personal development, and have tons fun while doing it.

Inspiring Learning

Step into Story Construction

KS1

KS2

Far Far Away has come to London, and DreamWorks Tours: Shrek's Adventure! London will take you there

ABOUT THE ADVENTURE

Shrek and his DreamWorks pals invite your school on an adventure Far Far Away. To get there pupils will board the magical 4D 'DreamWorks Tours' bus but beware, Rumpelstiltskin is up to his old tricks! With 10 interactive live shows, this immersive storytelling experience is a fairytale like no other and, with Donkey as your mischievous tour guide, calamity, chaos and endless fun are the name of the game.

OUR CURRICULUM LINKS

Shrek's Adventure! London offers an immersive storytelling experience where well-known characters like Sleeping Beauty, Pinocchio and Cinderella aid in the journey through 10 interactive live shows. The KS1 and KS2 offerings include awareness of story construction, familiarity with fairy tales and an insight into animation. We recommend using our free downloadable lesson plans (shreksadventure.com/london/schools) in conjunction with a visit. A set of four, they cover the following literacy and creative topics:

- Creating a story (English, Art and Design)
- What is animation? (Art and Design)
- Creating your characters and set (Art and Design, DT)
- Filming a sequence (ICT, Art and Design)

LEARNING OUTSIDE OF THE CLASSROOM

Schools have been at the core of planning for Shrek's Adventure! London from the outset. The attraction offers a rich environment for inspiring pupils' active imaginations, and provides a fun and memorable basis for creative work back in the classroom. So much so, that this has been recognised by the Council for Learning Outside the Classroom.

Teachers can receive the following benefits:

- £5.50 per pupil school rate
- Free teacher place per five pupils
- Downloadable risk assessments
- Classroom resources
- Free teacher planning trips

For more information visit the website or call 0871 221 2837 to speak to one of the friendly, non-ogre advisors who will be happy to answer any questions you might have.

Remember to 'like' the Facebook page to be kept informed of free teacher events hosted throughout the year. These provide a fantastic opportunity to come and experience the attraction in preparation for a class visit.

Educational Building Introduction

Bridge Timber takes great pride in its attention to detail of all its Eco-Classrooms

As a company, Bridge Timber has built its reputation on a foundation of ecologically friendly values and high quality – two attributes it feels are essential to any self-construction service. As such, all of its buildings exceed the latest building regulations for eco-classrooms.

In order to ensure that its eco-friendly classrooms are habitable and comfortable all year round, each one is constructed using heavy-duty structural-grade timber, structurally insulated panels (SIPS), the highest quality exterior cladding and double glazing. This is relevant to all classrooms regardless of bespoke or modular planning.

Bridge Timber is fully committed to protecting the environment, only using timber which is independently certified in accordance with Forestry Stewardship Council (FSV) rules which ensure it is obtained from responsibly managed and sustainable forests. All its classrooms have undergone a comprehensive energy and thermal assessment ensuring the best possible energy efficiency, along with the highest possible thermal insulation. All of this helps to keep the impact the building has on the environment to an absolute minimum.

The company's design service is totally bespoke, so each classroom can be created to suit your own personal requirements and ideas. As standard, each classroom comes fully installed with all lighting, power sockets and heating as well as plaster-boarded walls, skimmed and painted to your desired colour. In addition, the number and type of doors and windows, as well as where they are positioned, are constructed to suit your requirements.

Bridge Timber's design team will be happy to discuss any further requirements you may have – for example, the fitting of internal partitions, external canopies, timber, decking-suspended ceilings or the installation of a WC or shower. Aluminium bifold and windows are also available as part of its core services.

Scout Adventures

KS1

KS2

Tailor-made residentials that are fun, challenging and deliver specific skills and learning outcomes

WHO WE ARE

Drawing on over 100 years of Scouting heritage and expertise, Scout Adventures offers inspiring outdoor-learning experiences for both young people and adults. Based in stunning rural locations across the UK Scout Adventures offer a wide range of activities from canoeing and high ropes to orienteering and traditional Scouting skills.

Scout Adventures are not just places to visit and stay. They are starting points for new adventures, expeditions and experiences. People from every background are welcomed and every experience is made fun, friendly and memorable.

With a proven track record of working with Scouts, schools and youth groups, all centres hold the Adventure Mark and Learning Outside the Classroom quality badge. And staff strongly believe residential experiences have a positive impact on young people's behaviour, relationships, confidence and achievements.

Scout Adventures believes that amazing things can happen in the great outdoors. Working with youth leaders and teachers, its teams have inspired generations of young people to reach their potential and learn skills for life.

