- Anti-Glare coating absorbs ambient light and ensures image clarity at all angles
- Solid and robust design capable of withstanding requirements of demanding users
- Built in whiteboard software available
- Exclusive 5 year warranty for schools and colleges

Iiyama Interactive Display Solutions

Iiyama Launch the New 68 Series 4K Touch Displays with User-Friendly Tools for Education

Who we are

Iiyama is a leading manufacturer of display solutions from desktop monitors through to industrial touch screens and large format interactive displays. Focusing on professional markets that demand high quality and rugged manufacturing standards, it ensures the best user experience.

What we offer

Iiyama offer their new 68 series touch screens in 65", 75" and 86" 4K, each featuring a host of tools such as annotation software, timers, voting tools, cloud storage and file browsers. Each screen can also play content from a USB stick, such as Office files and videos. Furthermore, Iiyama has developed its Screen Share Pro software to allowing users to wirelessly stream and interact with up to 4 PC or laptop devices, as well as Android and IOS devices. Each screen features 20-point touch, a high-quality, direct LED backlit IPS LCD screen with anti-glare glass that retains sharpness of the image even from acute angles. Iiyama's screens were first designed for commercial use before demand led the company to start working within the education sector. Therefore, each screen is designed for commercial use, supporting 24/7, non-stop operation.

How will this help pupils and teachers?

For the education sector, the screen offers simple tools that don't bog teachers down with complex software that requires endless familiarisation and training sessions in order to be understood. Simplicity is key with Iiyama. Furthermore, one reason Iiyama doesn't offer a complex software package is because everything you need is already built into Windows 10 and Office (although older versions also come with a host of interactive features) such as the new 'Windows Ink Work Space' which includes a whiteboard and screen sketch function. OneNote is a powerful tool for educators and students alike, allowing teachers to create lessons and deliver presentations, making them available through Office 365 to all the students outside of the classroom, with all notes and annotations saved to a central location. The screens themselves are an out-of-the-box solution, very easy to install and include 12W speakers and a 4K high-quality IPS Display. You can see your content from anywhere in the room and benefit from a rich multimedia experience. The ability to play high-quality 4K content at 60hz with such a bright screen really adds a wow factor.

SCHOOL BADGE STORE

SUPPLIERS OF THE UK'S LARGEST RANGE OF SCHOOL BADGES AND LANYARDS

KS3

KS4

SEN

CPD

Who we are

School Badge Store is the UK's leading supplier of school badges and lanyards. It has an enormous stock facility, allowing for a fast turnaround, and offers clients the option of designing their own customised badges and lanyards with personalised school details and logos. School Badge Store is a friendly, professional, efficient, family-run company that is more than happy to help with enquiries and orders by phone, email, fax or online chat.

What we offer

School Badge Store has 1000s of badges and lanyards in stock, with a huge range of titles and colours to cover the requirements of its customers. All stock items are dispatched quickly, often with next-day delivery. Where you require a customised text / shape / colour, they can assist with designing something special for your school - all at the most competitive prices. School Badge Store also supply a large range of trophies that can all be personalised. Other products such as pencils, T-shirts, hoodies and hi-vis jackets are being added to its range of merchandise this Autumn. The School Badge Store's friendly sales team are extremely helpful and knowledgeable about their products and will go out of their way to produce and deliver top-quality results, on time.

How will this help pupils

School Badge Store supplies badges with hundreds of different texts and colours. There are many shape options too from shields, bars and stars to musical notes and art palettes - each of which is meaningful to the recipient. Pupils wear their badges with huge pride in recognition of their achievements. The encouragement, respect and pleasure that pupils feel from wearing a badge helps them to work harder and deliver the best results. A pupil who receives a badge knows their hard work, good attendance, ability or improvement has not gone unnoticed; it's the most effective reward a teacher can give a pupil of any age.

Happy Pupils Learn - encourage your pupils to reach their full potential by giving them a badge and making them smile.

BADGER LEARNING: PUBLISHING TO INSPIRE AND INCLUDE

FOR THE LATEST FICTION AND NON-FICTION TO EXCITE RELUCTANT READERS,
CHOOSE BADGER LEARNING

Providing publishing and book collections since 1989

Badger Learning has been publishing books and providing book collections for primary and secondary education since 1989. Its teacher resources and student books cover a wide range of fiction and non-fiction subjects for the national curriculum. With educational resources created to support your teaching needs, Badger Learning provides you with publishing that will inspire, motivate and develop your students literacy skills.

Accessible fiction and non-fiction

Badger Learning provides a wide range of fiction genres that address themes with diverse and exciting storylines that will appeal to readers of all abilities. Its team has a successful track record of providing current and relevant reluctant readers titles and collections that engage pupils and improve reading ability.

The company's latest awarding-winning title, *Raven*, is a recent example of this success and just one of many top-rated reluctant reader titles from a wide range of available collections.

Non-fiction titles are essential to the curriculum to encourage reading, develop literacy and improve students information gathering skills. Badger Learning recognises, however, that high-quality, non-fiction books are increasingly hard to find, which is why its catalogue of titles offer a range of styles and subjects appropriate for varying reading abilities.

New fiction to encourage reluctant readers to read for pleasure

Retaining the attention of a reluctant reader is a challenge, and Badger Learning publishing ensures that you regularly have fresh titles to encourage and develop students' literacy. Between the Lines and YA Reads II are the latest reluctant reader series from a rich heritage of titles that will appeal to your readers.

YA Reads II

Following the success of the first YA Reads, these eight titles feature more mature themes than Badger Learning's popular Teen Reads series, with a variety of real-life and dystopian settings. YA Reads II will provide your struggling readers with eight new exhilarating stories to inspire a love of reading.

