

The Teach Primary
RESOURCE GUIDE
2019

Resources and ideas for KS1 & KS2

www.magicoftheatre.com

Our productions educate Primary School audiences through the powers of entertainment and imagination, whilst at the same time encouraging children to read for pleasure and explore their creative abilities. We balance humour with serious messages, evoke emotions in a sensitive and relevant manner, and encourage appropriate and valuable audience reaction to a wide range of moral and historical issues.

Our wonderfully constructed sets and special effects, adaptable to any venue, allow for this experience to be enjoyed by the whole school, in the safety of their own surroundings.

CLASSIC LITERATURE ADAPTATIONS

As well as promoting reading for enjoyment, our Classic Literature Adaptations provide an immersive, accessible and memorable way to learn about many of the real life issues that come under the PSHE core themes. These productions can evoke questions, encourage discussion and initiate communication relating to the many social, emotional and ethical situations portrayed.

"The children thoroughly enjoyed it and have already started creating some amazing pieces of work based on the story!"

PANTOMIMES

Every one of our Pantomime productions is packed with fun, laughter, excitement, great music and larger than life characters. Written specifically for children by our experienced team of professionals; our scripts, costumes, scenery and special effects all combine to ensure that from the very beginning, the audience will enjoy a truly magical theatrical experience.

"The hilarious comedy timing, superb singing, stunning sets and sleek set changes had everyone clapping and singing"

On Track English

A targeted approach to English intervention for Key Stage 1 and 2

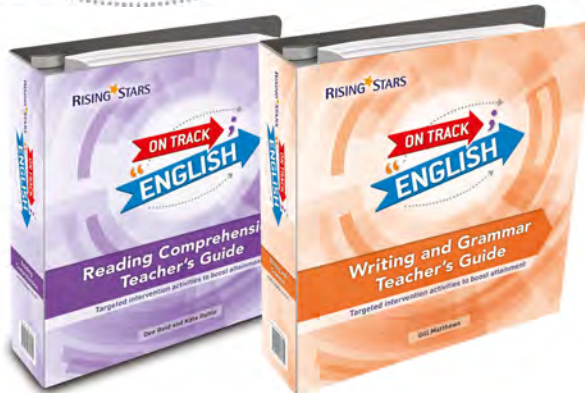

On Track English is designed to boost English skills and support and motivate struggling and less-confident pupils. This new intervention programme helps schools boost attainment in reading comprehension, writing and grammar. The easy-to-use diagnostic tools help teachers to easily identify areas of weakness and quickly implement effective intervention sessions to get pupils back on track.

- Pinpoint areas of weakness with the straightforward diagnostic tool
- Implement effective, targeted interventions with pick-up and use resources perfect for TA's
- Support teaching staff in delivering intervention with support videos and useful guidance
- Track progress with assessment guidance and tracking grids
- Demonstrate impact for Ofsted easily

HeadStart Primary

Engaging teaching resources for primary schools

WHAT WE OFFER

HeadStart Primary offers complete teaching and learning resources for teachers delivering the Key Stage 1 and 2 National Curriculum in English and maths.

We are committed to helping teachers teach by applying tried-and-tested principles with care, determination and consistency. Our resources offer some of the highest quality and innovative teaching solutions on the market.

HeadStart's resources include full schemes of work, focussed and differentiated pupil activities, scaled score assessments and gap analysis programs.

WHY NOT TAKE A LOOK – IT'S FREE

Did you know that HeadStart's resources are available to teachers as inspection copies?

This exclusive service allows schools to order full resources and trial them for 28 days without any obligation to purchase.

The books are delivered to you free of charge, enabling you to assess how these resources will help save you time and improve pupil learning outcomes.

Should you choose to order, we will send you the accompanying CD-ROMs for your new resources. If you prefer to return the books, we will collect them free of charge.

There really is no risk!

WHAT TEACHERS SAY

"Can I just congratulate you and the team on your product; we feel they are the best resources on the market. We have bought them all!"

"The new spelling books are great – you have saved my life."

SEN

Bringing the magic of theatre to you

WHO WE ARE

M&M Theatrical Productions are the UK's largest and most respected provider of theatre-in-education, specialising in Classic Literature Adaptations, Stagecraft Workshops and Pantomime Productions for Primary and SEN School audiences.

They transform gyms and dining halls into a magical theatrical experience, using state of the art sets, sound, lighting and special effects. Their Productions are renowned for their high quality and attention to detail, ensuring that children of all ages and abilities are equally engaged, educated and entertained.

ENRICHING THE CURRICULUM

Theatre not only entertains and enchants the audience, it teaches you about the world; about history, about geography, about people and emotions. It fires the imagination; giving children the skills, curiosity and creativity they need to understand the complex world we live in, fostering empathy and understanding.

M&M Theatrical Productions educate young audiences through the powers of entertainment and imagination, whilst at the same time encouraging children to read for pleasure and explore their creative abilities.

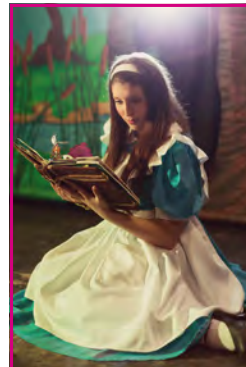

Every one of their productions is presented in an easily digestible and interactive format, balancing humour with serious messages, evoking emotions in a sensitive and relevant manner, and encouraging appropriate and valuable audience reaction to a wide range of moral and ethical issues.

Written specifically for primary children by an experienced team of professionals; their scripts, costumes, scenery and special effects all combine to ensure that from the very beginning, the audience will enjoy a truly magical and enriching theatrical experience.

WHAT THE TEACHERS SAY

"The story was clear and straight-forward to follow and the performances by the entire team were convincing. They had the perfect balance between funny and sincere moments and our pupils loved it"

"Pupils were thoroughly excited and engaged and work has already begun with follow up learning activities"

CPD

Inventors of outdoor learning helping young people learn skills for life

WHY SCOUT ADVENTURES?

At Scout Adventures they believe that amazing things can happen in the great outdoors. With its expertise in informal outdoor learning, and world-famous Scouting heritage and values, it has inspired generations of young people to reach their potential and learn skills for life.