WHAT WE OFFER

A wide range of activities

A choice of centres from woodland to water-based

Fully qualified instructors with Scouting background

Strong links to the national curriculum and values based teamwork

Proven track record of working with Scouts, schools and youth groups

CHOOSE YOUR OWN ADVENTURE EXPERIENCE

It's your experience, so you're in charge, and you play a key role in designing your own experience. To help, Scout Adventures has four basic products as a starting point:

Option 1: Original outdoor experience

Immersed in the outdoors, young people will learn skills, work as a team and develop a sense of responsibility (1-4 nights, full board in a tented village).

Option 2: Outdoor adventure

Young people are invited to paddle, climb and think their way through a series of exciting challenges, from canoeing and archery to high ropes and orienteering (1-4 nights, full board in our lodges or tented village).

Option 3: Adventure 50:50

Split your time between self-led sessions and instructed activities. Staff can help you meet your learning objectives by providing activities, skills or simply the space you need (2-4 nights, full board accommodation in our lodges).

Option 4: Ultimate outdoor adventure

A real sense of adventure, sailing vast lakes, summiting mountain peaks and crawling through caves, challenges don't get much more exciting than this (1-4 night residential in the Lake District, with full-board accommodation either indoors or in a tented village).

NCCL: Memorable Educational Visits

EY

KS1

KS2

Engaging young people through hands-on, enjoyable learning experiences

The National Centre for Citizenship and the Law (NCCL) delivers curriculum-linked, interactive educational programmes in legal and heritage sites. Each year NCCL works with over 20,000 students providing opportunities for young people to learn about the law outside of the classroom in working or historic courtrooms.

We help raise aspirations and embrace kinaesthetic learning about the justice system using historic buildings, sites and collections. Our most popular sessions are courtroom workshops where students re-enact trials based on real cases in real courtrooms. This even includes donning wigs and robes and sitting in the judge's chair.

WHERE WE WORK

Galleries of Justice Museum and City of Caves, Nottingham
The Royal Courts of Justice, London
Courtrooms and heritage sites across the North West

CURRICULUM LINKS

History, citizenship, SMSC and British values, PSHE, English, drama, enrichment and more. Learners will also enhance skills such as confidence, analysis, critical thinking, public speaking and debating.

British Red Cross

Looking for engaging and inspirational resources?

The British Red Cross is a neutral and impartial humanitarian organisation that inspires children and young people aged 6-19 to understand, cope with and respond to a crisis through its range of teaching resources.

Its imaginative and interactive resources help children explore different crises that impact local and global communities and how they can safely help themselves and others in a crisis.

Using its unique insight British Red Cross develops engaging resources which enable children to explore the following topics:

- Conflict and its consequences
- Disasters and emergencies
- First aid
- Humanitarianism and the Red Cross
- Refugees and migration

BritishRedCross

Our education resources include videos, images, photos, case studies, quick activities, lesson plans and quizzes.

Ringsfield Hall EcoActivity Centre

Building sustainable futures

WHO WE ARE

Ringsfield is an innovative Centre for Outdoor Learning and Nature Connection on the Norfolk/Suffolk border, with 14.5 acres of woodland and a homely Victorian house. It loves to provide stimulating learning experiences and warm hospitality for residential and day guests alike.

WHAT WE OFFER

The physical 'space' here is quite unique: the freedom to explore 14.5 acres, with an art barn, music studio, sports pitches, a tree house and more. There are animals to feed, good home-cooked food to eat and it's a homely place to stay. But what makes Ringsfield special is the emotional and psychological space that's created for students and teachers alike: the freedom to explore, to be creative and build character, and to reconnect with ourselves, each other and the wider world.

Ringsfield Hall's facilitators are Forest School trained, but this ethos is just the starting point. It's the only centre in the UK running residential 'Earth Education' programmes, and it draws on eco-therapeutic and child-led approaches to craft imaginative programmes. Each of these are tailored and differentiated according to the needs of your cohorts, and to suit your own curriculum goals.

Children experience immersive learning through all Key Stages: from participative story-based Early Years programmes like The Gruffalo or Frozen, through to KS1-3 survival and bush-craft programmes like Shipwrecked, or the premium Earth Education residential that embeds key ecological concepts through a mysterious quest.

Ringsfield's approach and environment works especially well for children with additional needs, such as SEN and EBD.

HOW WILL THIS HELP PUPILS?

While achieving curriculum goals, the programmes are also designed to deliver key SEAL outcomes such as self-awareness, managing feelings, and social skills, with marked gains in communication and teamwork. The local high school block-books activities for all its new year 7s because of the significant improvement they've seen in transition outcomes.