Between The Lines

Badger Learning's brand-new series of fiction for struggling teenage readers, Between The Lines, will appeal to teenagers with its exciting and diverse storylines. The stories in this series feature current, mature and serious themes touching on abandonment, addiction, loss, homelessness, love, war, dystopia and what it is to be a human.

THE SCHOOL JOURNEY ASSOCIATION

THE EDUCATIONAL CHARITY OFFERING GRANTS
OF UP TO 50% + £50 FSM DISCOUNT

KS3

KS4

Registered Charity: 312526

What makes SJA unique?

Is your school looking to organise a residential trip and requires funding to make it happen? The SJA may be able to help. As an educational charity, SJA believes that every single child should be able to participate in and gain the benefits from an educational school trip. It aims to support disadvantaged children and subject to criteria, is able to provide grants of up to 50% towards the cost of a trip. All FSM students receive a £50 reduction when you book with SJA.

How SJA stands out from the crowd

Any destination is possible with SJA and as an ABTA member your group will be safe in the knowledge that you will be fully protected so you can #travelwithconfidence. SJA arranges tailor-made trips to suit your educational needs, so whether these are curriculum based, or for leisure, SJA has it all. The company organises cultural, skiing, language, sports and music trips. SJA is able to arrange geography field trips, including tours to Iceland where students will experience a wealth of dramatic contrasts. The organisation has seen an increase in demand for activity trips and is fortunate to work with a number of highly regarded centres which offer challenging land and water sports, with qualified staff and proper safeguards.

What are the benefits to students?

All teachers know that life is more than that experience confined to a classroom, or even in normal family life. A planned educational trip can expand understanding by enabling students to see and experience new ventures, new cultures, in a wide range of activities – challenging sporting ones, being introduced to industrial centres, or being involved first hand in art, music or language, meeting people from other parts of the world and perhaps, even getting their hands dirty. The experience of being with others in a social setting can enrich sociability, toughen up confidence and encourage the sharing of ideas.

TRACKIT LIGHTS

THE FREE APP THAT IS IMPROVING CLASSROOM BEHAVIOUR ACROSS THE COUNTRY

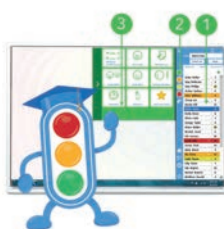

A teacher has created a free interactive whiteboard app for improving behaviour that is taking the education sector by storm. During the summer term, hundreds of teachers nationwide have downloaded the app with reports of it dramatically increasing pupil engagement.

Headteacher Jill Wood comments, "At last we have an easy-to-use, very visual tool which helps children take ownership of their own behaviour. Our staff love it, our children have better self-regulation and everyone is smiling."

Feedback from schools using "The free behaviour-boosting teaching tool" reveals that over 90% of pupils prefer it to a behaviour wall chart, leading to better engagement.

Trackit Lights has also just launched a 'premium' version of the app, which is specifically designed to meet Ofsted behaviour criteria. It integrates into SIMS (and other systems) and logs all behaviour from the board centrally, reducing the average school's behaviour admin from 20 hours a week to just one hour, and providing senior management with behaviour reports across the whole school.

To find out more, book an online demo or download Trackit Lights free, visit trackitlights.com

EASY AS...

- 1 Select a learners name
- 2 Select a traffic light

THE NATIONAL AUTISTIC SOCIETY

MYWORLD IS THE NATIONAL AUTISTIC SOCIETY'S SCHOOL RESOURCE PROGRAMME, OFFERING SUPPORT FOR TEACHERS AND EDUCATION PROFESSIONALS

If you have an autistic student in your class, you may not know about the many small ways in which you can help them to have a better time at school. Sometimes it's a little bit of the right kind of extra support which can make all the difference to someone on the autism spectrum who is struggling.

If you are a teacher or education professional, sign up to MyWorld now to get free information and resources straight to your inbox every fortnight. The campaign is designed to help teachers and other education professionals support pupils on the autism spectrum in schools, by providing access to the best resources and information.

Sign up to MyWorld to receive fortnightly resource emails to help you support your autistic students at school.

ACTIVE ROBOTS

PROVIDING A HANDS-ON APPROACH TO CODING WITH LEGO® EDUCATION RESOURCES

Who are we?

Active Robots, based in South West England, are a leading provider of educational robots and components for all levels of education, supporting engineering and STEM (Science, Technology, Engineering & Maths) subjects with a range of robotic products from large units to small classroom sets. Whether you need to introduce your class to robotics and coding for the first time or you want to enhance their skills even further, we can help. We aim to support teachers with STEM subjects in educational facilities by encouraging the development of technology and computer sciences from a young age, giving pupils a head start in this ever changing environment. One way that we promote this is through LEGO® Education resources. They empower teachers and their pupils to explore, learn and apply coding to the real world by uniquely combining the familiar LEGO® bricks with easy-to-use coding software and engaging STEM challenges that have been designed to meet curriculum standards.

What we offer?

The LEGO® MINDSTORMS® Education EV3 solution is aimed at secondary school pupils (KS3-4), providing hands-on, fun and challenging lessons for teaching coding & STEM subjects, allowing teachers to tick important curriculum boxes. Active Robots provide the LEGO® MINDSTORMS® Education EV3 classroom sets and a range of add-on accessories to really expand pupil and teacher experiences with STEM through coding. The solution is fully classroom-ready with curriculum content and teaching support available, everything you need to enable every pupil to succeed. Get your pupils designing, building and testing robots that can carry out complex tasks, record live data, respond to environmental changes and more, the only real limit is their own imaginations. Currently, we are offering 20% off LEGO® MINDSTORMS® Education EV3 sets with the code TS0917 – see the end of the article for more details.