With over 100 years' experience in character education the Scout movement has helped young people enjoy fun and adventure, learn new skills and become active citizens of the future.

BRILLIANT RESIDENTIALS

At Scout Adventures it's all about helping young people to reach their potential. It believes that learning away can have a powerful, positive impact on young people's academic achievement.

This is supported by research by the Paul Hamlyn Foundation 'Learning Away' into Residential experiences, which suggests that a residential experience can lead to a 58% improvement in attainment at primary level. Over three quarters of young people also say they get on better with their teachers thanks to the residential.

With wider research, evaluation findings and the wealth of on-the-ground experience shared by their Learning Away schools, staff and young people – Learning Away is convinced that residentials can be highly worthwhile and impactful ways of teaching and learning.

Percentage of primary children who believed they improved in these areas as the result of a residential:

- Increased attainment: 58%
- Better engagement: 72%
- Improved relationships: 75%
- Increased confidence: 83%

Scout Adventures understands that it has a significant role to play in helping and supporting schools to provide high-quality residential experiences for young people of all ages that are teacher-led and designed to be affordable and inclusive.

So the evidence is compelling and powerful.

HOW IT CAN SUPPORT YOU

Scout Adventures knows that the residential is often the highlight of your year. That's why it's important that you have the information and support you need to make the right decision.

The company will provide you with the information and resources you need to share with your team before you decide. It wants you to feel comfortable with every aspect of the journey, from enquiry and booking to arrival and post visit.

Once you've made the decision to book with Scout Adventures, the staff will look after you every step of the way.

Authorfy

The award-winning literacy platform that provides masterclasses with bestselling children's authors

HOW DOES AUTHORFY WORK?

In collaboration with its publishing partners, Authorfy creates exciting and original videos in which children's authors share their unique approach to writing and pass on their love for literacy.

Each Author Masterclass comes complete with a series of videos where authors talk about their writing process, their inspirations, the main themes in their books (from Ancient Greeks and Ancient Egyptians to creating empathy, writing in verse or using Russian folktales for inspiration), and they give tips and advice, read from their books and set children writing challenges.

Each masterclass comes with a KS1, KS2 or KS3 cross-curricular scheme of work, plus extract downloads, competitions, and the ability for students to upload their work and win feedback from the authors themselves!

TESTIMONIALS:

"Authorfy is set to rekindle a love of reading and writing in a generation of children."

Abi Elphinstone, ex-English teacher and bestselling author of 'The Dreamsnatcher' and 'Sky Song'

"My school can't afford author events, but Authorfy has given us access to tons of authors for a fraction of the cost. The impact it had on our children's reading and writing for pleasure was instant. I'm blown away!"

Mr Brett, Year 3 Teacher

"Authorfy is a gamechanger! I've never seen my students so engaged or eager to write, and it's so affordable, too."

Mrs Cannon, Year 6 Teacher and Literacy Coordinator

JOIN THE AUTHORFY ARMY TODAY!

If you want to connect children to their favourite authors, build a buzz around books, create a reading culture in your school, improve students' literacy skills, gain access to 'the best curriculum-linked literacy resources on the market' and encourage both reading and writing for pleasure, why not create an Authorfy account for just £24.99 and get unlimited access to every author video, scheme of work and competition Authorfy has to offer?

Authorfy is already being used in over 400 schools and with an audience of over 10,000 children, Authorfy will be uploading a new masterclass every two weeks from September 2018, including masterclasses with teacher favourites, Michael Morpurgo, Emma Carroll and Kiran Millwood Hargrave.

EasyRead Time Teacher

Helping the next generation learn to tell the time

EY

KS1

KS2

SEN

Learning how to tell the time for most children is a challenge and teaching it can be frustrating, but it doesn't need to be complicated. EasyRead Time Teacher has the perfect solution in its practical yet stylish range of time-teaching products.

Its clocks and fabulous wristwatches are designed to clearly present all the information children need to get to grips with telling the time. And when used with its EasyRead teaching aids and student cards, the process becomes a whole lot easier.

In just three simple steps and with a little practice, classes will be telling the time in "no time at all".

Little Pig Big Chicken

EY

KS1

KS2

SEN

Rent-a-Pig Programme providing all you need to keep two mini-pigs at school for a week.

WHO WE ARE

Little Pig Big Chicken is a small family farm in the East Sussex Countryside that breeds miniature pigs. Many of its piglets go on to be countryside family pets, but in cities where space is limited, farm animals are harder to come by.

Now in its third year, its 'Rent a Pig' Programme has provided a unique learning experience to schools all over London and as far as Sheffield, Birmingham and Manchester.

WHAT WE OFFER

The rent-a-pig service gives children the chance to care for and learn about pigs by providing two friendly miniature pigs and everything you need to care for them for one week.

The adult miniature piggies are around 14-15" tall fully grown, and even-tinier micro-piglets are sometimes available for visits. There are a variety of colours including little pink pigs.

The rent-a-pig experience is especially valuable to those in city schools where contact with farm animals is difficult. Little Pig Big Chicken provides a secure pen (with or without floor), sleeping house, bedding, feed and toys for the pigs.

It also provides wipe-clean piggy chore sheets for class members, activities to take part in, fact sheets and equipment for classes to help their piggies do some painting for you to keep!

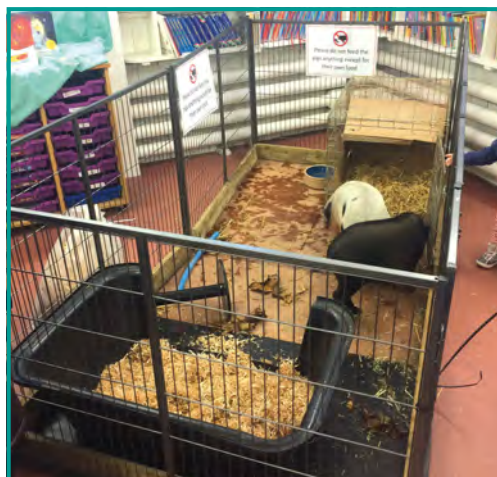

These piglets are litter trained and can even be kept indoors if required. They do not smell, and are cheeky, nosey and extremely interactive.

Pigs spend a week at your school – often Sunday to Saturday, but weekday drop offs can be arranged if required.