"All of the children and staff flourished in the pleasures of being outdoors. A very beautiful place for children to experience the joys of nature."

Teacher, Gunton Community Primary

"Thank you for looking after me, for making me think, for leaving me with the thought 'If there isn't a good reason to say no, try to say yes'."

Teacher, Carleton Rode Primary

"Wonderful food, fantastic staff, and brilliant activities."

Easy-to-implement Resources

EY

KS1

KS2

High-quality resources for the new academic year in PE, RE, PSHE, Spanish, geography, phonics, history and more

LCP specialises in supporting teachers and inspiring learners with creative and effective teaching resources. With every publication designed to help teachers bring out the best in their students, classics like PSHE and Citizenship for EYFS, KS1 and KS2 are easy to implement with LCP's files.

New for this academic year LCP is pleased to announce: PSHE and Citizenship file for EYFS and KS1 (including cyber-safety, cultural diversity, and emotional wellbeing) Tapas Travels, a dynamic Spanish resource for Nurseries, EYFS, and

KS1 (21 books and 2 CDs) Reading assessment test papers for baseline, autumn, spring, and end of year.

In addition to these new releases, many of LCP's bestsellers have been updated including maths and literacy assessments, PE, geography, history, phonics, RE and more.

Tapas Travels

EYFS and Key Stage 1 Spanish for non-specialists

EY

KS1

Want to give your EYFS and KS1 pupils a Spanish language learning experience, but you're not a Spanish specialist? LCP has a creative new resource of 21 books and 2 CDs of music and teacher notes that will allow non-specialists to take their pupils on an exciting language journey. Tapas Travels incorporates Spanish language and culture into fun stories that are led by the Tapas Travels characters around Spain and the Spanish-speaking world. They explore healthy eating, emotional wellbeing, and sing catchy songs along the way.

Created by a team of Spanish

linguists, these books break Spanish into manageable, bite-sized chunks of single words and phrases in the stories and songs. Spanish is reinforced during 'Translation Time', through songs, and in activities that incorporate visual, kinaesthetic and audio learning styles. With detailed teacher notes, these dynamic books are a complete package of ready-made learning modules (including narration and songs).

Check out the website for samples of the songs, books, and teachers notes at tapastravels.com

Focus Education

Enabling schools and academies to be the best that they can be

EY

KS1

KS2

SEN

CPD

WHO WE ARE

Focus Education is a family-run organisation providing advice and educational support to primary schools and academies. We're proud of our work and our values; we maintain a strong public sector heart and use our backgrounds in education to build links with schools and academies – it's why we currently work with over 3,500 in England.

WHAT WE OFFER

Our publications, downloads and software and apps cover all aspects of development areas including mastery, assessment, curriculum, school leadership, Early Years and more.

Our CPD courses cover the latest challenges and developments in education, keeping you informed and prepared every step of the way. We cover a wide range of topics and have courses for different audiences and focuses.

Our consultancy is completely bespoke – we don't do standard or ordinary, we work in partnership with you to design a programme around your needs and select the most experienced consultant to deliver it in your school. We also work with clusters and local authorities and can help share costs.

Recently released publications

Focus Maths: A whole-school maths curriculum, supporting teachers and leaders with planning to guarantee there is continuity and progression.

Assessing the Progress of Pupils with Learning Difficulties: Providing staff with small steps to show progress difficulties in maths, writing and reading, which leads to Year 1 expectations.

Autumn courses

Headteacher Inspection Training: Equipping primary headteachers with the knowledge to enable you to prepare for inspection.

Securing Expectations and Developing Greater Depth in Reading: Develop knowledge of children's literature from classic texts to modern, and approaches to using them.

Developing Middle Leadership: Providing new middle leaders with an overview of what is expected in your setting.

FOCUS REWARDS

Focus Education has a free-to-join rewards scheme which entitles you to tailor-made offers, discounts, priority access to courses and events, and exclusive previews of publications. Every time you spend money with us you will earn points, and at the end of every term you will receive a voucher to spend with Focus Education.

Monster Phonics

Award-winning, multisensory phonics programme that produces outstanding results for all learners

EY

KS1

SEN

CPD

Ewa Wilson, Executive Headteacher of Bonners and Buxted School, East Sussex
"We've been really pleased with the Monster Phonics resources and programme. Pupils are securing their understanding of phonic sounds far quicker compared to previous years. The layout of the scheme enables secure coverage ready for the Year 1 screening check, it's great for ready planning and extremely straightforward to use and access. The resources are fun and varied, and we have enjoyed phonics sessions."