How will this help pupils?

The LEGO® MINDSTORMS® Education EV3 set comes complete with easy to follow lesson plans, making programming and engineering simple and fun, enabling students to gain confidence in the rapidly growing industries of technology and robotics. The EV3 solution is fully integrated and class-room ready with ongoing teacher support, assessment tools and guides to help get started with coding. Combining the familiar LEGO® bricks with easy to use software, including a drag and drop interface and interesting designs, LEGO® Education resources help make coding a reality through real life problem solving and hands-on learning experiences. Their unique nature will help encourage problem solving and boost digital confidence by allowing students to build and challenge a device that will react to the world around them. These products will not only give pupils an invaluable head start with the computing curriculum allowing them to be curious and hands on, but also gives teachers the confidence they need to tackle these subjects. In addition, **curriculum material, software and teaching support is freely available to download at LEGOeducation.com/downloads** giving teachers all the resources they need to hold engaging and exciting computer science & STEM subject lessons.

To take advantage of our 20% off offer, please contact our sales team on 01761 234328 or email sales@active-robots.com with the code: TS0917.

MATHLETICS

**AN AWARD-WINNING DIGITAL MATHS RESOURCE,
SPECIFICALLY DESIGNED FOR PERSONALISED
TEACHING AND LEARNING AND PROVEN TO IMPROVE
STUDENTS' CONFIDENCE AND RESULTS.**

What's on offer?

Mathletics contains powerful, curriculum aligned content and an extensive range of supporting resources grouped by topic for easy student access. Mathletics is proven to increase student engagement; encourage independent learning; help develop and consolidate conceptual understanding and effectively support transitioning.

For teachers, time saving features provide an immediate snapshot of student results. Automated reports, simple customisation capabilities and 'Assign' functionality allow teachers to schedule and plan ahead, enabling effective data driven teaching and learning.

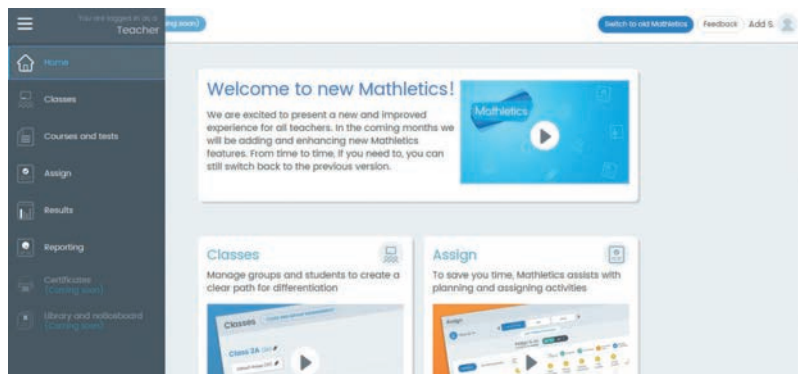

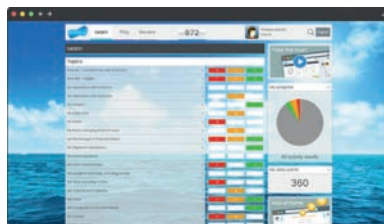

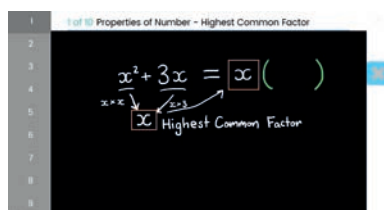

How will it help students?

Mathletics is proven to significantly improve levels of attainment and progress (independently validated by the University of Oxford in 2015).

Students have access to a vast range of effective learning resources (activities, eBooks and videos) providing them with all the tools they need to become successful learners.

Age-appropriate learning spaces motivate and captivate students, while a traffic light system helps students drive their own learning through excellent visibility of progress and results.

Mathletics is accessible on PC and tablet devices at school and home, making it flexible as a classroom teaching resource and for setting homework.

To register for a free trial at your school, please visit
uk.mathletics.com/freetrial

THE MANOR HOUSE & ASHBURY HOTELS

KS3

KS4

SEN

LOCATED ON THE FOOTHILLS OF DARTMOOR,
DISCOVER A SPORT AND CRAFT HOTEL LIKE NO OTHER

Who are we?

With unrivalled indoor and outdoor facilities, the Manor House and Ashbury Hotels provide the ideal place for your next activity holiday. The team aims to provide a wonderful opportunity for children to experience new challenges, whilst learning valuable life skills, gaining confidence and most of all having a fun packed, active holiday that they'll never forget.

What's on offer?

An exceptional range of indoor and outdoor sports and leisure facilities is offered including; tennis, badminton, bowls, swimming pools, ten pin bowling, archery, air rifles/pistols, ice skating, roller skating, snooker and team sports. The full size all weather pitch is perfect for team sports as well as coaching events and tournaments.

There is also the chance to make use of a magnificent craft centre, with 18 tutored crafts, including glass engraving, pottery and woodwork. All tuition is provided free of charge, so you only pay minimal costs for the materials used.

The dedicated schools co-ordinator and activities team are here for you. Just let them know which activities you'd like to take part in and they'll put together a bespoke programme for your group, meeting all of your needs.

PLUS once you arrive, fully trained activity staff will run all of your sessions, giving you more time to enjoy the activities and create fantastic memories that your group will never forget.