All pig-movement licensing is taken care of for you and risk-assessment templates are available if required. This service is fully insured.

HOW WILL THIS HELP PUPILS?

Rent a Pig is a powerful tool for teaching empathy and responsibility in pupils of all ages. Those who struggle to concentrate in lessons can find activities involving animals aid their focus. Children learn about animal husbandry and animal welfare on farms, and for young children or those with limited mobility animal experiences with miniature pigs can provide a safe way to interact fully with a farm animal.

A specialist provider of educational school travel with over 50 years' experience

WHO IS NST?

Founded in 1967 by a maths teacher who recognised the need to help organise school trips, NST is now the largest educational tour operator in Europe. The company prides itself on retaining its one-to-one support and providing exceptional service to all its customers. NST organises all transport, accommodation and visits, tailor-making the whole itinerary to suit each customer.

YOUR OWN DEDICATED SCHOOL TRIP ORGANISER

From the moment you start planning a tour with NST, a dedicated contact will work closely with you to bring your school trip ideas to life. With unrivalled knowledge of destinations across the UK, Europe and worldwide, together with years of experience in planning unforgettable school trips, NST will help you to create a learning experience that's as unique as your group itself.

BRING LEARNING TO LIFE

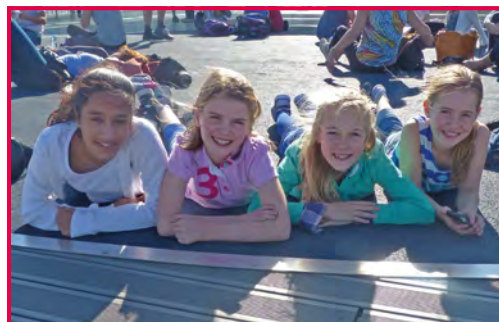

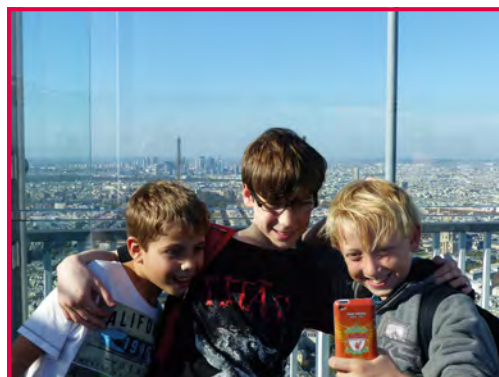

NST offers a range of value-for-money trips, with destinations covering the UK and Europe that have all been chosen with primary school groups in mind. The range of engaging visits provides an ideal introduction to the world outside the classroom. NST goes the extra mile to offer residential tours which enable children to understand how they fit into the world around them and to encourage learning outside the classroom.

PEACE OF MIND

Safety is at the heart of every NST school trip and the company's vigilant approach to safety management will offer reassurance to both teachers and parents. You'll have financial protection as NST is fully bonded through ABTA and ATOL, and licensed by IATA too.

THE BENEFITS FOR YOUR PUPILS

There's no substitute for a real experience in the wider world to inspire pupils' imaginations, and going on a school trip will do just that. Educational visits give pupils the opportunity of new and memorable experiences, providing opportunities and benefits that cannot be achieved in any other educational context or setting. Learning outside the classroom not only improves pupils' engagement with learning, but also improves their knowledge, skills, understanding, self-confidence and wellbeing, as well as fostering deeper relationships and boosting cohesion and a sense of belonging.

Support vocabulary development with Collins

A SECURE START TO EVERY CHILD'S READING JOURNEY

Collins Big Cat Phonics for Letters and Sounds offers complete support for early reading development in Reception and Key Stage 1 through 66 fully decodable books and 2 comprehensive Phonics Teacher Handbooks.

- 33 fiction and 33 non-fiction high-quality readers fully aligned to Letters and Sounds for complete practice of all the required phonemes
- Support language development through detailed images in the books to spark discussion, rich and precise language in the text and the 'Extending Vocabulary' section in the reading notes provided inside every book
- Encourage fluency practice and promote reading for pleasure through exciting, varied topics written by fantastic authors and supported by engaging illustrations and photography

Visit collins.co.uk/LettersandSounds to find out more and order evaluation copies.

CLOSE THE WORD GAP IN THE EARLY YEARS

Assess your children's receptive (heard) vocabulary in Reception with **Assessing Receptive Vocabulary**, an illustrated topic-based assessment to ensure all children have a rich, relevant vocabulary that will support their learning.

- Visual half termly tests, in which children select the correct picture to go with the word you say
- 30 illustrated vocabulary lists with 8-10 words per topic to use in your classroom and to send home
- Based on topics inspired by Development Matters, the Early Years Foundation Stage and evidence from the Collins Big Cat Corpus
- Photocopiable with a free editable download giving you the flexibility to adapt the tests for your school

Collins Revision and Practice

**The revision method that really works:
repeated practice throughout**

WHAT IS DIFFERENT ABOUT COLLINS REVISION?

Collins' books are based on a 'repeated and spaced practice' approach.

Research proves that, compared to other revision methods, this has the most impact on test results. When information is broken up into a number of short sessions and spaced out, the repetition of the learning point after a period of time, helps pupils to remember it better long term. The increasingly wider spacing is important as it requires the learner to use more effort to retrieve the information each time.