Victoria Alliston, Teacher at River Primary School, Kent

"Monster Phonics has reignited enthusiasm in the children as it's very multisensory and provides a range of ideas that we can use for individuals, depending on their needs, at both a whole-class and intervention level. We have found it particularly successful with our boys."

"Last year we started using this in FS and Year 1 and were pleased with the outcome of our phonics testing being the highest yet at 86 per cent. We now use it through FS, Year 1 and 2 and we have seen the children using the different monster characters to explore alternatives for their writing rather than always sticking to the same grapheme."

WHY MONSTER PHONICS?

All children make excellent progress as a result of an exciting, unique approach to phonics. Dyslexic and EAL learners make rapid progress when compared to other schemes.

HOW?

Monster Phonics uses colour-coding to represent the sounds A, E, I, O, U, oo, ow, silent and tricky letters. This makes phonics easier to understand and spellings become more memorable. The monsters are sound-cues to help children to recall the sounds that graphemes make.

Reception, Year 1 and Year 2 teachers receive first-class downloadable resources for each grapheme including outstanding lesson plans, PowerPoints, animations, printable multisensory activities, songs, flashcards and online games.

Additional multisensory tools are available to complement the online programme

school trips

YHA School Trips

YHA has launched new field studies partnerships for 2016/17 to benefit primary schools planning their school trips

Team-building, self-resilience and confidence-building are all at the heart of YHA's relaunched School Trips packages for Key Stage 2 in 2016/17.

YHA (England and Wales) has overhauled its popular School Trips packages making them more flexible, easier to book and cross-curricular. School trip organisers can now choose from a range of bolt-on activities as well as a brand new Discovery Package to add to their residential at YHA.

Bolt-on activities include adventurous activities such as caving, canoeing and hill scrambling, or on-site activities such as team games and fire-lighting which can all be added to self-led residential school trips at YHA.

Schools looking to YHA to lead and manage the school trip can now opt for the new Discovery Package, which is tailored around each youth hostel and children encouraged to explore and get to know their surroundings.

Schools can choose from a huge variety of locations and properties, including coastal, rural and town centre YHAs as well as historical buildings and more than 70 Learning Outside the Classroom (LoTc) accredited properties.

Sarah Duly, Product Delivery Manager at YHA (England and Wales) explained: "Many of the schools that book with us simply use our accommodation and organise their own self-led activities and often require supplementary activities from us. By revising the packages and making them more flexible in a bespoke approach, we can not only showcase the great range of activities we offer but enable them to deliver an even better learning experience to their students."

As well as the new packages and bolt-on activities, YHA will continue to offer its popular Alex Rider Spy Academy which is endorsed by the author of the Alex Rider books himself, Anthony Horowitz. Available as a three- or four-night residential experience, the Spy Academy combines YHA's existing Action Adventure package with the bestselling book series based around a teenage spy, with a primary aim of encouraging reluctant readers to pick up a book and read.

The packages and activities all offer exceptional value for money and there is up to 50 per cent funding available from YHA's own Breaks for Kids bursary fund for children from low-income families.

Infinite Arts

An arts consultancy working throughout the UK to support the arts and creativity in education

EY

KS1

KS2

SEN

CPD

WHO WE ARE

Infinite Arts provides a reliable service to schools and communities, ranging from one-off workshops to project management for larger events. We have a proven track-record of delivering creative workshops in schools and in the community over the last 20 years and have relevant insurance and DBS in place. We have a national and international reputation for kite-making and regularly receive invitations to attend kite festivals in other countries.

WHAT'S ON OFFER?

We offer curriculum-linked activities in a variety of art-forms including kite-making, dome building, bridge building, banner and flag making, upcycling and beach installation. We run tailor-made training sessions for teachers as well as activity-based workshops for children.

Kite-making can cross the divide between arts and science, support the teaching of mathematics and help introduce elements of history and geography. Kites can be the channel for learning and communication between different ages and cultures. Kite workshops can be introduced at any age in primary school, generally taking a half day, and can be designed to operate in the classroom or for several groups to work together in the hall. All the children end up with a kite that flies and the final part of the session is spent outside flying the kites they have made.

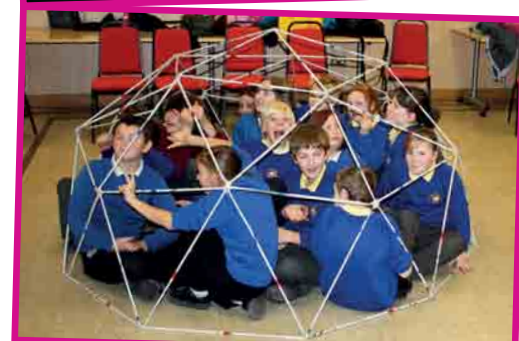

"It was so wonderful for the children to be able to make something and see it fly. Children were so engaged from the very beginning. They were fascinated that their own creations flew so well. Sixty children running excitedly onto our field with a kite in their hand made the entire school stop and stare. The children were talking about it for weeks."