What's included in the price of your break:

- Full board en-suite accommodation
- 3 daily meals - buffet style breakfast, lunch and dinner
- Sport and leisure - choose from 50 activities a day
- Expert tuition in 18 crafts
- Fun house, Games Zone, Pedal Karts and Waterslide Complex
- Evening entertainment
- ... and much, much more!

Many schools return year after year as they find it helps students build their confidence, develop teambuilding skills, experience an array of activities and have a great time! Plus for school groups of 20 or more staff and children, there is a generous 12.5% discount off the tariff price, with additional discounted rates for all children.

Book now for a great value activity
break in the heart of Devon.

BECOME AN EXAMINER WITH AQA

**AQA VACANCIES TO MARK IN 2018 ARE NOW OPEN.
APPLY EARLY TO INCREASE YOUR CHANCES OF SUCCESS**

How will exam marking impact you, your students and your school?

As the landscape continues to change for us all, exam marking is an excellent way to enhance understanding of the new specifications, whilst providing teachers with the opportunity to gain insight into the assessment process and receive expert training and guidance on the mark schemes and specifications.

This enhanced insight and understanding can help you with lesson plan preparation, as well as inspiring your teaching with the opportunity to review student responses from a range of different students of differing abilities.

Your school will also benefit as you build your subject expertise and help to guide colleagues and newly qualified teachers with your expert knowledge and insight.

What will it involve and will I have time to mark?

There is no doubt about it – the marking period is busy and challenging for teachers. Marking takes place shortly after the exam has been sat, so many students will be on study leave, however, this time of year is still full, so you will need to manage your time. The number of papers you will have to mark will vary according to the complexity of questions. The rule of thumb is to allow 2 to 3 hours a day for a 3 week period to get your allocation completed.

Most exams are marked online. This gives teachers greater flexibility to fit marking around teaching commitments; however we recommend you get the support of your school as it's a real balancing act to commit to marking alongside the demanding day job!

Career progression

Exam marking provides you with that foot in the door where vacancies will be advertised first to the examiner community.

As well as looking great on your CV, if you are an examiner, there are also lots of opportunities to progress. There are roles as team leaders that can build and help you to develop your leadership and management skills. You may also be interested in roles that involve developing the question paper, or reviewing the question paper - there are a substantial range of roles that can either be worked alongside teaching, or teachers can move into these roles post teaching or as part of a career shift, capitalising on your expertise as a teacher.

How can I apply?

You can apply to mark with AQA by visiting the website www.aqa.org.uk/apply - applications for 2018 are already open. If you apply now, once approved you will move through to a holding pool where you will be provided with materials and information whilst you wait to see if a vacancy is available in your subject. We usually contract people towards the end of the year and into the early part of 2018, but we will keep you informed along the way.

We look for teachers with a minimum of three terms teaching experience in the subject and level they are looking to mark within the last three years.

**Apply via AQA's website
for 2018 GCSEs and
A-levels now:
www.aqa.org.uk/apply
Email for more information

PGL TRAVEL

TAKING THE CLASSROOM OUTSIDE FOR A LEARNING EXPERIENCE LIKE NO OTHER

Q: What does a PGL experience offer students that they can't get in school?

A: PGL courses take learning out of the classroom, providing an exciting range of adventure and study-based activities designed to motivate, improve confidence and develop new skills in a safe, fun and friendly environment.

What are the benefits?

PGL courses are curriculum-linked and tailored to meet the needs and requirements of your group. Use our unique Learnlink™ pages online to find out how our courses are linked to national curricula. These pages cover our adventure activities, ski trips, courses in France and Spain plus our academic, subject-based courses including field studies, maths, science and computing.

Other significant impacts on classroom learning include increased motivation and focus as well as a noticeable growth in students' confidence, resilience and independent thinking.

What's available?

We have lots to offer, delivered by trained PGL teams at sixteen residential centres across the UK, three in northern France and a further four in the south of France and Spain. In addition, PGL Ski runs trips for school groups to hand-picked resorts throughout Europe and in the USA.

Choose from:

- Multi-activity
- Personal development & year group bonding
- Revision weekends
- Sports weekends – netball tournaments and football coaching
- Study courses – maths, science and computing
- Field studies – geography, geology, biology and environmental science
- French language and culture in northern France
- Watersports and adventure in southern France and Spain
- Skiing and snowboarding in Europe & USA

How easy is it to organise a PGL trip?

PGL is a Learning Outside the Classroom Quality Badge holder so you can be assured that our activities and courses are subject to ongoing risk assessment and our centres are subject to external verification. Our Code of Practice and Safety Management Systems meet all legal requirements and conform to best practice and appropriate industry-approved standards, which means that many of the boxes are already ticked for you.

We also provide information and resources to help you advertise your trip in school and to parents. If you do have any questions or need any help at all, our dedicated Tour Organisers are here to assist you.

There's a choice of durations and prices to suit your budget with Multi-Activity weekends starting from £79+VAT per person.

RM BROADBAND

RM[™]
Education

KS3

KS4

WS

FIND OUT WHY RM BROADBAND IS THE FIRST CHOICE FOR EDUCATION

The internet can offer massive benefits to education; it aids curriculum development, and opens up opportunities to be more efficient, flexible and collaborative. With the internet now playing such an integral role in the school it's more important than ever that you partner with a trusted broadband provider that understands the very distinct needs of the education market.

Why choose RM?

By choosing RM as your service provider you are choosing to partner with the leading supplier of internet connectivity to educational establishments in the UK.

The company currently works with 3,500 existing broadband customers and has a further 5,000 schools receiving a variety of other online digital services.