THE BEST REVISION AT THE BEST PRICE

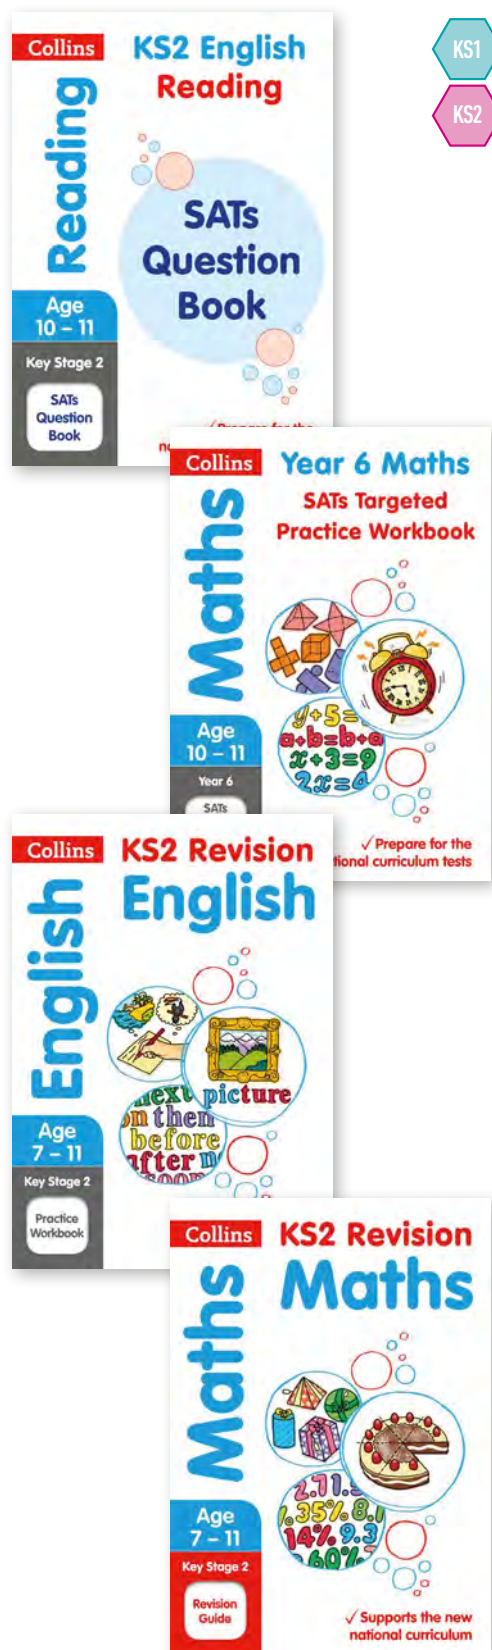

Collins revision and practice books contain five times more practice opportunities than other guides, to help children improve their SATs performance.

There are five spaced practice opportunities for every topic:

- Practice questions organised into three levels of increasing difficulty
- Quick tests to check understanding
- Review questions later in the book
- Mixed practice questions at the end of the book
- Free downloadable flashcards for use in the classroom and at home

HOW DOES COLLINS REVISION HELP MY PUPILS?

By using Collins Revision, pupils will recall information better in the tests. Using knowledge that is embedded in their long-term memory and having grasped what is being asked of them in the papers, pupils can more easily apply their prior understanding to each question.

The Shanghai Maths Project

Help all your pupils achieve maths mastery without breaking your budget

KS1

KS2

CPD

HIGH-QUALITY RESOURCES FROM SHANGHAI

Written by experts in Shanghai and the UK and refined for over 25 years, the programme is packed with exciting, dynamic lessons that improve pupils' retention of mathematical concepts and their use of correct mathematical vocabulary.

ALL PUPILS CAN ACHIEVE MASTERY IN MATHS

The Shanghai Maths Project is based on whole-class interactive learning with exercises that build upon small steps of carefully measured progression, plus same-day intervention and enrichment activities that work to close attainment gaps, meaning no pupil is left behind.

TEACHERS ARE FULLY SUPPORTED

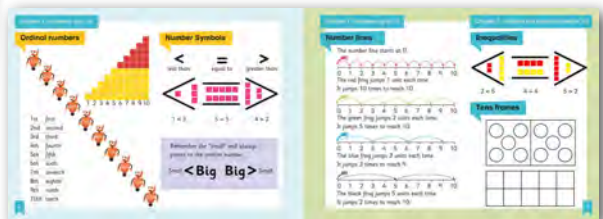

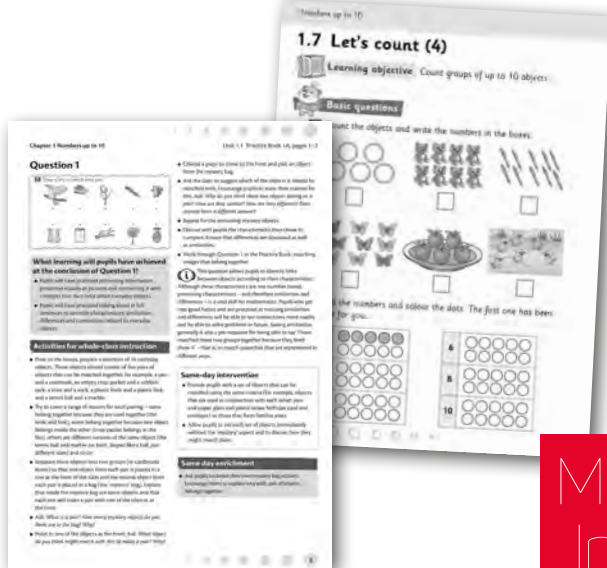

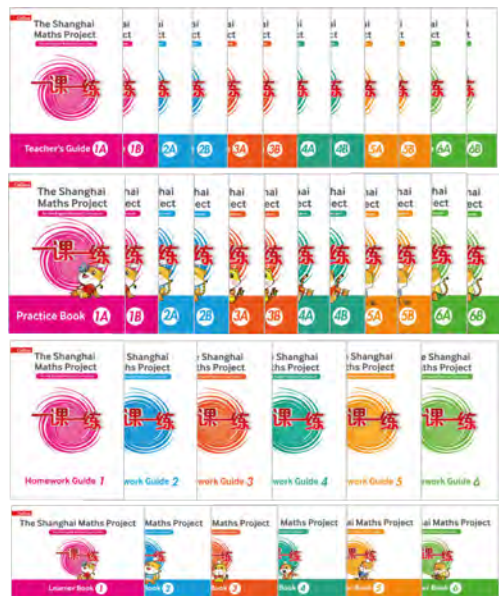

Teachers are fully supported to deliver the Maths Programme of Study with guidance from comprehensive Teacher's Guides, that provide recommended teaching sequences, planning support and an in-depth introduction covering mastery guidance, variation theory and the concrete-pictorial-abstract approach.

AFFORDABLE FOR THE WHOLE-SCHOOL WITH FLEXIBLE PACKAGES TO SUIT YOUR NEEDS

Implementing mastery shouldn't break your budget, that's why Collins offers flexible, cost-effective packages to suit your schools' needs with no extortionate ongoing costs.