Gwen McCormack, Heavers Farm Primary School, Croydon

Construction workshops making geodesic domes from rolled-up newspaper and bridges from bamboo garden canes are targeted to Year 4, 5 and 6, and reflect a real-life building process while involving a lot of teamwork.

HOW WILL THIS HELP PUPILS?

Our activities can support problem-solving, teamwork, listening skills, following instructions, handling materials and using tools. An activity such as kite-making can also provide material for creative writing and verbal feedback using new vocabulary.

SEN

Rent-a-pig programme providing all you need to keep two Micropigs at school for a week

WHO WE ARE

We are a small family-run farm breeding miniature pigs in the South East of England. Many of our piglets have gone on to make excellent family pets. However, not every family can keep a pet pig at home – even if it is small! Our programme offers a chance for everyone to meet and care for miniature pigs without the long-term commitment.

WHAT WE OFFER

Our rent-a-pig service gives children the chance to care for and learn about pigs by providing two friendly miniature pigs and everything you need to care for them for one week. Our adult miniature piggies are around 14-15” high fully grown, and even-tinier micro-piglets are sometimes available for visits. They come in a variety of colours including little pink pigs.

The rent-a-pig experience is especially valuable to those in city schools where contact with farm animals is difficult to come by. We provide a secure pen (with or without floor), sleeping house, bedding, feed and toys for the pigs. We also provide wipe-clean piggy chore sheets for class members, activities to take part in, quizzes and fact sheets. These piglets are litter trained and can even be kept indoors if required. They do not smell, and are cheeky, nosey and extremely interactive.

Pigs arrive on Monday morning and go home Friday evening. Longer visits are also available if there is suitable weekend care available. All pig-movement licensing is taken care of for you and risk-assessment templates are available if required.

HOW WILL IT HELP PUPILS?

Rent a Pig is a powerful tool for teaching empathy and responsibility in pupils of all ages. Those who struggle to concentrate in lessons can find activities involving animals aid their focus. Children learn about animal husbandry and animal welfare on farms and for young children or those with limited mobility animal experiences with miniature pigs can provide a safe way to interact fully with a farm animal that is usually too large.

School Visits at Stonehenge

The world-famous Stonehenge has inspired people for millennia. Bring your school group and discover a fantastic range of cross-curricular options designed for every key stage

STONEHENGE, A WORLD-FAMOUS PREHISTORIC MONUMENT

Stonehenge is perhaps the world's most famous prehistoric monument. It was built in several stages: the first monument was an early henge monument, built about 5,000 years ago, and the unique stone circle was erected in the late Neolithic period about 2500 BC. In the early Bronze Age many burial mounds were built nearby. Today, along with Avebury, it forms the heart of a World Heritage Site, with a unique concentration of prehistoric monuments.

FREE SCHOOL VISITS

From studying late Neolithic hunter gathers to the Bronze Age, Stonehenge presents a unique opportunity to explore the most outstanding prehistoric monument. By booking a free self-led visit your class can experience the wonder of Stonehenge and utilise English Heritage's helpful resources to create a bespoke, hands-on learning experience.

When booking a free visit, English Heritage will also include a free teacher planning visit to enable you to tailor your trip to your learning objectives. There's also a set of handy online resources to further support your visits both on and off site. These include an organiser pack with information about all of its facilities, exhibition resource to help you develop a learning programme around the permanent and special exhibitions and bookable on-site resources including the Explorer Backpacks which contain hands-on mini activities.

DISCOVERY VISITS

Expert-led Discovery Visits are run by knowledgeable volunteers and cost just £100 per class of 30 students. Discovery Visits help to inspire students through hands-on activities and guided tours.

Stones and Bones: Stonehenge in its landscape

Suitable for Key Stage 1 to 3, this session includes an interactive guided tour of the monument followed by a re-creation of a burial and investigating replica artefacts within the Stonehenge landscape. This two-hour session will encourage students to uncover the fascinating history of Stonehenge.

Neolithic Life at Stonehenge

Suitable for Key Stage 2 and 3, children will become archaeologists in their pursuit to discover how Stonehenge was built, how the Neolithic people lived and why Stonehenge was built. With several hands-on activities the students will handle replica artefacts and attempt weaving and fence building within the landscape.