As a long established and deeply experienced education specialist, RM is dedicated to creating and maintaining an extensive range of innovative ICT solutions and services. Working exclusively in education allows the company to be 100% focused on delivering excellent educational experiences for the thousands of schools that choose RM as their ICT partner.

RM in action

"The transition was smooth and we're happy with the services that we're getting through RM. One of the key differences we've noticed is the support that we get; if there's ever a problem with the service RM will actually try and help you whilst you're on the phone and you can't say that about many other companies. I just can't oversell how good it is to be able to pick up the phone and speak to someone... We use the internet in almost every lesson and it's much more responsive now - when you've got a class of 30 pupils this can be the difference to making or breaking a lesson."

Jason Edwards, operations and network manager, King Edward VI Five Ways School

MORE INFO

To find out more about RM's internet options for secondary schools visit www.rm.com/broadband or call 0800 046 9802

STUDENTS MAKE BETTER PROGRESS WITH GCSEPOD

SCHOOLS SUBSCRIBING TO GCSEPOD REPORT A DIRECT CORRELATION BETWEEN USAGE AND STUDENT PROGRESS

Who are we?

GCSEPod is an award-winning education publisher of digital learning and revision content for students working towards GCSE and IGCSE qualifications in KS3, KS4 and beyond. More than 20% of the UK's secondary schools - and more and more international schools - utilise GCSEPod's vast content library. They do so to teach lessons, set homework, monitor progress and provide additional learning material to meet the needs of individual students.

What's on offer?

GCSEPod creates digital learning that appeals to millennials – today's generation of learners who consume content through desktops, laptops and mobile devices (73% of GCSEPod usage is outside school hours).

Its teacher-written subject knowledge content is created in bitesized digital chunks, mapped to exam specifications. That ensures a much broader exam coverage and an ability to react far more quickly to curriculum change than traditional publishers. The content doesn't go out of date as print resources do. GCSEPod offers phenomenal value, covering more than 20 subjects for no more than the cost of a set of text books or study guides for 1 or 2 subjects.

Launched initially as a revision resource, GCSEPod is increasingly being used for flipped learning and as a classroom resource, freeing up valuable time to allow teachers to do what they do best – teach.

GCSEPod is helping to reduce teachers' workloads, allowing them to spend greater time monitoring their students' progress and providing tailored intervention. The service includes a 25,000 strong Question Bank which helps teachers to set relevant work quickly and easily. The system even assesses students' responses in order to identify knowledge gaps. It then provides focused learning playlists in order to fill any holes in their understanding.

A GCSEPod licence includes full support, advice and training to ensure the system meets the stated objectives of the school or college throughout their subscription – whatever those objectives are.

How will it help students?

GCSEPod data gives invaluable insight into students' engagement and learning habits, saving teacher time and helping teachers to offer individual intervention. Data shows a direct correlation between high student usage and improved Progress 8 scores (and other accountability measures). GCSEPod recognises that it is no longer acceptable to control how content is drip-fed to audiences; instead, the audience want complete autonomy to watch, read and listen as they choose. GCSEPod understands exactly how to provide content to millennials who have grown up with

Instagram, You Tube and Facebook and now expect immediate access to content of choice across an array of technical devices.

As a result, GCSEPod appeals to all types of learning styles and is used across the board by students of all abilities. It often comes as a surprise to teachers to discover that their hardest to engage students are amongst some of the highest users, attracted by the style and accessibility of the content and the opportunity to learn in private. Yet GCSEPod counts many high achieving schools amongst its subscribers, where students use the content to broaden their understanding, quench their thirst for learning and cement their

subject knowledge.

GCSEPod is proving an effective learning tool to help students to combat exam anxiety and is increasingly being recognised and often recommended by paediatric psychologists as a way to help students study more effectively in a style which meets their needs and feel better prepared.

GCSEPod is offering readers of Teach Secondary free set up – usually charged at £250. Quote TS backtoschool2017 to access this offer.

**One in four UK secondary schools are using GCSEPod as a cost effective resource to maximise their students' achievements.
Is your school and your students missing out?**

THE HUE HD PRO

THIS CLEVER CAMERA AND VISUALISER IS AN AFFORDABLE WAY TO TEACH WITH ADDED BRILLIANCE

The HUE HD Pro classroom camera and visualiser is the latest addition to the HUE range of USB cameras. This camera can view a full A4 page and project it onto the whiteboard via your PC and projector. At only £44.95 + VAT you can afford one in every classroom - BUY 5 and get an extra one free – limited offer expires September 30th 2017.

- Available in 4 colours and compatible with Windows and Mac OS X.
- The length of the neck makes this camera perfect for viewing a full A4 page.
- The built-in LED lights will help illuminate your subject.
- It's full of character just like its older brother the HUE HD camera – but with a new design for the head and base.

The HUE HD Pro also comes with specially designed software, HUE Intuition, to allow you to master the full functionality of the camera with ease.

HUE Intuition allows you to:

- Record video and sound and save movies locally, email or upload to YouTube
- Annotate images and save as JPG/BMP/PNG/GIF
- Take snapshots
- Take multiple images over time

Use the HUE HD Pro for:

- Demonstrating a science project
- Taking snapshots of students' work
- Recording a technique or experiment and replaying it to the class
- Stop motion animation
- Time-lapse photography
- Chatting with remote schools in other countries with software such as Skype™

"A HUE Pro Camera is ideal for getting together, getting focused and getting down to the business of learning. Use the HUE HD Pro as a basic microscope, use it for student presentations, Vlogging, video chats with other schools, or whatever you like... but above all just use one – it offers more than a fixed webcam ever could and it could open your eyes to the possibilities of teaching things differently."

John Dabell, for Teach Secondary magazine.