SEN

CPD

Mastery for all: Five Minute Literacy Box and The Number Box

WHO WE ARE

Five Minute Box (UK) Ltd has developed cost-effective, proven interventions to support early English and Mathematics development. Used throughout the world, the Five Minute Box and The Number Box are the starter packs on the road to literacy and maths mastery.

"A valuable addition to any classroom"
Dyslexia Action

WHAT WE OFFER

The Five Minute Box and The Number Box are little suitcases containing everything required for regular, structured sessions. They give support to any child not keeping up with the pace of classroom learning, whilst also highlighting signs of dyslexia and dyscalculia. Comprehensive whole school and cluster training sessions are also available, provided by 'Understanding & Supporting Learning'. These sessions are competitively priced and are great for empowering both support staff and class teachers to support children, particularly those with dyslexia and dyscalculia.

"We use them daily in KS1 as an early intervention tool and they've made a real impact on pupil progress. The children love the 'special' cases and the resources inside!"
Head of Learning Support, Highfield Prep School

HOW WILL THIS HELP PUPILS?

Research shows that children learn best when their self-esteem is preserved, and they can master key skills at their own pace. Children use The Five Minute Literacy Box and The Number Box with an adult in regular, short, motivating sessions. With no preparation required, these resources are ideal to maximise Teaching Assistant input with targeted students.

The evidence-based approach means the resources are suitable for children with a range of needs from school entry onwards. A key aspect of the schemes is the child-centred organisation of the resources. This helps develop sequencing skills that can be challenging for children with early signs of dyslexia.

The programmes are intrinsically motivating, and self-help strategies are built in. This way children transfer new skills into the classroom environment, avoiding learned helplessness. Progress is divided into small steps targets, making it easy to track and share with the learner, as well as other professionals.

No Nonsense Number Facts

Supporting fluency through reasoning with number facts

WHO WE ARE

Raintree is an educational publisher dedicated to providing schools with high-quality, curriculum-focused classroom resources and providing teachers with easy-to-use, straightforward and effective programmes.

WHAT WE OFFER

No Nonsense Number Facts is part of the award-winning No Nonsense family of resources and provides teachers with a coherent programme for supporting fluency in number facts in line with the aims of both the National Curriculum and the Teaching for Mastery agenda.

Fluency involves far more than the memorisation of facts, and a key element of fluency is reasoning. That is why practice that focuses on reasoning strategies, looking for connections, patterns and relationships is the most beneficial and effective in schools.

No Nonsense Number Facts provides this much-needed purposeful practice with an approach that reflects recent research into how children learn mathematics, enabling them to develop a deeper understanding.

HOW WILL THIS HELP TEACHERS?

The programme has been created by Raintree and the Babcock LDP Primary Mathematics team in response to teachers' concerns over implementing the new curriculum, and is easy-to-use, flexible and comprehensive.

With plenty of guidance, engaging activities and helpful resources, No Nonsense Number Facts enables schools to implement an effective number facts programme for Years 1 to 6.

THE NO NONSENSE NUMBER FACTS PROGRAMME:

- fits the aims of the National Curriculum
- is flexible not prescriptive – lesson order and length can be changed depending on your requirements
- includes six teacher books, one for each year (Y1–6)
- comes with a USB stick with editable overviews, lesson plans and resources, plus video guidance from the author team.

Monkey World – Ape Rescue Centre

Internationally renowned rescue centre for endangered and abused monkeys and apes from around the world

WHO WE ARE

Monkey World – Ape Rescue Centre is home to over 250 primates of more than 20 different species. Many have been rescued from abuse or neglect, and Monkey World provides a safe sanctuary with others of their own kind. Combining fun with education, half-hourly talks by Primate Care staff explain all about man's closest relatives. Dedicated to the rescue and rehabilitation of primates in need, Monkey World has been the subject of documentaries "Monkey Business" and "Monkey Life" for over 10 years. Visitors can see the stars of the real-to-life soap opera, then "monkey around" in the south's largest play area.

WHAT WE OFFER

There is more to learning outside the classroom than just monkeying around! Whether you're learning about Monkey World's rescue work, impacts of deforestation or how woolly monkey use their tails, the experienced education team can enhance a trip to Monkey World or support learning in the classroom. Choose from a range of talks and curriculum-linked workshops suitable for all ages and levels of study.

All of the talks and workshops are also available as outreach sessions – and the education team can bring Monkey World to you! Talks can be fantastic additions to meetings and events too, and are adaptable for all audiences.

Support is offered to teachers through pre-visit plans, teacher packs, and additional resources post visit. The dedicated education team is there to help you get the most out of your school trip, so get in touch today!

HOW WILL THIS HELP PUPILS?

Students will see conservation in action, as animals stolen from the wild into the black market trade are rehomed at the centre. Some still show psychological and physical scars of their past lives. Topics such as rainforests, evolution, adaptation, and nutrition are brought to life, and linked into the curriculum through our education team's workshops and talks.

Pupils will walk away with a better understanding of our primate cousins and their lives, as well as empathy and compassion for their welfare.

Play Therapy UK

A window of opportunity for funding is opening

Are you following the government plans and consultations on spending an additional £1.4 billion committed for transforming children's mental health over the next five years? It is acknowledged that all types of schools can provide effective services for treating social, emotional, conduct and other mental health issues from an early age.

(Details in the 'Government Response To The Consultation On 'Transforming Children And Young People's Mental Health Provision: A Green Paper' And Next Steps' and the All Party Parliament Group for a Fit and Healthy Childhood's 'Mental Health in Childhood' report.)

However, it is highly likely that prescribed standards will have to be met to obtain the funding.

There are two key questions:

Registration: Is your school using therapists who are registered with a Professional Standards Authority (PSA) Accredited Register or with the Health and Care Professions Council (HCPC)? It will no longer be acceptable for unqualified, inadequately trained persons without clinical supervision to be employed or contracted to carry out this work.

Evidence-based practice: Are the practitioners using a therapy model that is backed by a quantified evidence base?

ONE SOLUTION

Play Therapy UK manages the Register of Play and Creative Arts Therapists accredited by the Professional Standards Authority. It has over 2,000 registrants all trained in the Integrative Holistic model of child therapy. This has an evidence base with over 59,000 outcome measures.