Myths and Legends with LEGO® StoryStarter

Suitable for KS2, this unique session encourages children to look at Stonehenge differently and discover a world of myths and legends surrounding the prehistoric monument. The class will be able to create their own stories using the LEGO® StoryStarter kits before sharing their creations with the group. Before using the kits the students will be taken on a guided tour of the monument.

All Discovery Visits are tailored to the national curriculum and link well to history, geography, and English and contain elements suitable for design and technology and science learning objectives.

Stones and Bones, in the landscape

FACILITIES

Education Room

Booking included for any Discovery Visit or bookable as a free resource to carry out your own self-led learning (this is subject to availability). This space has its own toilets, bag storage and interactive white board.

Bag Storage

Bag storage is also available without booking the education room, as the store area is served by a separate entrance and individual keys are provided.

Activities

On-site resources, including hands-on Explorer Backpacks, can be booked in advance to enhance your self-led visit. These are free and subject to availability.

Lunch and refreshments

Packed lunches can be ordered in advance at £4.25 per child with a free staff lunch for every 10 child's lunches ordered. These must be booked in advance. During the colder months, hot chocolates can also be ordered.

Unfortunately there is no indoor space for lunches; however, picnics can be held within the landscape or on the outside benches. On severe weather days we will try to accommodate educational groups within the education room (subject to availability and other bookings).

Parking

Free coach parking is available with a maximum time of two hours.

KS2

SEN

CPD

The enquiry-based approach to religious education for F1 to Year 6

WHO ARE WE?

Discovery RE Ltd is a group of teachers with a combined experience of 75+ years as RE specialists, teachers and advisers who write RE teaching materials for fellow teachers and then support them to use them effectively. The company was founded by Jan Lever in response to teachers asking for a comprehensive scheme of learning for RE.

WHAT IS DISCOVERY RE?

Discovery RE is a medium-term planning scheme of work for Religious Education which helps develop critical thinking and future spiritual development from Foundation stage to Year 6.

WHAT WE OFFER

Discovery RE contains enquiry-based modules on Christianity, Buddhism, Hinduism, Islam, Judaism and Sikhism, with recently added work on Humanism.

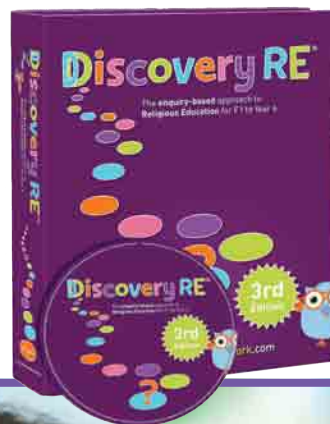

The teaching resource includes:

- Hard copy plus CD copy
- Six lesson-enquiry modules for each year group covering the 6 principle religions and Humanism, with additional optional enquiries and an overview for the whole school.
- Ready-made assessment task sheets with exemplified attainment descriptors
- Engagement activities that start in the children's experience and then investigate the world of religion
- The development of Critical-thinking skills
- SMSC opportunities in each module
- Full planning for EYFS

HOW WILL IT HELP PUPILS?

Our belief is that by using an enquiry-based model well in RE children's critical-thinking skills can be developed, their motivation to learn increased and their knowledge and understanding of peoples' beliefs, religious or otherwise, and their empathy towards those people, will be enhanced. Their own spiritual awareness will also grow.

Our experience shows there is a strong commitment by schools to honour the considerable contribution RE makes to children's learning, to SMSC opportunities and personal development, however there is often concern that creating a progressive scheme of work for a whole school is a difficult and time-consuming task. Add to this the complex process of designing assessment tasks with a manageable reporting and recording system, and in a world 'beyond levels' and even the most experienced and committed RE subject leaders are presented with a huge task.

THE SCHEME OF LEARNING FOR RELIGIOUS EDUCATION IN THE PRIMARY SCHOOL

Very aware of the drive to make RE a meaningful and relevant subject, particularly in a world that desperately needs understanding and empathy between people, and also the huge amount of time and effort needed to write a Scheme of Learning for the whole school, Discovery RE helps short-cut the planning process whilst still enabling teachers to take ownership of how they deliver each lesson/enquiry.

Discovery RE is a set of detailed medium-term plans for RE from Years F1/2 to Year 6. Christianity is taught in every

year group, with Christmas and Easter given new treatment each year, developing the learning in a progressive way. Buddhism, Hinduism, Islam, Judaism and Sikhism are also covered with specific work on Humanism recently added. Teachers have flexibility as to which religions are taught when to best suit the needs of their children and the locally agreed syllabus.