SCOUT ADVENTURES

AMAZING THINGS CAN HAPPEN IN THE GREAT OUTDOORS

Who are we?

Scout Adventures is all about the big moments. Whether it's leaping off a jetty into a lake at the end of a day's canoeing, chatting about the day's activities in a bunk bed after lights out, or roasting marshmallows over glowing embers, these are memories being made.

But something else is happening too. Young people are learning the character skills they need to succeed: leadership, teamwork, resilience and initiative. To them it feels like fun, but these are the experiences that help them grow as people.

What's on offer?

At Scout Adventures, the belief is that amazing things can happen in the great outdoors. With its expertise in informal, outdoor learning, and world-famous Scouting heritage, the organisation has inspired generations of young people to reach their potential and learn skills for life.

The residential is often the highlight of your year. That's why it's important that you have the information and support you need to make the right decision.

Scout Adventures will provide you with the information and resources you need to share with your team before you decide. It's a priority that you feel comfortable with every aspect of the journey, from enquiry and booking to arrival and post visit.

Once you've made the decision to book with Scout Adventures, you'll be looked after every step of the way.

Scout Adventures is proud to promise:

- Safe and accredited instructors
- Free resources and support at every stage
- A huge range of activities

How will this help students?

Scout Adventures will work with you to increase attainment, break down barriers between teachers and pupils and help you meet learning objectives.

COLLINS

EDUCATION RESOURCES HELPING ALL STUDENTS TO MAKE GOOD PROGRESS

Who are we?

Collins has been publishing educational books written by teachers for almost 200 years. Resources are designed to be accessible and engaging for your students, and provide the support you need to plan and deliver high quality lessons.

What's new?

New for this academic year are lots of exciting resources. You may have already heard about Collins' A-level Maths Student Books for the 2017 specification – choose between the version suitable for all exam boards, or the version fully endorsed by Edexcel. Collins is also publishing a maths series designed to help all students achieve a high level via the mastery approach: The Shanghai Maths Project. For English, the Set Text Student Guides will help to prepare learners for GCSE exam success. Plus - look out for the brand new Key Stage 3 Knowing Religion series.

How will they help you and your students?

Helping all students make good progress is at the heart of Collins publishing. Assessment is embedded throughout many of our courses, providing plenty of opportunities for students to check their understanding of a topic and assess their progress, as well as enabling you to target areas for improvement. The A-level maths resources provide plenty of exam-style questions alongside trusted theory to fully prepare students for the challenges of the new specification, meanwhile The Shanghai Maths Project provides ideal supplementary practice which sets high expectations for all. Collins supports you and your students in the classroom, helping you to deliver inspiring lessons, and the new Key Stage 3 Knowing Religion resources aim to do just that, providing engaging content-rich lessons that give Key Stage 3 pupils the knowledge of religions and practice of extended writing that will prepare them to meet the demands of the new Religious Studies GCSE.

ASPECT SAFETY MIRRORS

DANCE STUDIO & GYM MIRROR SPECIALISTS

Dancestudiomirrors.co.uk and gymmirror.co.uk are owned and operated by Aspect Safety Mirrors Ltd (ASM), a family run business based in Cambridge, undertaking contracts throughout the UK. ASM has been supplying and installing shatter-resistant and unbreakable mirror products for over 10 years.

ASM is the preferred mirror supplier and installer for many of the UK's schools, colleges and universities. Last year ASM completed over 300 installations throughout the UK.

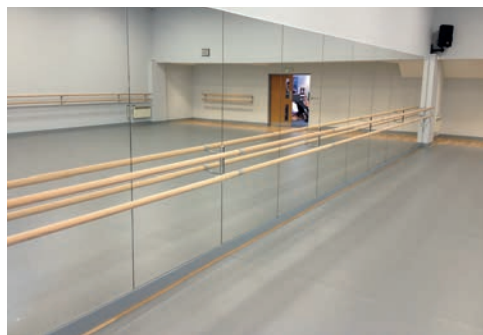

The company also supplies ballet barres incorporated into mirrors, and portable mirrors, which are a fantastic alternative when mirrors cannot be wall mounted.

Call for a free competitive quotation, advice and information on products, or visit the websites for further information.

ARTS AWARD

ACCREDIT YOUR ARTS PROGRAMMES WHILE DEVELOPING STUDENTS' 21ST CENTURY SKILLS

What is Arts Award?

Arts Award comprises a range of qualifications that support children and young people aged up to 25 to grow as artists and arts leaders. Students participate in the arts world by taking on challenges in any art form – including visual art, fashion, music, film and performing arts. There are four levels of Arts Award qualification, which are regulated by Ofqual. Gold carries 16 UCAS points. Accredite your existing arts provision, raise the profile of the arts in your school and provide young people with the opportunity to achieve an arts qualification before, or outside of, KS4 and 5 exams.

How can Arts Award work for you?

Arts Award's flexible framework means it can easily work with your existing curriculum, interventions or extra-curricular activities. Alternatively, you can devise a programme just for Arts Award – how and when you deliver it is completely up to you. Arts Award supports personalised learning, and students of varying abilities - including those with SEND - can achieve awards in different contexts and timeframes. Students can focus on any arts, media or cultural activity – including literature, technical backstage roles, arts marketing, heritage, digital media, coding and film.

"Arts Award is fantastic as it allows everyone, regardless of their needs or starting point, the opportunity to develop their ability in, and understanding and enjoyment of, the arts. They can celebrate their achievements."

Helen Dickenson, Thomas Wolsey School

Uckfield Community Technology College, photo Kirsten Holist

What are the benefits for pupils?