You could train your staff to reach the required standards for our register through Play Therapy UK's accredited training programmes – a good investment. There are 13 conveniently located venues throughout the UK. Most courses are run Friday to Sunday to minimise time away from work.

HELPING YOUR CHILDREN

Between 77% and 84% of children aged 4-12 receiving therapy from Play Therapy UK's registrants show a positive change, as observed by parents and teachers. In its model it's the children who choose what to do in therapy from a wide range of creative arts media – not just toys or games. Its therapists are trained, not just to observe, but to communicate using the same media that the child has chosen.

Happier children better able to learn – grateful parents – increased credibility as a supportive school

Brainwaves Rewards

Specialists in educational reward products for schools, with a strong focus on personalisation

WHY BRAINWAVES?

Brainwaves is a trusted and established supplier of rewards to UK primary schools. With over 30 years of experience, it has a thorough knowledge of the education market and has grown a strong and loyal customer following that values its reliable service and the high quality of its products.

WHAT DIFFERENTIATES BRAINWAVES FROM OTHERS?

The fantastic efficiency of the Brainwaves team. It doesn't just 'supply rewards' but focuses on all areas of its business from quality control, unique in-house design, fast and efficient delivery and, most importantly, listening to its customers.

Rewards are often the foundation of a great school event, whether it is a sports day or an assembly awarding attendance. Brainwaves ensures that your products are delivered on time and checks products before dispatch to ensure quality on arrival.

Last-minute orders, including personalised products, are no problem for the team who are also always happy to try to fulfil any reward need you might have.

BRAINWAVES' PRODUCT RANGE INCLUDES:

Personalised stickers, certificates, stampers, trophies, medals, pens, pencils, rulers and badges. It also offers an extensive range of gift packs.

Science Trails

Give your KS1 and KS2 science lessons the wow factor

Pupils love getting out of the classroom, but the local environment around schools is too often an underused resource. So Science Trails is much more than simply taking learning outside: the 29 different Trails in the book enable you to use the outdoor environment to discover and understand science concepts. They'll enthuse and inspire pupils and teachers alike, and support you to deliver science in thought-provoking ways.

Written and tested by practising teachers, Trails are an invaluable CPD resource, with a huge range of materials and ideas to promote outdoor learning throughout your school. They cover biology, chemistry and physics, and the book includes a curriculum grid, cross-curricular links and full scientific glossary.

Each Trail is based on a particular topic area of science and the Trail takes the children to location(s) where there will be plenty of real-world examples of this topic. Children focus on how everyday problems have been solved because scientists, engineers and designers have worked together. Teachers can make adaptations to any Trail so that it is tailored exactly to the science they want to teach.

Puffin Virtually Live

A free webcast created by Puffin Books, starring today's best authors and illustrators

WHY YOU SHOULD TUNE IN

Imagine if Jacqueline Wilson could give your class a creative writing lesson? That's exactly the opportunity you get with Puffin Virtually Live. In just 30 minutes, pupils will see stories brought to life and get loads of practical tips and exercises that they can put into action right away. Best of all, you can watch with thousands of other schools around the globe in your classroom, school hall or library.

Each show features a range of guests, from legends like Quentin Blake to rising stars on the children's book scene, as well as multi-talented YouTubers and sporting heroes. You don't need to have read the books to enjoy the show because every guest is there to share their own words of wisdom to inspire kids to start their story.

Check out past shows On-Demand and don't miss 2018's Roald Dahl Day Show on Thursday 13 September and a Christmas Spectacular, starring Philip Pullman and Michael Morpurgo, on Friday 7 December.

HOW TO WATCH THE SHOW

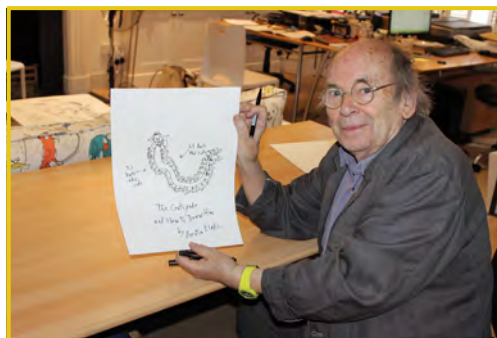

- Register on the website and create an account – it's free to do, all you need is an email address.
- Download the resources ahead of the show to get your class thinking about the themes. Then send in your questions for the guests.
- On show day, gather your class in front of a screen or whiteboard and sign in to the website.
- Make sure everyone's got their pens and paper ready for the draw-along. During the show you can even see your school shout-out on screen by tweeting @puffinbooks.

Missed the show? Don't worry, you can watch them all again On-Demand.

WHAT TEACHERS SAY

"Good fun and the children love it! Many go on to read books they haven't considered before."

"It makes pupils feel the author is human."

Maths-Whizz Schools Suite

KS1

KS2

Raise your students' maths abilities by 18 months in just one year!

WHAT IS THE MATHS-WHIZZ SCHOOLS SUITE?

The Maths-Whizz Schools Suite is a multi-award-winning online programme from Whizz Education that simultaneously raises student attainment and reduces teacher workload. Through the provision of fully-individualised maths lessons, Maths-Whizz can improve students' maths ability by 18 months in their first year of use.*

WHAT MAKES UP THE MATHS-WHIZZ SCHOOLS SUITE?

The Maths-Whizz Schools Suite is made up of four key components:

• The Maths-Whizz Tutor

An adaptive online tutor which cuts down lesson-planning time by assessing each student and automatically providing them with lessons that aim to close specific gaps in their core maths knowledge. Once a student masters a topic, the Tutor will progress to more-challenging material, and if they struggle, it will provide confidence-boosting prompts until they are ready to move on. The Tutor does all of this without teacher input.

• Assessment and Reporting

As the Tutor marks lessons, it converts the results into easy-to-understand reports which instantly show teachers their students' strengths and weaknesses across the curriculum. Not only do these reports make it easier for teachers to take immediate action, they are also a valuable asset for parent-teacher meetings and school performance reviews.

• Teachers' Resource

With 1,200+ engaging exercises and worksheets, and a series of customisable assessment tasks, all in one convenient online location, the Teachers' Resource saves teachers from having to spend time scouring the internet for content. All they need to do is select their students' ability level and choose their topic.