The 4 part planning model takes children on a learning journey from their own world to the world of religion and belief, learning about specific aspects of it in order to answer a big key question like "What is good about Good Friday for Christians?" or "Is anything ever eternal?" Each enquiry closes with children offered opportunities to creatively

express their own opinions and learning.

We are delighted that Discovery RE fulfils the requirements of both the approach and content set out in the National Framework 2013, and that it contributes very significantly to addressing the weaknesses outlined the Ofsted report's key findings, not least providing a straightforward and comprehensive assessment process.

Primary schools across all sectors are reporting great improvements in RE learning and teacher confidence, and SIAMS reports are reflecting this for the church schools which are using Discovery RE as their structured scheme.

Jigsaw PSHE

Jigsaw: the mindful approach to PSHE

WHO WE ARE

Jigsaw is an original, comprehensive scheme of learning for Years F1/2 to Year 6. It integrates PSHE, emotional literacy, social skills, spiritual development and SMSC opportunities in a lesson-a-week programme, and includes all teaching resources.

WHAT WE OFFER

Jigsaw offers weekly lesson plans which cover:

- PSHE
- Personal development
- Wellbeing
- British values
- Relationship and sex education
- Drug and alcohol education
- Cyber and homophobic bullying
- Body image
- Self esteem
- Health education
- Financial capability
- Emotional literacy
- Social skills
- Spiritual development
- SMSC opportunities throughout
- Assemblies
- Original songs with music CD
- Weekly behaviour focus
- Reward system

Alongside this we have integrated progressive emotional literacy and social skills development and underpinned the whole programme with mindfulness philosophy and practice.

We offer ongoing support through the community area of the website with access to online mentors, updates, articles and regular newsletters.

Jigsaw also offers:

Differentiated support for SEN, assessment tasks with marking criteria, a range of teaching and learning approaches, Jigsaw chimes, Jigsaw friends and Jigsaw journal covers.

More
Info

Jigsaw is now in over 1,000 schools across the UK. Come and join our Jigsaw family, call or email us for more information.

HOW WILL IT HELP PUPILS?

By teaching children to become aware of their thoughts and feelings as they happen, we are empowering them to gain control of the responses they make in both learning and social situations. This is making a positive impact on relationships between children and with the adults in their classrooms, enabling better collaborative learning and teamwork.

The effect on behaviour is also being reported as striking; children employing 'Calm me' techniques to regulate their own emotional states means fewer outbursts, more stability and more learning time.

More than this though, we believe increasingly mindful children will gain skills that will strengthen them individually to make the most of opportunities offered to them, and build resilience to the difficult aspects of life that may come their way at home, in school or in the wider world. This, coupled with the PSHE-specific

knowledge gained, means children are better equipped to cope with difficulties and to enjoy the wonders of life.

Teachers and headteachers often email and phone us to let us know how delighted they are with what is happening, both to individual children and to the whole-school ethos, since implementing Jigsaw. Schools are reporting greater, more-efficient learning time, a decrease in emotional and social issues that cause barriers to learning, increased cooperation and improved relationships, and very importantly huge boosts in self-esteem and positive self-image. All of which should add up to enhanced learning and achievement.

The impact study conducted by Sheffield Hallam will be published Autumn 2016.

Hue HD Pro

KS1

KS2

A great all-round classroom camera – light-weight, colourful and affordable

The HUE HD Pro classroom camera and visualiser can view a full A4 page and project it onto the whiteboard via your PC and projector. And at only £44.95 +VAT you can afford one in every classroom. Better yet, buy five and get an extra one free (limited offer expires September 30th 2016)

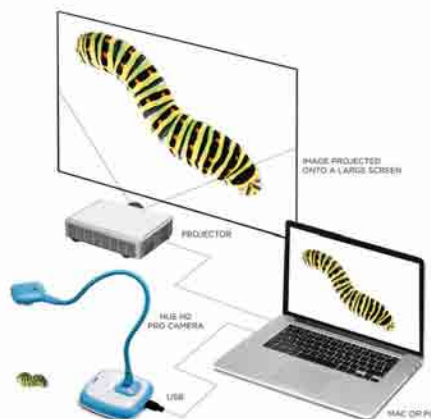

Available in four colours and compatible with Windows and Mac OS X, the HUE HD Pro also comes with specially designed software, HUE Intuition, to allow you to master the full functionality of the camera with ease.