Arts Award raises students' aspirations and provides motivation for young people, whatever their interests and backgrounds. Through Arts Award, students learn to work independently and with others, building the skills they need for success in the 21st century at school, further education and employment. A recent impact study (London Southbank University, 2016) demonstrated that achieving Arts Award has a range of positive benefits for young people, from increased confidence, to enabling them to plan and lead their own arts projects. Young people see themselves as learners, and Arts Award's impact goes far beyond the arts. Find out more artsaward.org.uk/impactstudy

"Now that most students aren't taking AS Levels, the Gold Arts Award gives students a UCAS tariff-bearing qualification to put on their application forms for university, making them stand out from peers who don't have anything now without ASs"

Shara Parry, Arts Award Adviser and Drama and Theatre Studies teacher, King's School Worcester

Get started now!

All you need to do to offer Arts Award is for at least one member of staff to train as an Arts Award adviser at your preferred levels. This half or full-day course will enable you to offer Arts Award across all art forms and age groups in your school. Once trained, you will have access to a range of free support and resources, all designed to make running Arts Award as enjoyable and easy as possible. Arts Award enables your students to stand out from the crowd in applications for higher education or employment by their ability to take ownership of their learning, and by planning and leading their own arts projects.

RED BUS CARTRIDGES

COMPATIBLE INKJET AND TONER CARTRIDGES FROM HP, SAMSUNG, BROTHER AND MORE, ALL WITH FREE DELIVERY!

Who are we?

Red Bus Cartridges is an online seller of compatible inkjet and laser toner cartridges, stocking the most popular brands such as HP, Brother, Samsung, Canon, Epson and many more. The company is a manufacturer with more than 30 years' experience, which produces everything at its Lincolnshire site, under one roof.

What's on offer?

Red Bus Cartridges offers an affordable alternative to original inkjet and toner cartridges. All of the cartridges are thoroughly cleaned and any worn or damaged parts are replaced. They are then refilled with the company's own specially formulated ink or toner powder, and each individual cartridge is tested before leaving the site.

As the cartridges are recycled, they are also more environmentally friendly! This does not affect their performance in any way though. All of the cartridges are print tested to ensure that they meet the highest standards and everything from colour to page yield will match, if not exceed, that of an original branded inkjet or toner cartridge.

Red Bus Cartridges stocks a huge range of cartridges for the most popular printers, and offers free next day UK delivery on all orders.

How will this help your school?

Printing supplies can be expensive, but with Red Bus Cartridges, you can save up to 70% using the company's cartridges. At the same time, saving on inkjet and toner cartridges doesn't mean compromising on quality. Free delivery is offered on all orders, along with account facilities for schools who want to order on a regular basis, and a no-quibble money back guarantee on all products.

**Order before
6pm Monday-Friday
for FREE next day delivery
and great savings on

LEARNING OUTSIDE THE CLASSROOM

LET YOUR STUDENTS LOOSE ON THE WILDEST LESSONS OF THEIR LIVES!

KS3

KS4

SEN

CPD

WS

Who are we?

Chessington World of Adventures Resort has been awarded a quality badge by the Council for Learning Outside the Classroom for the past three years. With over 1,000 animals in the Zoo and SEA LIFE centre, 10 themed lands and more than 40 rides and attractions, there's a world of educational adventures waiting to be explored.

What we offer

Chessington offers a programme of interactive workshops for pupils in Key Stage 3, 4 and 5 which take place in the Education Centre located in the middle of the Park. These 40 minute workshops cover a variety of strands from the National Curriculum within science, maths, technology, literacy and business. Whether they are learning about the forces at work on rollercoasters, the different ways that maths is used around a theme park or discovering how Chessington's Asiatic lion cubs adapt to their environment, every workshop mixes education and fun to bring learning to life.

In addition to workshops, Chessington's Education Team also runs educational events throughout the year. During Chessington's very own Science Week, which takes place each March, students have the chance to watch live science demonstrations and undertake scientific challenges as well as witnessing the science at work on the rollercoasters and in the Zoo. On 28th, 29th September and 8th, 9th October 2017, Chessington is running a brand new Careers Event. Students will discover exactly how their subjects relate to the jobs in a Theme Park and Zoo by attending free talks with members of staff from engineers to zookeepers, and complete a Career Exploration Guide as they make their way around the park!

New for 2018

There is no better way of bringing the curriculum to life than exploring the concepts first hand in an exciting context! Therefore, in 2018, Chessington is taking learning even further out of the classroom with its brand new Education in Action Sessions. These new educational 'walkshops' led by the Education Officer will take place out of the Education Centre at different locations around the Theme Park and Zoo to provide students with an immersive educational experience and real life examples relating to what they are learning at school.

GALLOWAY SCHOOL TOURS

WHATEVER YOU TEACH, TAKING STUDENTS AWAY PROVIDES A RICH LEARNING EXPERIENCE WITH BENEFITS BEYOND THE CURRICULUM

The benefits of learning away from the classroom are well documented and reach beyond the subject being studied. Students learn to work together, to enjoy each other's company and to develop new skills. Leaders gain valuable insight in to how students are inspired and what motivates them to learn. It's a unique experience.

As a tour operator, Galloway School Tours can organise your next residential or day excursion, from deciding on a destination and itinerary ideas to costing the tour, booking channel crossings or flights, accommodation and reserving attraction entry.

The company's experience built over 50 years provides group leaders with peace

of mind when booking as well as complete support should things need to change whilst away, such as delays with airlines or ferry providers. As a member of the School Travel Forum, and holder of the Learning Outside the Classroom Quality Badge, Galloway provides risk assessment information and understand the process from a group organiser's perspective.