• Customer Success

Every school that subscribes to Maths-Whizz is allocated a Customer Success Manager, whose role is to ensure that Maths-Whizz helps achieve your unique educational goals. The experienced CSMs do this by providing bespoke CPD-certified training courses, rigorous impact reports and by hosting celebration assemblies that recognise student success.

*Research by Whizz Education – conducted with over 12,000 students and verified by independent experts – found that students who used Maths-Whizz for 45-60 minutes a week increase their Maths Age, on average, by 18 months in the first year of use.

WHAT'S INSIDE?

Teach Primary magazine is a large and vibrant staffroom filled with talented colleagues. Our readers are also our writers. They are experienced heads, senior leaders, academics and consultants.

The magazine is a conversation that spans the big issues shaping education, the daily substance of classroom life, and the career concerns of every school professional.

Responding to curriculum, assessment and inspection changes is part and parcel of teaching life – like it or not – and our columnists provide expert opinion, perspective, and a touch of much needed humour on the key issues of the day. Information comes direct from schools too, as we regularly visit the top-performing settings in the country.

We aim to inspire and inform in equal measure, sharing the passion and expertise of our sector, reflecting its concerns and celebrating its many successes in an engaging and accessible way.

BOOKS AND ENGLISH

Each issue includes a section dedicated to books, and also focuses on a different area of the National Curriculum, allowing us to dig deeper into every subject over the course of the year.

LESSON PLANS

Joyful dollops of creativity for teachers to add to their regular diet of classroom activities. Readers picking up Teach Primary know they'll come away with new ideas to share with their pupils.

EXPERT VOICES

Our contributors are leading experts and practitioners, such as Mick Waters, Sue Cowley, Michael Tidd and Professor Mike Askew.

Outstanding advice from the UK's top education advisors

BookLife: Match Funding

EY

KS1

KS2

SEN

From Early Years to KS4, BookLife's Match Funding scheme will double your book-buying power!

WHAT IS BOOKLIFE?

Booklife is an educational publisher and bookseller, offering a huge range of educational resources and expertly-curated collections, in both fiction and non-fiction, for children and young people. The company's philosophy is simple: to create and supply exciting, imaginative and informative books. Booklife wants to enrich children's lives by giving them a lifelong love of reading – and learning!

WHAT IS MATCH FUNDING?

Booklife's nationwide Match Funding scheme offers all UK schools the chance to literally double their book budget. There are over 3,000 high-quality products to choose from, including Book Bands (stickers on and ready to go!), Accelerated Readers, Author Collections, Manga and more!

The pilot scheme received such an overwhelming response, as schools face ever-shrinking book budgets, that it wanted to be able to offer the scheme to every school in the UK – so it did! Match Funding is now available in independent schools, secondary schools and nurseries too.

HOW WILL THIS HELP PUPILS?

There are countless statistics revealing the funding struggles schools face, and the decreasing literacy levels we see as a result. It is BookLife's belief that the power of books and the importance of literacy that has led to this amazing offer being extended to all UK schools.

Through Match Funding, Booklife's expert team can help select exactly the books you need – and then double your money! For every pound a school spends with Booklife, it will give you another to spend again! There are no limits on spend or the number of times a school can claim, and you can spend your funding at the same time as ordering. This means schools can provide twice as many books and learning resources, allowing pupils to achieve their full potential.

Teach Reading & Writing

The very best in children's literature combined with creative lesson ideas and curriculum insight from the UK's foremost English experts

KS1

KS2

SEN

CPD

Teach Reading & Writing is both a celebration of children's books and authors and a treasure trove of ideas for how teachers can help students to make big improvements in their mastery of English.

Each issue we hear the stories and opinions of some of the nation's best-loved writers, such as Michael Rosen, Chris Riddell, Jacqueline Wilson and Malorie Blackman in a series of personal essays that reveal their personal relationships with literature.

Teachers will discover inspiration on how to deliver exciting lessons based on children's fiction both classic and contemporary.

They will also find support on how to cover the more technical aspects of the English curriculum – phonics, spelling and grammar, reading comprehension – using the tried-and-tested methods of top educational consultants, including Pie Corbett, Shirley Clarke, Nikki Gamble and Isabella Wallace.

BRILLIANT IDEAS FOR LITERACY ACROSS THE CURRICULUM

Top School Trips

Everything you need to know to get the best educational and emotional value from your school residential, all in one magazine

**TOP
SCHOOL
TRIPS**

KS1

KS2

SEN

CPD

We all know that a school trip can be a transformational moment in a student's education, raising aspirations, increasing self-esteem and equipping children with skills for life.

So Top School Trips magazine wants to share the very best of these experiences, giving teachers inspiring choices for memorable journeys beyond the classroom.

From developing leadership potential to helping staff and students forge better relationships, we explore every aspect of how going on a school trip benefits young people and their education.

Be it outdoor adventures, historical discoveries or fascinating stage shows, in every issue we focus on some of the most popular types of school trip and highlight the most exciting options in each sector.

We also provide expert planning advice on everything from arranging transport and insurance to communicating with parents and supporting children with SEND.

These seminal trips can change the course of a student's education. We look at just how they have affected the lives of young people and what teachers can do to make every aspect of the experience a success.

BIC® KIDS Education Offering

EY

KS1

KS2

SEN

CPD

Specially designed colouring instruments that answer the needs of children at every step of their development

Perfect for keeping little hands busy, the BIC® KIDS colouring range has something for primary school children of all stages – from mess-proof crayons and washable felt tip inks, to robust, splinter-proof colouring pencils that will withstand the test of time.

FELT PENS

Suitable for children from five years, all of BIC® KIDS felt pens are designed and constructed with the safety and comfort of kids in mind.

SPOTLIGHT ON BIC® KIDS VISA™

See your students bring their artwork to life with the Visa™ felt pens from BIC® KIDS. Available as a pack of 12 or a class pack of 288, the fine tips allow for intricate drawing and colouring, while their durability makes them the ideal solution for students who are constantly losing caps, as they won't dry out for up to three months. As an added safety feature, the Visa™ felt pens include ventilated caps, compliant with European Toy Standards. Parents will thank you too, as the water-based ink is washable on most fabrics, meaning stains aren't permanent.

COLOURING PENCILS

BIC® KIDS colouring pencils are designed to enhance child development and creativity, from the very early age of two.