HUE Intuition allows you to:

- Record video and sound and save movies locally, email or upload to YouTube
- Annotate images and save as JPG/BMP/PNG/GIF
- Take snapshots
- Take multiple images over time

Use the HUE HD Pro for:

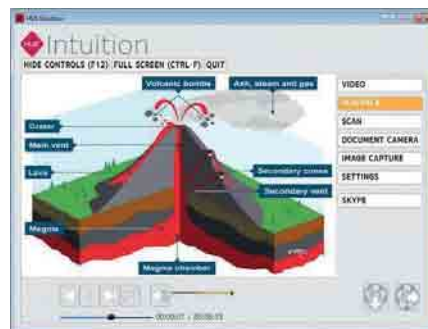

- Demonstrating a science project
- Taking snapshots of students' work
- Recording a technique or experiment and replaying it to the class
- Stop-motion animation
- Time-lapse photography
- Chatting with remote schools in other countries with software such as Skype

"A HUE HD Pro Camera is ideal for getting together, getting focused and getting down to the business of learning. Use the HUE HD Pro as a basic microscope, use it for student presentations, Vlogging, video chats with other schools, or whatever you like... but above all just use one – it offers more than a fixed webcam ever could and it could open your eyes to the possibilities of teaching things differently."

John Dabell, Teach Secondary magazine

Red Nose Day 2017

Get set to laugh, learn and change lives for the better

Noses at the ready – Red Nose Day is back! On Friday 24 March 2017 schools will be buzzing with comedy, cake sales, dressing-up and dancing for a great cause. What better way to bring the whole school community together?

As Lynn Knapp, Headteacher at Windmill Primary School sums it up: “Red Nose Day is the stuff that school memories are made of. Of course, it’s a lot to do with all the fancy dress, fun and joking around. But children also love the feeling of helping others and being part of a big national event that is changing things for the better.”

Money raised will be used to help people living unimaginably tough lives

in the UK and across Africa. Every pound really does make a difference.

To make getting involved with Red Nose Day super simple, Comic Relief has produced free fundraising packs, full of balloons, stickers, activities and learning resources. Go to rednoseday.com/savethedate to order yours.

Times Tables Fun!

AT LAST a fully tracked and FUN Times Tables system for schools, from Professor Assessor

Professor Assessor is launching our new on-line Times Tables Fun system. The Beginner section starts children off with pictorial images of groups and arrays of objects. Children can then move on to the main Times Tables section. The Mastery section includes division, place value and missing number problems, all focussed on the times tables to 12.

It’s really fun with trophies and characters to collect which encourage children to practise at home. Once a section is completed a printable personalised certificate

is awarded.

Fully automatic settings allow pupils to progress at their own rate. Alternatively, teachers can select suitable sections or tables for each pupil.

Teachers, children and parents can instantly see where those tricky number combinations are and how far they are off the next trophy or certificate with our unique tracker.

Get the times tables cracked with Times Tables Fun from Professor Assessor.

The STABILO Pen Licence

KS1

KS2

A free certificate and licence for children to celebrate being able to write in pen, plus money off their first STABILO pen

Teachers can download their class pack of licences directly, or have them delivered for free by signing up at blog.stabilo.co.uk/pen-licence. STABILO is dedicated to improving the handwriting of children in the UK with its range of ergonomically designed pencils and pens which help children find the right grip for better handwriting.

Teachers and parents will also have access to a growing selection of free resources for teaching children better handwriting. These will include worksheets, video tutorials and advice.

Angela Webb from the National Handwriting Association said:

“Handwriting is now part of the national curriculum and it is crucially important for primary-age children to develop handwriting skills early on. Despite the increase in digital technology, handwriting is still an essential skill, not only for presentation reasons, but also because of the benefits to a child’s cognitive development.

“The supply of good-quality handwriting resources in the UK which are easily accessible to teachers varies considerably, but they can certainly enhance the writing experience for large numbers of children.

“Some educators may struggle with best practice in terms of teaching handwriting, because it is not part of the PGCE teacher training in most universities. Despite this, changes to assessments this year mean that children continue to be assessed on handwriting as well on reading and maths.

“We will be working with STABILO to build these resources and we are hopeful they will be helpful to children, parents and teachers alike.”

Chris Reynolds UK Director at STABILO said:

“Teachers and parents have fed back to us the need for better resources to help with handwriting. Children are often desperate to achieve in handwriting, but lack the resources for teachers and parents to help them with their development. School schemes such as the ‘Pen Licence’, whereby children receive a certificate when they reach a certain standard and can progress from using pencil to pen, are a great incentive for children. However, parents are often at a loss as to how they can help them reach this standard.

“Our pens are ergonomically designed to help children improve handwriting and, when combined with the right teaching support, we have found them to be highly effective. It’s for this reason that it made perfect sense for us to start producing the resources ourselves, working closely with the National Handwriting Association.”