Galloway provides access to many European destinations including the Western Front, Spain, Germany, The Netherlands and France.

Before planning a European residential tour, call Galloway School Tours for support every step of the way.

LAW AND JUSTICE EDUCATIONAL VISITS

KS3

KS4

SEN

CPD

WS

HANDS-ON, ENJOYABLE LEARNING OPPORTUNITIES OUTSIDE THE CLASSROOM

National Justice Museum Education delivers curriculum-linked activities in authentic courtrooms and museum spaces. Students gain a practical understanding of the law and justice system, learning more about how the courts work. Popular sessions include: courtroom workshops where students can create, prepare and present a trial in a real courtroom; taking on roles such as judge, jury member, barrister, witness and defendant.

Benefits of education workshops:

- Enhance knowledge about law, justice, crime and punishment through time
- Increase motivation, confidence and self-esteem
- Develop key skills including critical thinking, debating and problem-solving
- Broaden horizons and raise aspirations towards careers in law

Workshops take place at iconic legal and heritage sites:

- The National Justice Museum and City of Caves, Nottingham
- The Royal Courts of Justice, London
- Courtrooms and heritage sites across the North West

Curriculum links include: history, law, citizenship, SMSC and British values, PSHE, sociology, psychology English, drama, careers enrichment and more.

LANGUAGE SHOW 2017

EXPERIENCE EUROPE'S LARGEST SHOW FOR LANGUAGE PROFESSIONALS AND ANYONE WITH A PASSION FOR LANGUAGES

What is the Language Show?

Language Show 2017 will take place from 13-15 October at the Business Design Centre in Angel, London. It is the largest of its kind in Europe and this time is celebrating its 29th year running. Anyone for a passion for languages is invited to the Language Show where visitors will have the chance to get careers advice, discover opportunities to enhance their professional development, network and hear from leading industry experts all under one roof. Join over 9,000 language teachers, linguists, learners and professionals over three incredible days.

What's On?

• CPD certified Seminars

Continuing Professional Development enables teachers to maintain and enhance knowledge and skills to the benefit of their careers by improving pupil's attainment. Seen as a highly valuable activity, CPD keeps you up-to-date with the newest advances in the industry, gives you access to leading seminars and displays your commitment to self-improvement.

Every year the Language Show proudly curates an extensive, three day seminar programme offering the full quota of 7 CPD points and an official certificate to all attendees. These sessions are delivered by leading industry experts from around the world on a range of topics listed on the Language Show website, bringing together 53 seminars and 45 renowned speakers including Joe Dale, Helen Myers, Sue Leschen and Wendy Adeniji. With our online early bird special offer, tickets start from as little as £10. To register or find out more simply head over to www.languageshowlive.co.uk/london/.

• Careers Zone

Find dedicated sessions on how to make best use of your language skills and seize the opportunities available within the language world in the Careers Forum. Benefit from career advice and take the opportunity to have your CV appraised by an expert from a leading consultancy.

• Other Features and Exhibitors

We have a whole host of different features at the show including an extensive Seminar Programme (including a Language Symposium), TEFL, Travel & Careers Stage, Adventure Travel Stage, Careers Forum, Start Up Zone, CV Clinic, Langue Taster Classes, a Primary Languages Base, a Cultural Piazza and 150 exhibitors demonstrating the latest language products.

• Networking

With around 9,000 visitors over three days there will be plenty of opportunities to network with like-minded language teachers, professionals and learners.

Register for free tickets

Language Show takes place from 13th-15th October in the Business Design Centre, London. Register for free entry tickets on our website, for an early bird discount offer to our CPD certified seminars (starting from just £10), and Language Classes tickets (65% cheaper than last year). See our website for more details and to book your place - www.languageshowlive.co.uk/london/. We look forward to seeing you there.

HEGARTYMATHS

A SMART AND EFFICIENT WAY TO ASSIGN MATHS LESSONS AND PERFECTLY MATCHED ASSESSMENTS TO STUDENTS

HegartyMaths is an award-winning online maths platform. Its mission is to positively and materially change maths education at scale in the UK by providing any student, no matter their background or prior attainment, access to world-class maths support at home. HegartyMaths also saves teachers time, allowing them to do what they do best - deliver high-quality lessons and inspire their students to be hard-working and successful young people.

HegartyMaths

Best ever GCSE Maths results!

Andy Grady, Director of Learning of Mathematics at De Ferrers Academy, talks about the impact HegartyMaths has had on students' learning...

"It is no coincidence that **we achieved our best ever GCSE Mathematics results in the same year that we subscribed to HegartyMaths.**

Alongside the headline figures of over 80% Grade A*-C, we recorded our best results in terms of levels of progress for all students, the highest proportion of grade A/A* and some fantastic improvements from our January mock exams when we started to use the site heavily. We had no hesitation in subscribing for a further year and we have not renewed our subscriptions for two other online services.

HegartyMaths complements our teaching philosophy of

mastering mathematics through constant recap of previous knowledge, spaced learning and regular practice.

The new Fix Up 5 feature has been a great addition to the site and has been just the flip that our students have needed to give them that extra push in the final months of revision. **Our completion of homework and the number of questions attempted and answered by students has never been higher.**

The customer service that Colin and his team provide has been excellent and they are always looking for innovative ways to improve the site further. **I would highly recommend HegartyMaths as the cornerstone for online homework** - it reduces the workload of my staff whilst also improving the speed and quality of feedback which they can provide to improve outcomes for our students."

“

I thoroughly enjoyed it. The location is absolutely lovely, the views are amazing.

The residential itself was more challenging than I expected so I've learnt a lot.

”