SPOTLIGHT ON BIC® KIDS EVOLUTION™

These ultra-resistant, wood-free colouring pencils are great for everyday drawing and colouring. Thanks to the unique, chew-proof resin barrel, they are safe as they don't splinter, while also being highly durable and easy to sharpen. With a wide choice of colours at your student's disposal, impressive artworks are just a doodle away.

CRAYONS

Created for children aged 30 months and up, BIC® KIDS crayons are available in a range of shapes and sizes to accommodate the hands of mini artists.

SPOTLIGHT ON BIC® KIDS PLASTIDECOR™

Available in packs of 12 vibrant colours, Plastidecor™ are a good option for learners and will be a welcome addition to any classroom. Made from super-resistant plastic instead of traditional wax, these colourful crayons are extra clean on hands and fabrics. What's more, they can also be sharpened and erased just like a colouring pencil!

Teachwire

Your online link to the best in education

WHAT'S ON TEACHWIRE?

Teachwire.net is the online home of our Teach titles, offering a daily mix of news, engaging commentary and useful resources for early years, primary and secondary educators.

Covering everything from the EYFS to KS4, with fresh content added daily for all sectors, Teachwire is our flagship platform for online publishing.

Alongside sharing the best content from our print magazines, we feature exclusive articles from high-profile education bloggers, and show teachers where to find the most valuable online tools and products available on the web.

WHAT'S IN IT FOR TEACHERS?

As a teacher, you'd like to be up on the big education news stories of the day. You'd also welcome the chance to pick up some suggestions for managing your classroom and workload from practised hands who know what the daily demands of teaching involve.

You can find an array of stimulating advice articles, thought-provoking opinion pieces, exclusive interviews and event reports.

Catch up with a selection of columns and longer features from our print magazines Teach Early Years, Teach Primary and Teach Secondary that you might have missed.

There are also sections for the latest educational product reviews, and books your students will love, giveaways, events, courses and more.

FREE TEACHING RESOURCES

Our resources section contains a large and growing repository of lesson plans, classroom activities, assessment tools and other materials that can be downloaded entirely free of charge.

We have a growing bank of early years, primary and secondary resources, with our most popular receiving tens of thousands of downloads.

Both teachers and education companies can contribute to this library too by uploading their own materials.

FREE MAGAZINES

SEN

Movement breaks for the primary school classroom

SUPPORTING TEACHERS TO GET PUPILS MOVING

Current guidelines recommending children should be active for one hour a day, with 30 minutes of this being at school, is increasing pressure on schools to provide physical activity.

Physical activity provider, Fitt-in, has come up with an ideal solution, creating a quick fix of classroom movement, with a catalogue of short dance and movement videos, with relatable instructors and easy-to-follow on-screen visuals.

These online videos vary in length from three to six minutes, and provide a great way to start the day, a welcome break in an extended lesson, or a way of using up pent-up energy at the end of the day.

The videos have been choreographed by instructors who have years of experience of delivering inclusive physical activity in schools, with movements that help build physical literacy, including balance and coordination.

The video catalogue is kept fresh and engaging through regular updates. In addition, a weekly report shows the number of additional movement minutes within the school.

PHYSICAL LITERACY AND BRAIN BREAKS

“The benefits are twofold,” explains Fitt-in director, Anita Yiannoullou.

“The videos reduce sedentary time and instil good movement habits, but also support focused learning and good behaviour, by providing brain breaks.

“Short bursts of activity have been proven to make a positive impact on physical wellbeing and many teachers are now appreciating that breaking up lessons with brain breaks is a great way of improving engagement and concentration. Movement stimulates the brain and is one of the best ways for children to gain control over their behaviour, engage in their learning and retain what they’re being taught.”

Pete Brodie, pastoral leader at Harrington Hill Primary, says improved physical literacy has knock-on benefits: “Fitt-in helps some pupils to participate more in PE, as they move together in a group and grow in confidence.”

Pupils have also been enthusiastic, saying that Fitt-in gives them energy, is fun, wakes them up and makes them ready to learn.

Getting up and running with Fitt-in is easy. A school buys a 12-month licence, then to activate the service, teachers just click a link, and add their school email address and a password.

SPECIAL RATE FOR TEACH PRIMARY RESOURCE GUIDE READERS

Primary schools with 1- & 2-form entry can purchase their licence for just £1,450 and primary schools with 3 plus form entry can purchase their licence for just £2,900. Quote Teach Resource Guide.

STABILO® EASY Start Family

EY

KS1

KS2

Ergonomic handwriting pens and pencils that make learning to write easy

Learning to write is essential in a child's development and STABILO® wants to introduce children to the world of writing without the drama. To this end, it has developed a range of specially designed pens and pencils that provide optimal support for progressing writing skills.

It is important that children learn to hold their pen in a relaxed way and find the correct pressure for writing, allowing them to write legibly without fatigue. Different versions for left- and right-handers makes writing as comfortable as possible. Each EASY Start pen or pencil has a unique grip mould suitable for the earliest of writers, encouraging little fingers to intuitively find a relaxed hand posture.

The EASY Start range of products is designed to support children every step of the way, from the first attempts in preschool, through to those improving and perfecting their writing skills.

Early Years – Colouring

The integrated grip of the STABILO® EASYcolors colouring pencils promotes the recommended tripod grip whilst drawing – the pencils are fantastic as a first step in learning how to hold a pen correctly.

Key Stage 1 – Improving writing

In KS1 it's important to practise being able to control a pen without excessive pressure. Writing with excessive pressure causes cramping in the fingers and hand, quickly leading to fatigue. The ergonomic, integrated grip of the STABILO® EASYgraph pencils, STABILO® EASYergo 3.15 mechanical pencils and STABILO® EASYoriginal rollerball pens, provides perfect control, making them the ideal tools for learning to write.

Key Stage 2 – Perfecting writing

When children reach KS2 they should be well on their way to mastering writing. During this time they will begin to develop their own individual handwriting style. The STABILO® EASYergo 1.4 mechanical pencil and the STABILO® EASYbirdy fountain pen are the ideal combination for this stage.

The EASY Start range is recommended by teachers, occupational therapists, special needs experts and approved by the National Handwriting Association.
